*Proceedings of the Madras Government, Public Works Department,
10th May 1865.*

No. 210.

Dated 10th May 1865, No. 1,269.

CIVIL WORKS, No. 28.

1. In his letter of the 28th October 1864, No. 125, the late Superintending Engineer of the 3rd Division applied for

the services of an extra Overseer to be placed at his disposal for the special superintendence of the Toongabuddra channels in the Bellary District, but the Government were, at that time, unable to comply with the requisition. The late augmentation of the Department has, however, added an Overseer to the Establishment in Bellary, who will be available for the duty in question.

2. Captain Moberly will immediately proceed personally to inspect the whole of the Toongabuddra channels in Bellary, and he will submit without delay a full report upon them, explaining generally the means adopted for their conservancy, and stating, in detail, the measures taken for their annual repair.

3. In paragraph 3 of the Order of the 10th January 1865, No. 67, the special attention of the Superintending Engineer was directed to be given to the state of the works of irrigation and communication throughout Bellary, and especially to the roads in the Western Taluqs kept up from Local Funds. There is no information before Government to show to what extent these instructions have been attended to, and Captain Moberly will therefore now report whether he has taken any measures to make himself personally acquainted with the state of those roads, and he will explain what arrangements he has made for their repair and maintenance during the current year.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 3rd Division.

Exd. T. O'Connor.

Council
Proceedings of the

Civil Works (S.D.)
no. 1269
No. 27
Under date the 10th May/6

In his letter of the
28th October 1864, No. 125,
the late Superintendent
of the S.D. ap-
plied for the services of
an extra Quereper to be
placed at his disposal
for the special superin-
tendence of the Toongabudo
channels in the Bollen-
shell, but the Govt were,
at that time, unable to
comply with the requisition.

The late augmentation
of the Report has,
however, added an Overseer
to the Establishment in
Bellary, who will be available
for the duty in question.

2. Captain Hoberly
will immediately proceed
personally to inspect the
wholes of the Toongabuddia
Channels in Bellary,
and he will submit without
delay a full report upon
them, explaining generally
the means adopted for
their conservancy, and
stating in detail, the
measures taken for their
annual repair.

In para 3 of the
order of the 10th January/65,
No. 67, the special attention
of the Superintendant was directed
to be given to the state
of the works of irrigation
and communication through-
out Bellary, and especially
to the roads in the Western
Taluk kept up from
Local Funds - There
is no information before
me to show to what
extent these instructions
have been attended to, and
Captain Hoberly will
therefore now report
whether he has taken any
measures to make him-
self personally acquainted
with the state of these
roads and he will

except in what amount
ments he has made for
their repair and maintenance
during the current year.

Reply to para 3 of Min. Co.
No. 3211 of 1865

The Supt. Engineer

3rd Division informed that
in consequence of the late
augmentation to the Dept.
the services of an Overseer
will be available for the
special superintendence
of the Pongabudora Channels
& requested to report upon
certain works of irrigation &
communication in the
Bellary District.
