Proceedings of the Madras Government, Judicial Department.
15th June 1865.

Read the following papers:—
No. 108. From Colonel A. J. M. BOILEAU, R. E., Superintending Engineer,
4th Division; to Colonel C. A. ORR, R. E., Secretary to Government,
Public Works Department, dated Madras, 5th May 1865, No. 75.

I have the honor to forward for the sanction of Government a Plan and Estimate, Rupees 1670, for constructing a Store-room at the Chief Office of the Inspector General of Mofussil Police, prepared by the Executive Engineer,

1 Plan.
1 Abstract Estimate.
1 Specification.
1 Letter No.—dated 25th April 1865.

Southern Range, Presidency, at the request of Mr. Robinson.
2. The building in which the office is held is a private one, but from the accompanying letter of Mr. Morison it will be observed that the proprietors have no objection to the Store-room being erected on the west side of the building, provided, 1stly, that a professional guarantee is afforded that the western wall will not suffer from the weight of the iron corrugated roofing; and, 2ndly, that in the event of the proprietors requiring to occupy the building, it shall be restored to its present state, materials moved away, and any damage consequent on the building of the Store-room made good at the Government expense.

3. There will be no difficulty in affording these guarantees, but it will be for the Government to decide whether it will be advisable to lay out money in adding to a private building.

4. The Assistant Inspector General of Mofussil Police having expressed his great anxiety to lay out certain money, which remained at his disposal at the close of 1864-65 in purchasing the iron roofing for the Store now proposed for construction, I advised him so to do; and he has laid out Rupees 340 for that purpose. The balance, Rupees 1330, of the Estimate, Rupees 1670, may perhaps be granted out of the reserve for Civil Buildings, 1865-66.

5. If Government are pleased to withhold their sanction from this Estimate, I have no doubt I shall be able to make use of the corrugated iron which has been purchased, in other buildings.

Referred to the Judicial Department.
