G.O. No. 928 Press / Mis.

73-74

Dated 4-4- 1864

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 4th April 1864.

No. 73. Read again letters from the Superintending Engineer, 8th Division, dated 1st September and 19th October 1863, Nos. 445 and 936, and recorded in Proceedings of Government dated 11th September and 30th October 1863, Nos. 2,610 and 3,165.

Read also the following letter from Captain F. J. MOBERLY, R. E., Superintending Engineer, 8th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Coilputty, 17th March 1864, No. 2,130 :—

SIR,

1. I have the honor to call attention to my No. 936 of 19th October 1863, with which I forwarded letters from the Collectors of Madura and Tinnevelly, the former disapproving of, the latter assenting to my proposition to be allowed to cut branches which overhung the road within 12 feet of its surface.

2. I am compelled to make this application as the condition of the avenues in both Districts is still very unsatisfactory. On the Trunk Road in Madura there has been of late considerable improvement, but it was only in December and January after I pressed the Tahsildar of Meylur to see for himself that branches were cut sufficiently for my pony carriage to pass under.

3. On other lines there is no attempt at keeping the trees clipped.

4. In Tinnevelly in many places on a level a horseman cannot see the road 100 yards off owing to the trees, and this in the neighbourhood of Satur where the clippings would be useful fuel for the bridge work; my Overseer complains that he cannot get the road fairly worked in consequence, I trust that the Government will be pleased either to give the Officers of the Department Public Works the power of removing such obstructing branches, or take some steps to ensure its being done by the Revenue Officers. I have had complaints lately made to me as to the injury done to their carriages by travellers who, as I believe very naturally, supposed that the charge of the roads and their avenues were under the same Officers.

5. I would point out that there is not any Establishment for the charge of the avenues, and the Collector of Tinnevelly has, as far as I can make out from his Local Fund Statements retained no money for the purpose, as he has handed over to me the entire amount of the Jungle Conservancy Fund for expenditure in planting banks of channels, &c., to do which I am obliged to keep a special Establishment.

No. 74. ORDER THEREON, 4th April 1864, No. 928.

The letters recorded above will be referred to the Revenue Department, for consideration with reference to its Proceedings No. 1,192, dated 4th July 1863.

To

Colonel C. A. Orr R.E.
Secretary to Government P.W.D.

Sir,

Public

I have the honor to call attention to my No 936 of 19th October 1863 with which I forwarded letters from the Collectors of Madura and Tinnevelly, the former disapproving of, the latter assenting to, my proposition to be allowed to cut branches which overhang the road within 12 ft of its surface.

3 I am compelled to make this application as the condition of the avenues in both Districts is still very unsatisfactory. On the Trunk Road in Madura there has been of late considerable improvement, but it was only in December and January after I pressed the Tahsildar of Meylatur to see for himself that branches were cut sufficiently for my pony carriage to pass under.

3 On other lines there is no attempt at keeping the trees clipped.

4 In Tinnevelly in many places on a level a horseman cannot see the road 100 yards off owing to the trees - and this in the neighbourhood

of -

of Satur where the clippings wants be useful fuel for the bridge work- my Overseer complains that he cannot get the road fairly worked in consequence. I trust that the Government will be pleased either to give the Officers of the S.F.W the power of removing such obstructive branches or take some steps to ensure its being done by the Revenue Officers- I have had complaints lately made to me as to the injury done to their carriages by travellers who, as I believe very naturally, suppose that the charge of the roads and their avenues were under the same Officers.

S I wants point out that there is not any establishment for the charge of the avenues and the Collector of Tinnevelly has, as far as I can make out from his local fund Statements, retained no money for the purpose, as he has handed over to me the entire amount of the Jungle Conservancy fund for expenditure in planting banks of channels &c. to do which I am obliged to keep a special establishment.

I have &c.

F. Cadell Captain R.E.

Superintending Engineer &c. &c.
