MADRAS RECORD OFFICE.

Government of Madras.

Public works DEPARTMENT.

G.O. No.	813	Press
		Mis.
412-413		
Dated	17 - 3 -	18 64.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
17th March 1864.*

No. 412. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 12th March 1864, No. 5,636:—

SIR,

1. In November last the Executive Engineer Mount Range, Madras District, submitted for sanction a Plan and Estimate amounting to Rupees 140, which had been prepared at the requisition of, and was subsequently approved by, the Barrack Master, for the construction of a masonry staircase in lieu of existing wooden steps, leading to the roof of the old Horse Artillery Hospital at Saint Thomas' Mount, now occupied as Family Quarters.

1 Plan.
1 Estimate.

2. The Executive Engineer explained that the steps in question were too rotten to be repaired, and that the Officer Commanding the Station had recommended the substitution of a

"The repair of a building shall consist of the restoration of its damaged parts with such alterations of form, dimensions, and material as may be indispensably necessary, &c., &c., &c."

masonry staircase, upon which I authorized the execution of the work from the funds allotted in the Budget for repairs, Rupees 10,830, under the head "Accommodation for Troops," as I considered that it was of the same class as that adverted

to in paragraph 100, Chapter V. of the New Code. The Officiating Controller and Auditor of Public Works Accounts has, however, now brought to my notice that under the Proceedings of the Government of India, No. 105, dated 13th October

Proceedings of Government No. 2,715, dated 12th November 1862.

1862, he "is not at liberty to pass the work as a *bonâ fide* repair," and that it should be "treated as a renewal or a

substitution of one class of work for another," which apparently are to be considered as "new works." I have therefore the honor to re-submit herewith the Plan and Estimate furnished by the Executive Engineer for the work in question, and to request that it may be sanctioned from the saving which has been effected on this year's allotment from the sum set apart for "Minor New Works," for the following:—

	Estimate.	By whom and when sanctioned.	Allotment for 1863-64.	Saving effected in consequence of allotment not being required.
	RS.		RS.	RS.
Constructing Sluice to Nandaverput tank in the Madras District.	207	Superintending Engineer, dated 24th Aug. 1863, No. 1,915.	207	207

of which 140 Rupees will be required for the work in question.

No. 413. ORDER THEREON, 17th March 1864, No. 813.

1. As the work referred to in this letter was authorized for immediate execution by the Superintending Engineer, 4th Division, and as it has probably ere this been completed, it is unnecessary for Government to accord formal sanction to the Estimate.

2. The cost of the staircase, viz., Rupees 140, will be met from the current year's Reserve.

(True Extract.)
