Proceedings of the Madras Government, Public Works Department, 2nd June 1864.

No. 51. Read the following letter from Captain H. TULLOCH, R. E., Special Executive Engineer, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Madras, 26th May 1864, No. 5:—

SIR,

1. I have the honor to request you will obtain the sanction of Government to my having printed in the Government Press both the Report and Specifications to accompany my Plans on the Drainage of Madras. As several copies of these papers will be required by Government it will save time if they are printed at once.

2. In their Order No. 1,369, dated 12th May 1864, Government directed me to explain certain apparent discrepancies in my reports. In my letter of the 3rd May 1864 I inadvertently used the word "drawings" when I should have said "copies." As the copies of the drawings in connection with the Drainage project when submitted to Government will be all of one size, stitched together in book form and arranged for convenient reference, I found it impossible to adopt the same system with them as I had followed with the original drawings, which have not been prepared of a uniform size and shape. I extremely regret that this misapprehension should have arisen with reference to my work, but I beg to assure you that the mistake was caused by my not having clearly shown that my remarks were confined to the copies only and not to the original drawings.

No. 52. ORDER THEREON, 2nd June 1864, No. 1,611.

Sanctioned as requested in paragraph 1.

(True Extract.)
