No. 2,596.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 29th April 1864.

Read the following letter from the Collector of Ganjam, dated Chatterpoor, 16th March 1864, No. 43:—

1. In reply to Board's Proceedings dated the 3rd March 1864, No. 1,343 A, pronouncing the grant on Cowle of certain lands to Mr. Burgess objectionable, on account of the extent of the grants, and requiring me to quote the authority under which I acted and fixed the assessment, explaining fully at the same time all the circumstances of the case and the position of the land, I have the honor to observe, that the authority under which I acted and fixed the rate of assessment and terms of the Cowle is to be found in the Cowle Rules dated 8th July 1851, which contain no restriction as to the extent of such grants.

Communicated with the Proceedings of the Commissioner of the same date, No. 300.

2. The rates of assessment are, as the rules require, those obtaining in neighbouring lands, and the terms as regards time, &c., were fixed at my discretion in reference to the character of the lands, which are mostly covered with dense underwood.

3. The position of the land is at the foot of the Mohery hills, a feverish tract, the cultivation of which will be a blessing to mankind.

4. The circumstances of the case are already known to the Board. Mr. Burgess applied to purchase 7,000 acres of land, but despairing of obtaining it with the money at his command if put up in lots of 500 acres each for competitive sale, he inquired whether he could take up any portion of the land on Cowle, to which proposal I readily assented, and I am sorry that the Board take so widely different a view of the expediency of such a grant.

5. I have omitted to state that there is a neighbouring ravine which Mr. Burgess applied for, under Tope rules, in order that he might plant teak and other timber trees, the ground being, as he stated, unfit for cultivation. I had the land surveyed and found it included several patches of Khond cultivation, and the matter has since remained in abeyance, I having then objected to apply the Tope rules to this tract, and intimated to Mr. Burgess that he might hold it on Cowle.

1. Submitted for the information of Government with reference to their Order dated 2nd February 1864, No. 183, and in continuation of Board's Proceedings thereon dated 3rd March 1864.

2. Under the circumstances now stated by Mr. Forbes, the Board withdraw their objections to the Cowle granted to Mr. Burgess. Their seems no reason to doubt that Messrs. Onslow and Walter Elliot desired to encourage the occupation of such tracts to the widest extent when the Cowle rules were sanctioned, but the Board's attention had not previously been called to their existence.

CIVIL PAYMASTERS OFFICE;

From

THE CIVIL PAYMASTER,

Fort Saint George.

THE SECRETARY TO THE GOVERNMENT of India

Financial Department
Calcutta.

Supreme letter

SIR,

I have the honor with reference to Government Order No. 2281 dated the 6th September 1864, to forward the accompanying Copy of the Proceedings of this Government No. 2101 dated 16th instant.

2. The orders in this letter from you to my Assistant's address were that when the Cases referred to by me arose the Local Government was to be applied to for their Opinion. & the result of the reference reported to the Government of India but, as the Government of Madras have passed Orders on certain of these questions without waiting for any reference on my part, I lay their Orders before the Supreme Government at once.

3. The term "Local Allowances" was first used by the Government of India in its letter to me as Civil Paymaster, Bombay, No. 5840 dated 13th May 1861 with express reference to Tentage & House Rent, and was therefore as a matter of course adopted by me in alluding to those Allowances.

4. I do not clearly understand the meaning of Para 4. My reference to the Government of India had no special bearing on the Covenanted Civil Rules, but was intended to ascertain the general bearing of Supreme Government Order No. 1139 of the 6th July last on the previous Order of the Government of India No. 5830 of the 13th May 1861 to the Civil Paymaster, Bombay, and No. 1596 of the 23rd March last to me, both of which dealt with the general question of Allowances formerly called local, paid to both Civilian and Military Men in Civil Employ.

