*Proceedings of the Madras Government, Public Works Department,
31st May 1865.*

No 597. Read the following letter from Lieutenant-Colonel G. V. WINSCOM, R. E., Superintending Engineer, 2nd Division to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Masulipatam, 16th May 1865, No. 16:—

SIR,

1. In the proposed Budget Statement which was sent from this Office by Colonel Anderson on the 16th December 1864, sums as per margin were applied for on account of tools and plant. In the sanctioned Budget estimate this has been reduced to a total of Rupees 130 for the whole of the Kistna and Nellore Districts, a sum scarcely sufficient for a single range. The expenditure on this head in 1864-65 was Rupees 9,345.*

Kistna	RS
Nellore	1,500
	1,000

* Kistna	RS
Nellore	4,537
	4,808
	9,345

2. The Controller of Public Works Accounts in a letter No. 2,335 of 6th February 1865, objected to debit the cost of repair of tools to the several estimates on which they were actually used.

- 3 Under these circumstances I solicit the orders of Government as to the source from which the charges for the purchase and repairs of tools and plant shall be defrayed, or if necessary that an additional sum be allotted for the purpose.

No. 598. ORDER THEREON, 31st May 1865, No. 1,462.

ACCOUNT, No. 91.

1. The Government regret that owing to the limited amount of the Budget assignment for 1865-66 it was not practicable to make larger allotments for the purchase of tools and plant. They are of opinion, however, that this deficiency of funds will not practically inconvenience the Department, if Superintending Engineers will avail themselves, except in cases of special urgency, of the articles in the General Stores, which, as they are aware, may be obtained on application without cash payment.

2. Colonel Winscom will impress on his Officers the necessity of their restricting their expenditure as much as possible to actual requirements. The Government will be prepared at a later period of the year to consider any application that the Superintending Engineer may find it necessary to submit for additional funds under the head of Tools and Plant.

Read the following

Soliciting orders of Government
as to the source from which the
charges for the purchase and
repair of Tools and plant should be
defrayed & if necessary that an additional
sum be granted for the purpose.

The Government regret that owing to the limited amount of the Budget assignment for 1885/86 it was not practicable to make larger allotments for the purchase of Tools & Plant. They are of opinion, however, that this deficiency of funds will not practically inconvenience the Dept, if Subgrants will avail themselves, except in cases of special urgency, of the Articles in the General Store, which, as they are aware may be obtained on application.
