Para. 1041 and 1915.

20 DEC 1888
W. D. Form No. 2, 109.

No. 191 of 1888
IV Circle Comptroller Division of Office. List of Disallowances
from the Contingent Bill for October 1888.

Name and Rank.	Amount disallowed.	Reason of Disallowance.	Explanation by Executive and Superintending Engineers.
(1) Printing Tender forms - Rs. 80-8-	RS. A. P. 135 6	(1) The item should have been claimed under "Advertisement" and not under "Printing". Side Standing Order No. 200 to Public Works Code paras 826 and 1355. Necessary correction has been made and the charge is ad- mitted provision- ally only pending sanction of Govern- ment with reference to Code para 267 (b).	(1) Admitted Executive Engr 21 December 1888 Aldewitt M. J. L. Sup. Engineer 31-12-88.

N.B. - This space should not be written upon as it is required for filing the list.

Carried forward ..

to known contractors and by affixing them in conspicuous places in the head quarters of the Division and the taluq in which the work is to be carried out, and hit into the charges for this purpose were shown under the head "Printing" in the Contingent bills and admitted by the Examiner without any objection.

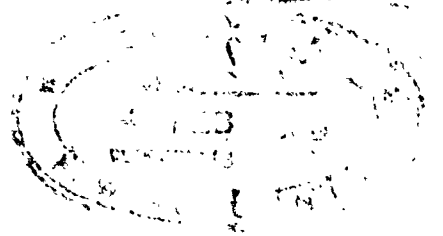

3. The limit of Rs. 25 prescribed for advertisements in para 267 (n) of the Code is hardly sufficient to meet the cost of advertisements for tenders, and as all works are divided and to be given out on contract, such applications will have to be made frequently and this will entail more work in this as well as in Government Office.

4. In these circumstances I request you will be good enough to obtain the general sanction of Government authorizing the Examiner to admit the charges without specific sanction of Government in each case.

5. Of course for advertisements in newspapers the Code's rules will be strictly adhered to. 1356

Code para 826 as modified by standing order No. 200 suggests that no distinction should be made between advertisements in newspapers and other forms of advertisements. No such distinction is made in Code para 237(n) and if such a distinction were made, it would tend to multiply the rule of Code para 237(n) by allowing an easy way of evading it.

2. For some reason or other, such charges in the Coimbatore Division are very much greater than in any other division and this great difference seems to invite enquiry.

Will order?

called

Called for each estimate and this involves rather a heavy charge for printing notices calling for tenders.

2. If para 1355 of P.W. Code is referred to it will be seen that tenders must be called for by advertisement. In this Division the system is to post in public places, and circulate to known contractors and ryots residing in the villages close to any work, notices with conditions calling for tenders. It is almost useless to insert notices in the Fort Saint George Gazette, or in the District Gazette, for the former is seldom seen by ordinary contractors, and the latter is issued only once a month.

3. As regards the printing, this has been done by a private firm, for there would be great delay if the work was given to the District Press.

4. With regard to para 2 of the Examiner's note, I beg to point out that I do not think he need have had

1356
had any doubt as to why the charges for printing in this Division are higher than the charges of the Divisions he has mentioned, for a printed copy of each notice inviting tenders is sent to him with the contingent bill, and a reference to these notices would have made it clear, that almost all the notices refer to Tank Restoration Scheme works; while in the Divisions he has referred to, there are, I believe, no Tank Restoration works with, perhaps, the exception of North Arcot.

The explanation of the comparatively heavy charge on account of printing in the Combar-tore Division is, con-sidered satisfactory.
 2. With reference to para 2 of the recent Engrs. letter it is observed that the system of distributing notices to known con-tractors is likely to nullify the object of calling for tenders publicly and is apt to result in high prices and inferior work. The Supd. Engrs. should give this matter his careful attention. Giving a matter publicity does not contemplate its being brought spe-cially to the notice of particular individuals.

To

The Chief Engineer,
 P. W. Department.

Sir,

I have the honor to request you
 will be good enough to obtain orders of
 Government authorizing the Examiner of
 P. W. Accounts to admit advertisement
 charges to the extent of Rs 300 in the Civil Works
 Division during the current official year.

2. The apparent heavy charge for
 advertisements in this Division is due
 to causes already explained vide G.O. No. 1397 of
 5th April 1889.
