G.O. No. 1746

Press  
Mis.

562-584

Dated 22 6. 1865.

Not to be folded or roughly handled

No. 562.

Read the following papers:—

From Captain J. G. RYVES, R. E., Superintending Engineer, 1st Division, to  
Colonel C. A. ORR, R. E., Secretary to Government, Department Public  
Works, dated Waltair, 6th June 1865, No. 199.

Enclosure 1.

\* No. 1,137.

Sir,

1. With reference to paragraph 8 of the Order\* of Government, under date 23th April, I have the honor to report that I propose to defer appointing the New Range Offices until the whole of the arrangements in connection with the new system of accounts are brought into a complete form.

|                        | Old scale. | New scale. |  |
|------------------------|------------|------------|--|
|                        | RS.        | RS.        |  |
| Writer and Accountant, | 30 to 35   | 60         |  |
| Draughtsman,.....      | 0 to 40    | 50         |  |

2. I assume that by the change in the Establishment for Range Offices Government intends that men of a superior class and better trained at their work than present incumbents should be entertained, but this cannot be done at once, and until it can be done, I am of opinion that the present scale of pay should be continued to Accountants and Draughtsmen in Range Offices. The three or four individuals among present incumbents who have distinguished themselves by ability and industry may be promoted to the new 60 Rupees appointments, but nothing will be gained merely by giving all present incumbents 60 Rupees instead of 35.

3. As regards the pay of Draughtsmen, I have the honor to state that the rate of the present scale is already too high. We cannot now get half a dozen Draughtsmen worth 40 Rupees a month, and the proposed scale contemplates twelve at 50 Rupees. I am of opinion that, to entertain twelve Range Draughtsmen at 50 Rupees instead of the six at 40 Rupees, which is the present Establishment in this Division, will be simply to throw away Rupees 360 a month, and even if good Draughtsmen worth the high rate of 50 Rupees a month were obtainable, we have not work in this Division for more than six: if, at some future date, public works of improvement are taken in hand with more vigor than now, we may add to our Establishment of Draughtsmen; but for the current year not more than six, distributed among the important Ranges as at present, will be required.

4. I observe that the sanctioned new scale does not provide Writers or Goomastahs on the Range Establishments. I have just received a Circular from the Controller (which I may observe is the first containing any definite information about the new system of accounts, which is to be considered as introduced on the 1st instant) requiring the Range Officers to keep all their vouchers (cash books, station books, figured abstracts, &c.) in duplicate, with a view to the originals being forwarded to the Controller, also a monthly bill to be appended to each item of the Progress Report for each month: from this Circular I also observe that the stock account is to be rendered in detail to the Controller monthly. These innovations on the Madras system of accounts will require additional hands in the Range Offices to abstract the bills from the works accounts and do the additional writing involved in the more elaborate Progress Report (of which one more copy than at present will have to be written) and the duplicate vouchers.

5. There will also be a good deal of writing, in reply to the numerous references which the Controller will have to make if his Office attempt to examine the vouchers and check the monthly bills.

*Proceedings of the Madras Government, Public Works Department,  
22nd June 1865.*

6. From the scale of sanctioned Establishment, circulated with the Government Proceedings quoted at the head of this letter, it appears to be intended that all Ranges are to have the same Establishment, but I assume that the scale is only intended as an estimate to arrive at the total cost of Range Establishments. A Range with an expenditure of 14 lacs a year, and 100 separate works, to estimate for and keep the accounts of, should of course have a stronger Establishment than one in which the expenditure is less than a quarter of a lac, and the number of works only 30.

7. I append a Statement showing the extent to which the new scale of Establishment may be adopted in the current year, and the modifications thereof which I recommend under the circumstances stated in the last three paragraphs, which I beg to submit for the consideration of Government; with a view to my being authorized to defer the entertainment of the full number of Accountants and Draughtsmen at the increased rate of pay, and to entertain the additional Writers and Goomastahs required by the new system of accounts, their pay being defrayed from the savings due to the reduced number of men at the high rates.

Statement to accompany letter No 193, dated 6th June 1865, with reference to paragraph 7.

| No. | Designation. | Amount for each Office. | Number of Offices. | Total. | Remarks.                                                                                                                                                                                                                           |

WALTAIR,  
6th June 1865.

