No. 135. Read the following letter from Lieutenant-Colonel G. V. WINSCOM, R. E., Superintending Engineer, 2nd Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Masulipatam, 13th May 1865, No. 13 :—

SIR,

In reply to your Memorandum No. 147, of 31st December 1864, I have the honor to forward a plan and sections as per margin, illustrative of the principal proposed and executed works in the Kistna Delta, which I think, together with Proceedings of Government No. 249, dated 12th February 1864, will render all the information desired by the Chief Engineer of the French Government. The sections show more clearly all the details required than any Tabular Statement could do, whilst Colonel Anderson's letter No. 143, dated 6th January 1863, explains the entire scheme for irrigating the Delta lands, and the probable results.
