Proceedings of the Madras Government, Public Works Department,
29th May 1865.

No. 545. Read the following letter from Colonel A. J. M. BOILEAU, R. E.,
Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E.,
Secretary to Government, Public Works Department, dated Madras, 16th
May 1865, No. 200 :—

SIR,

The road from Arcot to Arnee, a distance of 19 miles, has, with the exception
of bridges across the larger streams, been
now nearly brought to completion, Ru-
pees 30,445-5-9 having been expended
up to the 30th April 1865 out of the sum

1 Estimate.
1 Traffic Return.

of Rupees 32,600, sanctioned by Government in their Proceedings No. 1,617, dated
30th July 1860. It is fully time to provide an annual maintenance of grant for this
line of road. I have accordingly entered in the Income Tax Budget for 1865-66
a sum of Rupees 200 per mile, or a total of Rupees 3,800, for which I have now the
honor to submit the usual detailed estimate with traffic return, and I look to the
early sanction of the Income Tax grant to put me in possession of the requisite
funds for the maintenance of this important line.

No. 546. ORDER THEREON, 29th May 1865, No. 1,436.

CIVIL WORKS, No. 80.

1. The estimate of Rupees 3,800, submitted
with the foregoing letter, for the annual mainte-
nance of 19 miles of the road from Arcot to

Arnee in the North Arcot District is approved.

2. Provision for the work will be made in Part III. of future year's Imperial
Fund Budgets.

3. On the receipt of orders from the Government of India, specifying the
amount allotted to this Presidency from Income Tax Funds for 1865-66, the Govern-
ment will be prepared to consider Colonel Boileau's application for a grant from that
source to meet the cost of the repairs of the road during the current official year.

Establishment. Public Works Department,
Fort William, 17th March 1865.

In carrying out the Classification
of Correspondence under the headings
indicated by the Government of India,
in Circular No 5 of 1864, which it is
reported, can be done without in-
convenience, it is desirable, that the
^{Volumes}
Abstracts of Proceedings under the several
headings may, as hitherto, be submitted
together, but in separate parts, in
order to

order that they may be placed on separate files in this Office, and the undersigned is desired to request that this may be done, if there is no objection to the plan.

2. It should be explained, that all miscellaneous Cases, not connected with Works or Accounts, are dealt with in the "Establishment" Branch of this Office. There is therefore no room for a general heading "Miscellaneous," and that sub-heading under "Civil Works," is to include Correspondence relating directly to works only. Cases connected with Forest and Railway Establishments, are dealt with in the Forest and Railway branches respectively.

J. E. S. Williams
Secy to the Govt of India.

Office Memorandum.
To The Secy of Government of Madras P.W.D.
With reference to Colonel Orr's letter N^o 943, dated 6th April 1865, the undersigned has the honor to forward copy of a communication issued from this Department, to certain of the Local Governments and Administrations in which it is explained, that such cases as the Madras Government proposes to place in a separate class, "Miscellaneous," may be included under the head "Establishment," and it is requested, that this course may be followed if not found inconvenient by the Government of Madras.

Should the Government of Madras however, desire to have a more complete separation of such cases as are referred to, the main object of the Government of India would

Still

still be obtained by introducing a Subhead "Miscellaneous," under Establishment, but this course has not been followed by the Government of India in order to avoid the risk of confusion arising from there also being a Subhead "Miscellaneous," under Civil works:-

It should be added, that the only branch in which Subheads are adopted by the Government of India, is Civil works and these are as follows

(A) Buildings.

including all works connected with Revenue, Post Office, Telegraph, General, Ecclesiastical, Educational, Industrial.

(B) Agricultural.

including all works of Irrigations, Tanks, Dykes, Drainage.

(C) Communications.

including Roads, Bridges, Navigable Canals, River improvements, Accommodation for Travellers.