(Signed) J. G. RYVES, Captain, R. E.,  
Superintending Engineer, 1st Division.

No. 503. From Lieutenant-Colonel F. J. MOBERLY, R. E., Superintending Engineer, 8th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 10th June 1865, No. 236.

Sir,  
1. In reply to Order No. 1,476 of 1st instant, I have the honor to observe that I quite agree with the Superintending Engineers of the 2nd and 6th Divisions as to the necessity for proportioning the Office Establishments to the work in the Ranges, but it appears to me that this may be more easily done by the Superintending Engineer transferring the Office servants as he sees occasion, precisely as Captain Oakes points out in paragraph 4 of his No. 193 has been done in the case of Overseers.

*Proceedings of the Madras Government, Public Works Department,  
22nd June 1865.*

2. I am under the impression that I now possess the authority to do this, but, if I am mistaken, I presume there would be no objection on the part of Government to granting it.

3. In that case I could generally arrange to provide the Officers employed on miscellaneous or special duties with a Draughtsman or Accountant. The only difficulty would be about Lascars, Range Officers having lost by the new organization are scarcely able to carry on their own work and cannot spare a man.

4. If however the Government do not consider it right to grant this power to Superintending Engineers, I would beg to know whether I may also alter the rate of pay as well as the scale of members.

No. 564. ORDER THEREON, 22nd June 1865, No. 1,746.

**ESTABLISHMENT, No. 48.**

1. In the foregoing letters the Superintending Engineers of the 1st and 8th Divisions submit observations on the subject of the Office Establishments sanctioned for Ranges in G. O. No. 1,137, dated 28th April 1865. Captain Ryves proposes to defer, for a time, the appointment of the full number of Accountants and Draughtsmen, and to entertain, in their stead, additional Writers and Goomastahs; while Captain Moberly wishes either to distribute the Establishments in such manner as he may find desirable, or to alter the rates of pay and the scale of the sanctioned Establishment.

2. The necessity for re-distributing the Range Establishments has already been noticed by Government, and in the Order marginally noted the Superintending Engineers were requested to furnish Statements to show how, in their respective charges, this could be carried out. The attention of the Superintending Engineers of the 1st and 8th Divisions will now be drawn to these Orders; and, pending the receipt of the Statements called for, the Government will defer any notice of the points brought forward in the letters now before them.

\* No. IX., 26th May.

† Bengal Code XX., 2, 35, 36.

3. With regard to the Circular\* issued by the Controller, to which Captain Ryves alludes, the Government are of opinion that the "Stock" columns are necessary for the preparation of Form No. 51† in the Controller's Office. The Government agree with the Controller that an abstract of the vouchers, though its preparation will undoubtedly entail some additional work on the Range Offices, is an important addition to the monthly Progress Report. They observe, however, that the note on this subject in the Form prepared by Captain Fischer will require modification with reference to their orders of the 13th instant, and they consider that it would be well if the details required by the Controller were more distinctly specified, for the guidance of the Range Officers.

No. 1,635.

From,

To,

Sir,

Sup<sup>r</sup> Engineer's Office 8<sup>th</sup> Division.  
Madras 10<sup>th</sup> June 1865.

13  
Lieut Colonel S. J. Moberly R.E.  
Superintending Engrs 8<sup>th</sup> Div.  
Colonel C. A. Orr R.E.  
Secretary to Government  
P. W. D.

In reply to order N<sup>o</sup> 1476 of 1<sup>st</sup> instant, I have the honor to observe that I quite agree with the Superintending Engineers of the 2<sup>nd</sup> & 6<sup>th</sup> Divisions, as to the necessity for proportioning the office establishments to the work in the Ranges. but it appears to me that this may be more easily done by the Superintending Engineer transferring the office servants, as he sees occasion precisely as Captain Pakes points out in para 4 of his N<sup>o</sup> 133 has been done in the case of Over Seers.

2 I am under the impression that I now possess the authority to do this, but if I am mistaken, I presume there would be no objection on the part of Government to granting it.