I submit therefore that no error was committed in including the Allowances referred to by His Excellency in Council in my reference to Calcutta. -

5. Under the Orders contained in this. lra, however, I shall immediately submit separate references to the local Government, and report their result to the Government of India. -

6. Referring to Para 5 I think it is quite possible whether a Rule which holds good with respect to Sundry Leave should be equally applicable to Special Leave. Special Leave is not in its nature similar to Sundry Leave. It does not now even count as Residence in India when taken out of Indian limits, and there seems therefore prima facie no reason why an officer should have any claim to Sundry and House Rent when he avails himself of this species of Leave & is not resident in this country.

PROCEEDINGS OF THE COURT OF WARDS, dated 13th December 1864.

Read the following letter from W. M. CADELL, Esq., Collector of Tanjore, to W. HUDLESTON, Esq., Secretary to the Court of Wards, dated Vellum, 25th November 1864, No. 330: -

1. In my last Annual Report* on the Minors' Estates, I intimated, with advertence to the

Proceedings† of Government marginally noted, that I was unable to speak favorably of the education of the Minor Zemindar of Saptur, and stated that I would submit a special report on the subject.

2. The result of the particular inquiries which I have since made on the subject is that the lad seems to have an intense and irresistible longing to return to his own country, and that this has been the cause of his indifferent progress in his studies, rather than the prompting of others. The enclosed certificate, given by the Apothecary in Medical charge of the station, with respect to the sickness frequently feigned by the Minor, shows how ardent his desire to return home is. I am glad, however, to be able to state, that for the last month, he has shown a much greater desire to interest himself in his studies, and Mr. Porter has also made a more favorable report of him, and I only trust and hope he may not relapse into his old ways. I propose again to report on his progress after the lapse of another six months, but at the end of this term, should the Minor not be found to be making satisfactory progress, I would recommend his removal to Madras.

ENCLOSURE No. 1.—Certificate.

The Court of Wards will await the Collector's further report. They have full confidence in Mr. Cadell's judicious and kind care of their Ward, and are satisfied that under the unhappy circumstances of the family, the boy's return home at present would be very injurious to him.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 12th December 1864.

Read the following letter from E. G. R. FANE, Esq., Collector of Madras, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Sydapet, 8th December 1864, No. 545:—

1. With reference to the Board's Standing Circular of the 15th March 1864, No. XXII, I have the honor to forward a Statement showing the number of irrigation works in five out of six Taluks of this District, distinguishing those in repair from those out of repair.

2. The one Taluk the Statement does not include is that of Conjeveram. The Tahsildar of it not having prepared the Statement correctly, it had to be returned for revision; but will be sent to the Board as soon as it is received.

3. The Statement shows that nearly one-third of the irrigation works in the five Taluks are out of repair. They are also not at all equal to the amount of land they are intended to irrigate. Both myself and my predecessor have constantly expressed our opinion as to the urgent necessity there is for undertaking these repairs, and have made calls accordingly for large yearly allowances, both to preserve and to promote the Government revenue.

4. The Tahsildars have sent estimates of the amount* the Government will have to lay out for putting the works in the five Taluks into thorough order; but I am sure they have considerably under-estimated it, as the wages of labor here are now exceedingly high, and the price of materials the same. If, however, the amount estimated by the Tahsildars were even sanctioned, a great deal could be done; but if the Government purpose opening a public works loan, I should be inclined to ask for this District for at least four lacs of Rupees, as that even would be only four times our present yearly expenditure, and as I am sure that now each year not more than one-fourth of the works requiring repair receive any attention.

5. The Department Public Works work is chiefly done by contract, and is much complained against as being very inferior; and I am of opinion that it would be a wiser plan to give more of the works out to the villagers, into whose pockets I would rather see the large present alleged profits go, than into those of the present race of outside town contractors.

6. Major Prendergast in charge of the Mount intends, I believe this year, giving to all Ryots who will tender his contracts for earth-work.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 5th September 1864.

