*Proceedings of the Madras Government, Public Works Department,
21st March 1864.*

No. 481. Read the following letter from Lieutenant-Colonel G. W. WALKER, R. E., Superintending Engineer, 7th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Coimbatore, 12th March 1864, No. 348 :—

SIR,

I have the honor to report as follows on portions on Government Order No. 542 of 23rd February :—

Paragraph 8. The sum of Rupees 27,233 formed part of the large sanction for the Wellington Barracks, and as such, a Bill for the expenditure in question was passed by the Controller under date the 11th December 1863. The non-entry in list of June is accounted for by the Superintending Engineers having objected to the expenditure altogether, and endeavoured to debit the sum against work.

Paragraph 14. The other works alluded to in latter part of this paragraph were sanctioned by Government Order No. 276 of 25th January.

Paragraph 16. The necessity of a separate sanction for Sispara Bungalow repairs has been brought to the notice of Government in my letter No. 342 of 25th February 1864.

Paragraph 27. The explanations required will accompany the Bills for the completed works.

Paragraph 32. The Udapi Cutcherry is so near completion that explanation in this case also will more appropriately accompany the Bill. It is one of the works for mismanagement of which Mr. Vardon forfeited my good opinion.

Paragraph 35. On a more exact comparison of dates, Government will see that the imputation of inexactness in the Registry of Appropriations of the 7th Division, cannot be supported—the fair copy of the Statements having been despatched from my Office on circuit before receipt of any of the Government sanctions alluded to.

P. S.—Paragraph 29. Out of the Rupees 2,659-9-9 (Rupees 2,660) of Income Tax Funds alluded to as available from 1862-63, Rupees 1,968-2-3 unspent of the allotment of Rupees 21,765 for the Malliappoorum and Ponany road, requires no special sanction to enable it to be used for that road in 1863-64; and that sum will suffice. With the balance of Rupees 691-7-6 it is now proposed to supplement the grant of Rupees 3,128, made in Government Order No. 162 of 16th January 1864, for progressing with the foundations of the bridges below Karcoor Ghát. I find it to be emergently required to make the most of this dry season; and it is available from the following unexpended balances of 1862-63 :—

	Rs.	A.	P.
Metalling Perumbaddy road ...	650	11	0
Chetweye and Ponany Canal ...	39	11	3
Cannanore and Kavoy do. ...	0	13	0
Road for opening the Wynad ...	0	4	3

No. 482. ORDER THEREON, 21st March 1864, No. 846.

1. In Statement III, reviewed in Proceedings dated 23rd February 1864, No. 542, the Superintending Engineer provided for a sum of Rupees 785 required to meet a portion of the cost of extra superintendence on the Wellington Barracks. It would seem from the explanation now furnished by Colonel Walker that a Bill for the amount has been passed by the Controller and Auditor of Public Works Accounts; if so, it does not seem necessary to make the grant applied for, and the object of the entry in the Statement is not apparent.

2. The Superintending Engineer has been informed in Proceedings dated 16th March 1864, No. 794, that the Government is unable to allot any funds specially for repairs to the Sispara Bungalow.

*Proceedings of the Madras Government, Public Works Department,
21st March 1864.*

3. A report on the expenditure incurred on the Udapi Taluq Cutcherry in excess of the Estimate, will be awaited.

4. The Government approves of the appropriation to the bridges below the Karcoor Ghát of the sum of Rupees 691, shown to be available from Income Tax Funds; but Colonel Walker will be requested to specify by reference to Budget Nos. and dates of sanction, the particular works from the allotments of which the saving will be effected. It is difficult to ascertain this from the information given in the Postscript to the Superintending Engineer's letter recorded at the head of these Proceedings.