3 In that case I could generally arrange to provide the officers employed on miscellaneous or special duties with a draftsman

draftsman, or accountant. This only diffi-  
culty would be about horses. Range  
Officers having lost by the new organization  
are scarcely able to carry on their own work  
and cannot spare a man.

1. If however the Government do not  
consider it right to grant this power to  
Superintending Engineer I would beg to  
know whether I may also alter the rates  
of pay as well as the scale of members.

Yours genl.  
J. Lubin Smith C.E. & R.  
Superintending Engineer, P.

Superintending Engineer's  
 Office, 7<sup>th</sup> Regt, Waltham  
 6<sup>th</sup> June 1865.  
 From Captain J. G. Ryves R.E.  
 Superintending Engineer  
 To Colonel C. A. Orr R.E.  
 Secretary to Govt. D.P.W.  
 Madras.

Encls.

\* 1137

With reference to para 8 of the  
 Order of Government under date 28<sup>th</sup>  
 April, I have the honor to report  
 that I propose to defer appointing  
 the new Range Officers until the whole  
 of the arrangements in connection with  
 the new system of accounts are brought  
 into a complete form.

2.- I assume that by the change  
 in the Establish-  
 ment for Range  
 Officers: Government  
 intends that men  
 of a superior class and better trained  
 at

|                     | Old Scale    | New?   |
|---------------------|--------------|--------|
| Writer & Accountant | 30 to 35 Rs. | 60 Rs. |
| Draftsman           | 0 to 40 Rs.  | 50 Rs. |

at their work than present incum-  
-bents should be entertained. but  
this cannot be done at once and  
until it can be done, I am of opi-  
-nion that the present scale of  
pay should be continued to Account-  
-ants and Draftsmen in Range

Offices. The three or four individu-  
-als among present incumbents  
who have distinguished themselves  
by ability & industry may be promo-  
-ted to the new 60 Rs. Appointments.  
but nothing will be gained merely  
by giving all present incumbents  
60 Rs. instead of 35.

3. As regards the pay of draftsmen,  
I have the honor to state that the  
rate of the present scale is already  
too high. We cannot now get half  
a dozen draftsmen worth 40 Rs. a  
month, and the proposed scale con-  
-templates twelve at 50 Rs. I am of  
opinion that, to entertain 12 Range  
draftsmen at 50 Rs. instead of the 6  
at

at 40 Rs., which is the present Estab-  
-lishment in this Division, will be  
simply to throw away Rs. 360 a month  
and even if good draftsmen worth  
the high rates of 50 Rs. a month were  
obtainable, we have not work in  
this Division for more than six:  
if, at some future state, Public Works  
of Improvement are taken in hand  
with more vigor than now, we may  
add to our Establishment of Drafts-  
-men; but for the current year  
not more than 6 distributed among  
the important Ranges as at present  
will be required.

4. I observe that the sanctioned  
new scale does not provide Writers  
or Compositors on the Range Establish-  
-ments. I have just received a  
Circular from the Controller (which I  
may observe is the first containing  
any definite information about the  
new system of accounts which is to  
be considered as introduced on the  
1<sup>st</sup> instant.) requiring the Range Officers  
to

to keep all their Vouchers (Cash books, Station books; figured Abstracts <sup>&c.</sup>) in duplicate with a view to the originals being forwarded to the Controller, also a monthly bill to be appended to each item of the Progress Report for each month: from this Circular I also observe that the stock account is to be rendered in detail to the Controller monthly - These innovations on the Madras system of accounts will require additional hands in the Range Offices to abstract the bills from the Works accounts and do the additional writing involved in the more Elaborated Progress Report (of which one more copy than at present will have to be written) and the duplicate Vouchers.

5. There will also be a good deal of writing in reply to the numerous references which the Controller will have to make if his Office attempt to examine the vouchers & check the monthly

monthly bills. 3. 1  
6. From the scale of sanctioned Establishment circulated with the Government Proceedings quoted at the head of this letter, it appears to be intended that all Ranges are to have the same Establishment. but I assume that the scale is only intended as an Estimate to arrive at the total cost of Range Establishments. - A Range with an expenditure of  $1\frac{1}{2}$  lacs a year, and 100 separate Works, to estimate for and keep the accounts of, should of course have a stronger Establishment than one in which the expenditure is less than a quarter of a lac & the number of Works only 30.