Read the following letter from C. DALE, Esq., Government Pleader, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Madras, 30th August 1864, No. 194:—

1. I do myself the honor of acknowledging the receipt of the Proceedings of the Board of Revenue under the date and number noted in the margin, and of advising that an application be made to the Civil Judge of Chittoor for a review of his Judgment in Appeal Suit, No. 108 of 1861, on the file of the Civil Court of Salem.

25th August 1864, No. 2,510.

2. It is very evident that Mr. Roberts was desirous of passing a correct Judgment on the merits of the case, it is equally evident he has misunderstood the facts, and it is extremely probable that on the facts being correctly developed before him he may see reason to arrive at a different conclusion from that at which he has at present arrived, but even should he retain his present opinion, it will be highly desirable that he should amend the Statements made in the thirteenth and fourteenth paragraphs of his Judgment, and thus to have the facts correctly before the High Court should it be thought desirable to prefer a Special Appeal to that Court.

3. I have no means of ascertaining whether evidence was adduced before the Sub-Court to show on what days the kist fell due, or whether from any of the documents before the Court such fact was shown. If not, the Appellate Court has the power to allow additional evidence to be adduced.

4. I submit that action should be taken on the remarks of the Civil Judge regarding the conduct of the Government Vakeel at Chittoor. If they are passed over without notice it will be likely to deter Civil Judges from commenting on similar misconduct.

5. On principle, a man who so misconducts himself as to endanger the result of a Suit should be dismissed, unless he can afford a very good explanation for his conduct.

6. But whether practically, owing to the small pay given to the Government Vakeels, such a step would prove beneficial to the interests of Government, by getting a better man, I am unable to judge. I fear there is not sufficient inducement in Zillahs where the amount of litigation in which Government is concerned is small both in number of Suits, and the value of the matter in dispute, for the best men to accept the appointment.

7. I return all the papers which accompanied the Proceedings noted above.

1. Communicated to the Collector of Salem with reference to his letter, dated 13th August 1864, No. 148. He will take the necessary steps for obtaining a review of Judgment by the Chittoor Court.

2. The remarks of the Civil Judge and Government Solicitor on the Government Vakeel's conduct of the case will be brought to the notice of Government for such orders as they may see fit to pass.

Read again Board's Proceedings, dated 25th August and 5th September 1864, Nos. 5,510 and 5,780.

Read also the following letter from the Honorable D. ARBUTHNOTT, Collector of Salem, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated 23rd November 1864, No. 216:—

1. With reference to the Board's Proceedings, dated the 5th September last, No. 5,780, I have the honor to state that a review petition was put into the Civil Court at Chittoor, and a review judgment was passed by the Judge at Chittoor on the 27th ultimo, cancelling his former decree, copy of which is enclosed for the information of the Board.

2. The Board will observe from the decree that the costs incurred by Government in the suit have been adjudged to be paid by the Plaintiff (Ellier) except such as are incidental to the application for the review of the judgment.

3. Steps will be taken for the recovery of the costs from the Appellant (Ellier.)

ENCLOSURE No. 1.

Review of Judgment.

In the Civil Court of Chittoor.

Appeal Suit No. 108 of 1861.

On the file of the Civil Court of Salem.

Present.

C. A. ROBERTS Esq., Civil Judge of Chittoor.

1. On the 26th September 1864, the Government Vakeel on behalf of the Defendant in Appeal Suit No. 108 of 1861, Salem Civil Court, presented a Petition, praying for a review of this Court's Judgment in the above Suit on the following grounds:—

1st.—Because the Court has not understood the real facts, as is evident from paragraphs 13 and 14 of the said Judgment.

2nd.—Because the Court has incorrectly assumed the Kist for February 1853—was not an arrear till the 1st March following, whereas the Kists in the Salem District were fixed with reference to the Tamil months, and not the months of the Calendar year, and the aforesaid arrear was in reality for the month of Thye; and became an arrear on the 1st Masi, or 10th February 1853.

