Proceedings of the Madras Government, Public Works Department, 25th May 1864.

No. 560. Read the following Endorsement of the Consulting Engineer for Irrigation and Canal Company, dated Madras, 14th May 1864, No. 9:—

Read the following letter from R. L. BRUNTON, Esq., Interim Acting Manager Madras, Irrigation and Canal Company, to Captain J. MULLINS, Consulting Engineer, Irrigation and Canal Company, dated Madras, 13th May 1864, No. 120.

SIR,

1. I have the honor to inform you I am this* morning in receipt of Government Order No. 1,344 of the 10th instant, but I am unable to comprehend precisely what is the intended meaning of the 2nd paragraph of the Order.

* 13th.

2. I suppose needed is meant where the word "wanted" is used; the Government can hardly suppose the Canal Company would apply for land which they did not want; but even with this correction, the paragraph under notice merely intimates that the lands required by the Madras Irrigation and Canal Company are situated on the edge of a Government Canal, and that when the lands alluded to are needed by the Canal Company, it will be easy for Government to obtain them for its own purposes; and further it is stated, it will be easy when the time comes, but as no time had been stated or referred to I am at a loss to ascertain what time it is that is coming.

3. If you can obtain any further information or explanation I shall feel obliged. I fear the Board would not understand the Order in its present form.

No. 561. ORDER THEREON, 25th May 1864, No. 1,518.

As the continuation to Madras of the Madras Irrigation and Canal Company's Canal from the point where it reaches the coast is not included within the "Toombuddra project" sanctioned by the Secretary of State, the Government see no necessity for the provision by the state of land at Madras for the use of that Company.
