Dated	13	

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department,
17th June 1865.

No. 432. Read the following letter from J. J. FRANKLIN, Esq., Superintendent of Marine, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 6th June 1865, No. 2,229.—

Sir,

1. In the Proceedings of Government of 20th March 1860, No. 117, sanction was passed for a glazed cage for the protection of the light abrest the Suroppally rocks, as on the door of the lantern being opened to a limit of the keepers wiping the glasses and reflectors, the lights were sometimes extinguished. It came to my knowledge a short time back that this cage had never been put up, and on inquiry of the Superintending Engineer of the Division the reason, I find that it is in consequence of a difficulty in procuring glass of proper dimensions.

2. The necessity for the cage is as great now as before, and I have the honor to solicit that glass, if obtainable from the Public Works Stores, of the following dimensions may be supplied to the Superintending Engineer, 1st Division, in order that the glazing may be completed and the cage fixed in position.—

No. 4. 2' 8" X 3' 6"

" 8. 3' 0" X 3' 0"

" 8. 2' 9" X 3' 0"

" 4. 3' 6" X 2' 3"

24 panes of glass.

No. 433.

Order number, 16th June 1865, No. 1,633.

CIVIL WORKS, No. 70.

As there is no glass of the above dimensions in the Public Works Stores, a requisition for the quantity specified by the Superintendent of Marine will be included in the next Indent sent to the Home Government.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.