2. The following accounts, &c., were produced to establish the above point.

(I.) Original Kistbundy account, or account, showing the demand of the land and other sources of revenues of the Gari Muthas, Agraharums, and Ryotwar villages of the Salem District for Fasli 1260, bearing the seal and signature of H. D. Phillips, Esq., Collector of Salem.

(II.) Do. do. do. for Fasli 1261, bearing do. do.

(III.) Do. do. do. for Fasli 1262, bearing do. do.

(IV.) Original Chitta or Cash account showing the receipts and disbursements of the Razi-pur Taluk (the Taluk in which Neikaraputty Agraharum is situated) for the month of January of Fasli 1256, bearing the signatures of Rama Row, Tahsildar; and Bema Row, Serishtadar.

(V.) Do. do. for the month of December of Fasli 1257, bearing the signatures of do. do.

(VI.) Urzi of Rama Row, Tahsildar of Razipur to W. E. Lockhart, Esq., Collector of Salem, dated the 22nd January 1847, reporting that the Agraharum of Neikaraputty having paid up the arrears of the Kists from Alpisi to Margali, the Agraharum had been released from attachment.

PROCEEDINGS OF THE BOARD OF REVENUE

Dated 6th September 1864.

No. 5,780.

Communicating to the Collector of Salem letter from the Government Pleader and requesting the former to take the necessary steps for obtaining a review of the judgment passed by the Civil Judge of Chittoor in Appeal Suit No. 108 of 1861, also bringing to the notice of Government the remarks of the Civil Judge and Government Solicitor on the Government Vakeel's conduct of the case.

(VII.) Urzi of Rama Row, Tahsildar of Razipur, dated the 21st February of Fasli 1255 A. D. to W. E. Lockhart Esq., Collector of Salem, reporting the attachment of the three Agraharums therein mentioned, viz., Polavari, Neikarapatti and Byrazi for the arrears of the Thye Kist.

(VIII.) Urzi of A. Cuppusami Naidu, Tahsildar of Razipur, dated the 29th January 1853, to H. D. Phillips, Esq., Collector of Salem, No. 270.

(IX.)
(X.)
and
(XI.) } Chittas for December 1852 and January and February 1853.

3. Due notice of the above application having been given to the Plaintiff, upon the 24th instant, the Acting Government Vakeel, Sripati Row, appeared on behalf of the Defendant (Respondent) and Court Vakeels, Naranayangar and Nagaya, on behalf of the Plaintiff (Appellant).

4. The Plaintiff's (Appellant's) Pleader objected to the Acting Government Vakeel appearing for the Defendant while the permanent Government Vakeel was in Court, and had presented the Petition for review, but the latter urged that he had been absent for a month on private leave, and had only returned to make sure that Sripati Row had received the necessary authority from the Collector of Salem, and that having made over all the papers to Sripati Row he was not himself prepared to plead.

5. The Court overruled the objection as not coming under the ruling quoted by Plaintiff's Pleader ("Rules of Practice, Review, paragraph 4"). It was further objected that the Defendant had not proved that no Special Appeal had been admitted by the High Court, and that the point raised in the Review Petition had been fully set forth in the list of documents filed with the original plaint, and had moreover been urged by the Appellant's (Plaintiff's) Pleader before the Appellate Court, and that the same ought then to have been met and negatived by the Respondent (Defendant), and that his Petition for review ought therefore to be rejected.

6. The Court ruled that there was good and sufficient reason for admitting the application, and that whereas the Defendant's Pleader stated that no Special Appeal had been made to the High Court, it lay with the Plaintiff to establish if possible the fact of a special appeal having been admitted.

7. Both parties were then fully heard upon the merits, and subsequently stated that they did not wish for any further re-hearing of the suit.

