*Proceedings of the Madras Government, Public Works Department,
31st May 1865.*

No. 599. - Read the following letter from Lieutenant-Colonel E. A. FOORD,
R. E., Superintending Engineer, 5th Division, to Colonel C. A. ORR,
R. E., Secretary to Government, Department Public Works, dated Salem,
8th May 1865, No. 92 :—

SIR,

1. With reference to your Endorsement, dated 24th April 1865, on the Quar-
ter Master General's Memorandum No. 4,460, dated 17th April 1865, I have the
honor to report for the information of
Government that there is nothing on record to show by whose orders the Married
Quarters at the new Barracks at Bangalore were built of brick in clay. I believe
that Captain Goddard, when Executive Engineer, received a verbal order from
Colonel Hitchins to substitute brick in clay for brick in chunam, with a view to
bringing the cost of each quarter within 1,000 Rupees.

2. The doors and windows were prepared a long time before they were used,
and were not properly put together before being fixed in the walls. The fasten-
ings were of an inferior description. Since the complaints were made, much has
been done to remedy the defects, and two of the blocks are now in fair order, and
such orders will be given as will ensure the remainder being completed in a satis-
factory manner, before they are handed over. The Contractors have not yet been
fully paid for any of these buildings.

3. The state of these quarters will be noticed in the report on the Military
buildings called for in G. Os. Nos. 1,175 and 1,176, dated 2nd May 1865.

Forwarded to Government for
consideration and orders. The
Commander-in-Chief has to add, that
the Plan for the married Quarters
was only finally sanctioned on
the 7th May 1866, and that in the
Progress Report of Works from the
5th Division, dated 18th October last,
it was entered that these Buildings
would be completed in December
— As it seemed unaccom-
-able that Buildings so recently
planned should be completed so
rapidly, enquiry was made on the
9th November last of the Officer
Commanding the Division how it
might be explained. The Superintend-
ing Engineer reported in reply, as follows:
"Although the plan for married Quarters
was approved only a few months ago
still the work (like many others