7. I append a statement showing the extent to which the new scale of Establishment may be adopted in the current year and the modifications thereof which I recommend under the circumstances stated in the last three paragraphs. which I

9  
I beg to submit for the consideration  
of Government, with a view to my  
being authorized to defer the inter-  
tainment of the full number of  
Accountants & Draftsmen at the  
increased rate of pay, and to entertain  
the additional Writers & Goormastahs  
required by the new system of  
accounts, their pay being defrayed  
from the savings due to the reduced  
number of men at the high rates.

I have the honor to be  
Sir  
Your most Obedt. Servant

W. L. Jones Capt. R.E.  
Superintending Engineer, 1<sup>st</sup> Div.

Establishment of  
Public Works Dept  
1746

Proceedings of the Madrid Government  
Under date the 22<sup>nd</sup> June 1865  
Recd the following

From the Superintending Engineer  
1<sup>st</sup> Division.

Proposes certain arrangements  
in connection with the new system  
of accounts, and encloses proposed  
scale of Establishment to be adopted  
in the current year.

From — To — D. 8. D.  
Offers certain observations on  
J. O. No 1476 dated 1<sup>st</sup> June 1865 as  
regards the necessity for proportioning  
the Office Establishments of the Regulares

In the foregoing  
letter, the Superintending  
Engineers of the 1<sup>st</sup> and  
8<sup>th</sup> Divisions submit ob-  
servations on the sub-  
ject of the Office Es-  
tablishments sanctioned  
for Regulares in J. O.  
No 1137, dated 28<sup>th</sup> April  
1865. Captain Pyres  
proposes

1746-22nd June 1865  
The Superintending  
Engineer 1<sup>st</sup> Div

The Secretary to Govt  
D. O. No. 1746

Date 6<sup>th</sup>  
June 1865  
D. O. No. 1476

2<sup>nd</sup> June 1865  
Proposes certain arrange-

ments in connection with  
the new system of accounts,  
and encloses proposed scale  
of Establishment to be  
adopted in the current year

No 552

22nd June 1865

22nd June 1865

proposes to defer, for a  
time, the appointment  
of the full number of  
Accountants and Draftsmen,  
and to entertain, in  
their stead, additional  
writers and Isumatash,  
while Captain Moberly  
wishes either to distribute  
the Establishments in  
such manner as he  
may find desirable, or  
to alter the rates of pay  
and the scale of the  
penalised Establishment.

2 The necessity for  
redistributing the Range  
Establishments has  
already been noticed  
by Government, and  
in

N<sup>o</sup> 1476 dated 1<sup>st</sup> June/65

XXXX

in the Order marginally  
noted the Superintending  
Engineers were requested  
to furnish statements to  
show how, in their re-  
spective charges, the  
work could be carried out.

The attention of the Super-  
intending Engineers of  
the 1<sup>st</sup> and 8<sup>th</sup> Divisions  
will now be drawn to these  
orders; and, pending the  
receipt of the statements  
called for, Govt will  
defer any notice of the  
points brought forward  
in the letters now be-  
fore them.

N<sup>o</sup> 1X. 26<sup>th</sup> May

3 With regard to  
the Circular issued  
by the Controller, to

which Captain Ayres  
alludes to the Govern-  
ment one of opinions  
that the "Stock" columns  
are necessary for the  
preparation of the  
Monthly Progress Report.  
The Controller's  
Office at the Stock Office agree  
with the Controller that  
an Abstract of the vouchers,  
though its preparation  
will undoubtedly entail  
some additional work  
on the Range Officers,  
is an important addition  
to the Monthly Progress  
Report. They observe,  
however, that the note  
on this subject in the  
Form

x Bengal Code  
xx - 2-35-36

N<sup>o</sup> 1635

Form prepared by  
Captain Fischer will  
require modification with  
reference to their orders  
of the 13<sup>th</sup> Instant, and  
they consider that it  
would be well if the  
details required by the  
Controller were more  
distinctly specified,  
for the guidance of the  
Range Officers.