8. Upon hearing both parties and examining the accounts, &c., produced on behalf of the Defendant, I am of opinion that it is established beyond any reasonable doubt that the Kists for the village under dispute, Neikarapatti, were fixed and levied with reference to Tamil months and not to Calendar months. The Court was misled by the terms "January Kist," "February Kist," &c., habitually used in the documents upon record, as also by the Plaintiff's pleadings which were not met by the Government Pleader, as observed in paragraph 12 of the Judgment under review, owing to his carelessness and ignorance of the merits of the suit.

9. It is admitted on behalf of the Plaintiff (Appellant) that Kists were fixed according to the Tamil months up to 1848; but it was pleaded that since then, English months have been substituted, and that the Circular Order of the Revenue Board, dated the 7th January 1848, was passed with the object of abolishing the use of the Tamil months. This and the Board's Circular Order, dated the 30th April 1855 (paragraph 4), were referred to as establishing this point, which it was alleged was further supported by the fact of the interest charged in accordance with the above-mentioned Circular Orders having been levied upon the arrears due on account of the village under dispute from the 1st February, and not from the 11th January, the same being the invariable practice with regard to interest on all arrears in the Salem District. The above plea, it was further stated, was fully borne out by the fact of the term "January Kist", &c., being used in the notice of attachment issued in this case, whereas formerly, prior to 1848, the Tamil months were entered in the Tahsildar's Urzis (before the Court), and interest was calculated from the first of the Tamil month.

10. On the other hand in the general Puttah given to the Monigar of Neikaraputti in 1797 are specified the various Tamil months, at the end of which each instalment of Kist is said to be due. This document is the agreement between the Government and the village, and no subsequent document having passed between them must remain final. Moreover in the separate Puttahs issued to the villagers the amount due by them is entered as payable "according to the Kists" evidently referring to the entries in the Monigar's Puttah.

11. Again, in the accounts produced from the Collector's Cutcherry for Faslis 1260, 1261, and 1262, (1850 to 1852,) both English and Tamil months appear in the headings of the Columns and are entered thus: "Margalikaha January," i. e., "January for Margali, or January for 13th December to 11th January."

12. The fact of the disputed attachment having been issued, as stated, on the 14th January 1853, is in itself incompatible with any other inference than that the Kists were due at the end of each Tamil month, and had the charge alleged by the Plaintiff really taken place, due notice would certainly have been issued of the same. The Plaintiff has no title to show under which he can claim the benefit of an extended period for the payments of Kist, i. e., from the end of the Tamil to the end of the Calendar month. The Circular Orders of the Revenue Board quoted were not passed for the object stated by his Pleader, and bear only an indirect reference to the point in dispute.

13. It is however further pleaded that the original attachment was itself irregular, because if the arrear fell due at the end of the Tamil month, the notice of attachment reached the village on the 18th January 1853, and the five days' grace allowed did not expire till the 23rd idem, whereas the village was attached on the 19th idem. Again, and for the same reason, that the resumption could not legally take place till the 23rd January 1854, whereas the Collector had resumed the village from the 18th January 1854.

14. In paragraph 13 of the Judgment under review it is stated that "it appears that the order for the attachment of Neikaraputti was despatched by the Tahsildar of the Taluk on the 14th January 1853, and reached the village on the 18th idem." This point however having now become of greater importance, the record bearing upon it was again and more carefully examined, and the result of this examination throws considerable doubt upon the correctness of the latter date above quoted. The notice itself is not forthcoming, but is entered in the Tahsildar's rough Takeed book as having been dispatched with four others upon the 14th January 1853. The village of Neikaraputti being only twelve miles from the Tahsildar's Cutcherry, the probability is in favor of the notice having reached the village the same day or the next morning at the furthest. To contravene this are the oral statements of plaintiff's interested witnesses, whose accuracy may fairly be inferred from their statements in the same depositions as to the period when each Kist fell due. Upon this latter point the Court cannot believe they had any doubt. The Plaintiff would further mark the date by referring to a cadjan letter from one of the villagers, dated the 18th January 1853. This Document is quoted by the Collector (Defendant) in his endorsement of the 2nd March 1854, in order to falsify the statement made by the villagers of Neikaraputti, that they were not aware of their village having been attached. In the above Cadjan letter it is only stated that the notice of attachment had been received, but the date of its receipt is not specified.

