*Proceedings of the Madras Government, Public Works Department,
1st June 1865.*

No. 7. Read the following letter from Captain J. F. FISCHER, R. E., Controller of Public Works Accounts, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 23rd May 1865, No. 241 :—

Sir,

1. With reference to G. O. of the 16th instant, No. 299, I have the honor to request you will be good enough to bring to the notice of Government, the instructions contained in paragraph 13 of Colonel Dickens' letter, recorded in G. O. of the 9th instant, No. 1,257; from this it is quite apparent that whatever further communications may be addressed by the Government of India to that of Madras on this subject, Section 4 of Chapter XX., of the revised system of accounts is applicable to all parts of India. I beg therefore to suggest that the Consulting Engineers for Railways and the Irrigation Company, be supplied with copies of these rules, and be instructed to adopt the procedure therein laid down.

2. In paragraph 5 of this section it is stated, "that charges for land will usually be disbursed by the Civil Department on bills audited by the Controller." I beg therefore that the necessary instructions on this point may be issued to the Collectors in whose Districts these works are being proceeded with. As this paragraph is applicable not only to this Office but also to Civil Officers, it would be as well to communicate it entire to them.

3. As these rules apply to all parts of India, it is absolutely necessary they should be brought into force from the commencement of this official year.

No. 8. ORDER THEREON, 1st June 1865, No. 1,474.

ACCOUNT, No. 1.

1. Communicated to the Financial Railway Department, with reference to the orders in that Department dated 16th May 1865, No. 299, and to Circular No. 39 of 1865 from the Government of India transferred on the 27th May 1865.

2. Chapter XX., Section 4 of the revised system of accounts and the forms accompanying it will be forwarded to the Consulting Engineer Madras Irrigation and Canal Company, who will place himself in communication with the Controller of Public Works Accounts, with a view to giving effect to the new rules from the commencement of the present official year.

3. Paragraph 2 of Captain Fischer's letter will be communicated to the Revenue Department, with a view to the issue of the necessary orders to Collectors.
(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

Railway

Sir, With reference to C.O. of the 16th instant No 299, I have the honor to request you will be good enough to bring to the notice of Government, the instructions contained in para 13 of Colonel Dickens letter recorded in C.O. of the 9th instant No 1257; from this it is quite apparent that whatever further communications may be addressed by the Government of India to that of Madras on this subject, Section IV of Chapter XX of the revised system of Accounts, is applicable to all parts of India. I beg therefore to suggest that the Consulting Engineers for Railways and the Irrigation Company, be supplied with copies of these rules and be instructed to adopt the procedure therein laid down.

In para 5 of this section it is stated that charges for land will usually be disbursed by the Civil Department on bills audited by the Controller. I beg therefore that the necessary instructions on this

this point may be issued to the Collectors
in whose Districts these works are being
proceeded with. As this para is applicable
not only to this Office but also to Civil
Officers it would be as well to communi-
cate it entire to them.

3- As these rules apply to all
parts of India, it is absolutely necessary
they should be brought into force from
the commencement of this Official year.

Office of the Controller
of P. & A. Accounts
Madras 23rd May 1865

This image displays a complex, high-contrast texture. It consists of a multitude of small, dark, irregular specks and fragments of varying sizes and shapes, densely distributed across a light, grainy background. The overall effect is one of a rough, porous, or crystalline surface, possibly a microscopic view of a mineral or a heavily weathered material. The lighting is harsh, creating deep shadows and bright highlights that emphasize the three-dimensional quality of the particles.
