*Proceedings of the Madras Government, Public Works Department,
2nd May 1865.*

No. 30. Read the following Proceedings of the Madras Government in the
Financial Railway Department :—

Directing that the Arithmometer recently
supplied to the Consulting Engineer
for Railways, be sent to the Mechanical
Engineer in charge of the Public Works
Store and Workshop, to be put into
proper working order. (Here enter 24th April 1865, No. 246.)

No. 31. ORDER THEREON, 2nd May 1865, No. 1,180.

MISCELLANEOUS, No. 5.

Communicated to the Officer in charge
of the Store Department.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Officer in charge of the Store Department.

Exd. S. T. Augustin.

*Proceedings of the Madras Government, Financial Railway
Department, 24th April 1865.*

No. 72. Read the following letter from Lieutenant Colonel P. P. L. O'CONNELL, R. E., Consulting Engineer for Railways, to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Fort Saint George; dated Madras, 12th April 1865, No. 223.

I have the honor to acknowledge the receipt of the Arithmometer, forwarded with the Under Secretary's communication of the 30th ultimo, No. 157, and to state that I have tried the instrument, and find that it answers very well for working additions and multiplications; but, in consequence of one of the brass plates being slightly warped, from the effects of the weather, it does not work divisions as it should do.

2. As I am about leaving India, I have no time to see the instrument put in order, which I think it can be by the Mechanical Engineer attached to the Public Works Store and Workshop Department at the Presidency.

3. A very little examination is sufficient to enable a person acquainted with machinery to understand the working of the instrument, though a lengthened description, unaccompanied by a large number of drawings, might still leave him without a complete and clear conception of it.

4. Colonel Anderson will, I hope, be able to give his attention to the instrument, and get it into proper working order.

No. 73. ORDER THEREON, 24th April 1865, No. 246.

Ordered that the Arithmometer be sent to the Mechanical Engineer attached to the Public Works Store and Workshop Department, who will give his attention to the instrument, and get it into proper working order.

(True Extract).

A. J. Arbuthnot
Chief Secretary.

To the Consulting Engineer.
Public Works Department.
