prepared to proceed to Cochin with me at any time after the 1st, but he observes at the same time that no advantage will be gained by visiting the place before the rains are over, as building operations must be suspended during the monsoon.

2. I fully agree with Colonel Walker that no time would be lost by postponing our visit till after the rains, but should Government think differently we are prepared to proceed without further delay than is necessary for securing the means of transit.

3. I solicit the permission of Government to make over 2,000 Rupees from the Port Fund at Cochin to Colonel Walker to enable him to collect materials, so as to commence a column on the site that may hereafter be selected as soon as the rains cease.
