M/S

*Proceedings of the Madras Government, Revenue Department,
30th January 1865.*

No. 325. Read the following letter from Lieutenant-Colonel J. C. ANDERSON, R. E.,
Superintending Engineer, 2nd Division, to Colonel C. A. ORR, R. E., Secretary to
Government, Department Public Works, dated Masulipatam, 7th December 1864,
No. 112:—

- 1 Abstract Estimate.
- 1 Specification Report.
- 1 Tracing of Plan.
- In original (to be returned)

SIR,

1. I have the honor to submit for sanc-
tion an estimate, amounting to Rupees 10,600,
for constructing a new Talook Cutcherry at Dat-
chapilly in the Kistna, together with a copy* of

the Revenue Board's Proceedings No. 6,762, dated 13th October 1864.

2. In the plan submitted to the Board a tiled roof was allowed, because it is easier of con-
struction than terracing, and because the workmen obtainable in the locality are not accustomed
to any but the roughest work. As, however, the Board attach importance to the terraced form
of roof, it may be substituted for tiles with a slight additional expense.

3. I can only estimate approximately for a well. Water is almost certain to be found at the
depth of about thirty feet, but the excavation will have to be carried throughout in hard limestone,
and the cost is not likely to be less than 300 Rupees.

Referred to the Revenue Department, with reference to Public Works Order, dated 4th
November 1864, No. 3,184.

CHEPAUK,
21st December 1864.

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government, P.W.D.

No. 326.

ORDER THEREON, 30th January 1865, No. 158.

Miscellaneous.

Exd. S. T. Augustin.

in view to an allotment being provided for in the

Proceedings of the Board of Revenue under date
the 13th October 1864, No. 6762.

Read the following letter from L. Thornhill
Esq. collector of the Madras District to W. Hindlestone Esq.
Secretary to the Board of Revenue dated Madras,
29th September 1864, No. 212. —

With reference to my letter No. 127, dated
7th July last, and the Board's Proceedings dated 8th
ultimo, No. 5041, I have the honor to transmit
copy of a letter from the Superintending Engineer 2nd
Division together with a plan and estimate amounting
to Rs 10,100 for the construction of a Taluk Cutcherry at
Sachapalli, according to the revised Standard plan
miscellaneous circular No. V, } which accompanied the Board's
Board No. 583 of 28th Jan'y 1864 }
Proceedings noted in the margin.

2. The building now occupied as a Taluk
Cutcherry is very old, and in a leaky state, and
has been pronounced incapable of permanent repair,
the construction of a new Cutcherry is therefore very
necessary.

(3) I therefore beg to recommend that the Board
will be pleased to sanction the estimated amount
in view to an allotment being provided for in the

Budget of 1865-66.

Enclosure No. 1

From Lieutenant Colonel J. C. Anderson, R. E.
Superintending Engineer, 2nd Division to L. Thornhill, Esq.
Collector of the Telangana District, dated Masulipatam,
29th August 1864, No. 54.

(1) With reference to your letter No. 35, dated
18th April 1864 I have the honor to forward herewith
an abstract estimate for constructing a Salub butchery
and out-houses at Saichapully. The arrangements of
the building are the same as those allowed in the
standard plan forwarded to me with your letter under
reply, except the roofing which I have made tiled
instead of terra-cotta. I have made no allowance in this
estimate for digging a well in the butchery yard. The
Overseer in charge of the Range having reported to
me that hardly any water could be obtained in
the wells there, in consequence of the soil being rocky.
I believe however that water is always obtainable in
the bed of the tank within a short distance of the
site of butchery.

(2) I would suggest that you should forward
the estimate to the Board of Revenue, with an ex-
planation of the circumstances under which a new
butchery is rendered necessary, and with a view

to an allotment for its construction being granted in
the Budget of 1865-66.

3. The Standard plan received with your letter is
herein returned. A copy of the plan showing the
alteration in the roof is also forwarded for your infor-
-ation.

(True copy)

(Signed) L. Thornhill

Collector

Enclosures Nos. 2 & 3. - Estimate & Plan.

(1) Under the circumstances stated, the Board
approve the proposed erection of a new butchery on
the Standard plan, but they observe that the change
in the form of roof in great measure defeats the object
of the flanking towers, and apparently renders the
building far less defensible. It must be borne in mind
that the Government specially directed that this end
should be carefully kept in view in all such buildings.
The provision of the well in the court-yard was made
with the same object and should not be omitted, except
for very good reason.

(2) The papers will be forwarded to the Super-
intending Engineer with these remarks, and it is his duty
to submit them to Government.

3. The Board request that in doing so he will
state

State separately the cost of the accommodation provided for the Revenue Department for the Police and for the Subsidiary jail.

(4) The Board are disposed to think that the fact that the whole cost of these buildings is not a requirement of the Revenue Department, is not generally borne in mind.

I have the honor to submit

for sanction an Estimate amounting to Rs 10600- for constructing a new Taluk Culcherry at Datchapilly in the Kistna, together with a Copy of the Revenue Board's proceedings No 6762 dated 13th October 1864.

2- In the plan submitted to the Board a tiled roof was allowed because it is easier of construction than terracing, and because the workmen obtainable in the locality are not accustomed to any but the roughest work. As however the Board attach importance to the terrace in form

form of roof, it may be substituted
for tiles with a slight additional
expense.

3-- I can only estimate approxi-
mately for a well, water is almost
certain to be found at the depth
of about 30 ft., but the excavations
will have to be carried through
in hard limestone, and the cost is
not likely to be less than 300 $\frac{7}{8}$.
