## MILITARY DEPARTMENT.

## PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter:—

From the Commissary General, Madras, 5th April 1865, No. 11,110; to the Secretary to Government, Military Department, Fort Saint George.

With reference to Proceedings of Government, No. 934 of the 8th March 1865, passing orders on the Report of the Committee on Commissariat Stores, I have the honor to request that Government may be pleased to give early orders for the carrying out of the alterations recommended by the Committee.

2. In paragraph 4, the Committee observe, "circumstances which will hereafter be pointed out forbid, and must still continue to forbid, any Store-keeper doing more than attempt a partial amelioration, unless Government will itself supply the remedy by authorizing a change in the buildings as they now exist."

3. At paragraph 22, the Committee "deem it right to state that in their opinion nothing can be worse or more ill-adapted than are the buildings at the disposal of the Commissariat, or their stowage for the concentration of the Stores."

4. I trust therefore that the alterations recommended by the Committee, and especially those having reference to the stowage of Porter daily expected from England, may be at once carried out. The Timber Depot, Bankshall and Granary having been withdrawn from this Department, I have the honor to report that whilst stowage room is required for 2,800 Hogsheads, we have not now space for one-third of that number.

ORDER, No. 1579, 27th April 1865.

Ordered to be communicated, with the Plan, to Department Public Works, in view to measures being taken as early as possible to carry out the alteration in the Arrack and Porter Godown, as recommended by the Committee in paras. 25 to 32 of their Report, recorded in Proceedings of Government marginally noted.

2. The question referred to the Revenue Department in paragraph 6 of that Order, need not delay the execution of the work as suggested by the Committee—as the separation of the Arrack store under the Collector of Madras can easily be effected if required.

3. The water supply, as proposed in paragraph 29, appears desirable and should be included in the Estimate.
