Proceedings of the Madras Government, Public Works Department, 26th May 1864.

No. 583. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Madras, 3rd May 1864, No. 49 :—

SIR,

1. An addition of Rupees 160 has been made in the Estimate Rupees 8,300 sanctioned by Government in their Proceedings No. 3,126, dated 27th October 1863, for the construction of ten quarters for married Students attached to the Civil Engineering College in order that panelled doors and windows may be inserted in lieu of battened ones, and to supply some minor omissions in the former Estimate.

1 Plan.
1 Abstract Estimate.

2. I have now the honor to request sanction to the revised Estimate Rupees 8,460, and to solicit that a grant of that amount may be made out of the Reserve Fund of the current year for the purpose, as it was decided by Government Order in the Educational Department, No. 79, dated 8th March 1864, that the cost cannot be defrayed from the Educational Building Fund.

3. The design for the new quarters is not adapted for so conspicuous a site as that selected for it in paragraph 2 of G. O. Educational Department, No. 253, 14th October 1863, and I would still urge that they be constructed in a more retired position.

Referred to the Educational Department with reference to paragraph 2 of the Orders in that Department No. 253, dated 14th October 1863.

The Chief Secretary has the honor to suggest that the Plan of quarters for the married Students of the Civil Engineering College, submitted with the Superintending Engineer's letter of the 3rd instant, should be revised, and that provision should be made for an upper storied building, some regard being paid to architectural appearance.

No. 585. ORDER THEREON, 26th May 1864, No. 1,530.

The Superintending Engineer, 4th Division, will be requested with reference to the foregoing Memorandum to prepare and submit a revised Plan and Estimate providing for an upper storied building for the married Students of the College. As the quarters are to be erected on a site contiguous to that selected for the Presidency Store and Workshop, the design of the two buildings should harmonize as far as possible.