15. The Court cannot therefore consider the said date, 18th January 1853, as pleaded by the plaintiff, established. Were it beyond a doubt, and the five days' grace extended till the 23rd idem, so that the year after attachment did not expire till the 23rd January 1854, the Notification of resumption was not issued till the 1st February following. The Plaintiff pleads that the resumption dated from the 18th January 1854, because certain money paid on behalf of the village on the 21st idem, viz., Rupees 28-5-3 being the balance due for Fasli 1262, was subsequently ordered to be refunded to them as not having been paid within the prescribed time, which the Collector calculated as expiring on the 18th January 1854. This cannot, however, help the

Plaintiff as the above amount was not refused by the Tahsillar, and it must in fairness be inferred from the Collector's Endorsement that had the whole amount then in arrears been paid up, the few days' extra delay on the part of the villagers would have been excused and the resumption would not have taken place. Under Clause 5, Section 13, Regulation XXVII of 1802, the attachment made on the 19th January 1853 could not be withdrawn, as from that date till it was resumed the village still remained in arrears, and having so remained for a period of a year and upwards, the Collector (Defendant) acted strictly in accordance with paragraph 32 of the Hukunnama of the District in resuming the village.

16. It is thus clearly established that the Judgment of the Court upon the 3rd issue was based upon insufficient and incorrect information, and I resolve therefore to reverse the Decree of the Court so far as it is affected by the present finding, and will make a fresh decree dismissing the Plaintiff's suit, and adjudging him to pay all the costs incurred by the Defendant excepting such as are incidental to the Defendant's application for a review of judgment.

Pronounced in open Court this 27th day of October, A. D. 1864.

MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

From the Inspector General of Ordnance and Magazines.

Represents to Government the necessity of another Engine being attached to the Commissariat Department for extinguishing fires, as the one in use is solely for Commissariat purposes.

Here enter 26th August 1864, No. 118.

From the Deputy Inspector General of Ordnance and Magazines.

States that the Fire Engine attached to the Commissariat Department, was issued on Indent in 1840, to re-place another one issued in 1819, and the Engine used for pumping Arrack into the Vat, is decidedly preferable to the method formerly adopted.

Here enter 13th October 1864, No. 180.

Proceedings of the Madras Government, Revenue Department.

Approving of Dr. Hunter's proposal to have the Belt Lift Pump and those constructed by Lieutenant Curran tried at the Horticultural Gardens.

Here enter 19th November 1864, No. 2125.

From the Commissary General, informs that he has no resource but to continue using the Fire Engine until a really efficient Force Pump can be procured for the Arrack Depôt.

Here enter 21st Nov. 1864, No 787.

Referred, with Proceedings of Government of Revenue Department, No. 2125, dated 19th November 1864, to the Inspector General of Ordnance, in view to its being ascertained whether Lieutenant Curran could construct a Pump of the description required by the Commissary General.

30th November 1864.

From the Inspector General of Ordnance and Magazines, Fort Saint George, 3rd December 1864, No. 243; to the Secretary to Government, Military Department.

With reference to your endorsement, dated 30th November 1864, on letter of the Commissary General, No. 6146, dated 21st November 1864, (herewith returned) I have the honor to state, that the Gun Carriage Manufactory can undertake the construction of any description of Pump; and if the Commissary General will furnish the Superintendent Gun Carriage Manufactory, with a memorandum of the exact description and dimensions of the Pump required, it will be made up for that Officer's Department.

ORDER, No. 4553, 19th December 1864.

