Change for deep-
ening the well for
the European Detachment
made at Calicut

MILITARY DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter:—
From the Superintending Engineer 7th Division, Coimbatore, 25th April 1864, No. 398; to the Secretary to Government, Department of Public Works, Madras.

I ought to have submitted long since the accompanying Plan and Estimate, called for in Government Order, No. 136 of 15th January. I gave the matter my best attention personally when at Calicut, on 10th January, and again on 10th March, and finding that, but little was required to be done, I ordered the work to be taken in hand as soon as possible, that it might be completed before rain fell in April.

2. The fact is that the West Hill Barrack's Well, at Calicut, was not made deep enough to afford a good supply during the dry weather, and the lower portion of it not being revetted, part of the sides has fallen in and lessened the available depth. By going six feet deeper, and revetting what is not naturally rocky, no doubt a good supply of water will be obtained, and the expense is estimated at only Rupees 575, which can be met from savings on some other Military sanction of 1863-64, to be hereafter reported.

3. By using the Windlass and Bucket, the Soldiers can help themselves to water when they want it. Otherwise it is doubtful whether any reduction of the number of Puckallies entertained will follow the increased supply of water in a Well of such depth.

Referred to the Military Department, with reference to the Order in that Department, No. 68, dated 8th January 1864.

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Govt., Pub. Works Dept.

22th April 1864.

ORDER, No. 1612, 12th May 1864.

No. 68, dated 8th January 1864.

Approved for immediate execution—on the completion of the work, the extra Puckallies sanctioned in Proceedings of Government marginally noted, will be dispensed with.
(True Extract.)
