399

Dated 17-3-1864.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
17th March 1864.*

No. 399.

Dated 17th March 1864, No. 806.

At the instance of several of the Planters in Wynaad, the Government has had under its consideration the state of the roads in that country, and more especially the communication from the Mysore frontier to the coast via Tuppacaudoo, Goodalore and the Carcoor Ghát. In order to determine the lines on which the available labor should be concentrated the Superintending Engineer, 7th Division, will be requested to submit, at the close of the present season, a detailed report on the condition of the different Gháts and lines of road, showing the work remaining to be done on each and the amount required to complete.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, B. E.,
Secretary to Government.

To the Superintending Engineer, 7th Division.

Exd. S. T. Augustin.

A reference had better be made
to Col^r Walker whom might
be instructed to expend as
much money as possible
upon this line of road with
a view to rendering it passable
for cattle at as early a period
as possible -

I do not recollect that the
Gov^t has ever been furnished
(except in one instance) with
a detailed report of the state
of the Wyand road. Let
Col^r Walker be directed at the
close of this present season to
submit a detailed report
of the condition of the different
branches & lines of road

84
stating the work to be done
on each section into what
it may be advisable to
divide the work - and the
probable cost of completion
There will then be in
a position to decide upon
which branch concentrates
labour with a view to
speedy completion