Ordered that the letter from the Inspector General of Ordnance, No. 243, dated 3rd December 1864, above recorded, be communicated to the Commissary General. (True Extract.)

1. The first thing I noticed
 when I stepped out of the
 train was the cold air.
 It was a sharp contrast to the
 warm weather of the South.
 I had heard that the North was
 a different world, and now I
 knew it was true. The people
 here were different, their
 customs and ways of life.
 I had to learn quickly, for
 I was alone in a strange
 land. I had no friends, no
 family, and no money.
 I was a stranger in a strange
 land, and I had to survive.
 I had to find a way to make
 my money, and I had to find
 a place to live. I had to
 learn the ways of the North,
 and I had to learn to love
 this new land. I had to
 become a part of this new
 world, and I had to do it
 all on my own. I was a
 stranger in a strange land,
 and I had to survive.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 13th December 1864.

Read the following letter from J. W. B. DYKES, Esq., Collector of Nellore, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated 8th December 1864, No. 382:

1. I have the honor to submit the Statements* called for in the Proceedings of the Board of the 15th March, No. 1,590, and Government 6th February 1864, No. 381.

* Sent by Banghy.

2. The total number of irrigation works in this District, according to the statements and returns now forwarded, is 1,009; the revenue dependant thereon is seven lacs, and for these works 207 escapes and 382 sluices are required; for 115 works the revetment requires to be repaired; for 219 sluices and 116 escapes, repairs are required; and on 530 tanks, earthwork is needed.

3. There are 352 tanks according to the returns without escapes; and only 207 additional escapes having been applied for by the Native authorities altogether, it is probable that the number actually required would be increased on a scientific and professional revision of our requirements in this respect.

4. I am unable, as it may be supposed, to state how much money would be required to remedy these grave defects, if it were possible, "in the ensuing official year;" but two lacs of works would be probably as much as the establishment could manage; and when our revenue has risen from five to seven lacs in less than ten years, as shown in the margin, the proposed expenditure may be looked on as a profitable investment of the public funds, as well as a simple act of justice to the people whose livelihood is annually risked, for want of proper protective works.

5. I have not included the Striharikota tanks in these Statements, as they had better, I think, be taken up separately, and for the present can be left, as hitherto, to the care of the people.

6. That the detailed Talukwar returns are strictly accurate, I do not venture to affirm; but they are an approach to accuracy.

7. And as they would be a great assistance to the Public Works, Survey, Settlement, and Revenue Departments, should the Board be pleased to authorize it, I beg that they may be ordered to be printed, and three dozen copies sent to this office for distribution. In Column 7 an incorrectly spelt vernacular phrase has been entered, and should the Board approve, I would recommend that "Frechold" be substituted in the returns, when printed, for "Sarva Maniems."

The Governor in Council directs that the following Notification be published in the Fort Saint George Gazette, and in the several District Gazettes:—

NOTIFICATION.

Several cases having recently been brought to the notice of Government, in which clerks and other persons employed in public offices have taken the benefit of the Insolvent Act, partly on account of debts incurred by them by accepting bills for others, His Excellency the Governor in Council desires that the Heads of offices will inform their subordinates that liabilities of this nature will not be considered, in future, as furnishing any excuse for Insolvency, or for exempting the insolvent from the penalty of removal from the Public Service.

2. His Excellency in Council also directs that it may be distinctly understood that public officers taking the benefit of the Insolvent Act, who may be permitted to resume their appointments, will on no account be allowed to draw salary for the period of their suspension.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 27th December 1864.

Read the following letter from V. H. LEVINGE, Esq., Collector of Madura, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated 17th December 1864, No. 353:—

1. I have the honor to forward herewith copy of a Notice served on me by the Civil Court of this station on the 15th instant.

2. As I do not know the particulars of the order of Her Majesty in Council referred to in the Despatch of the Honorable the Secretary of State for India, embodied in the Government Proceedings, dated 24th September 1863, No. 1,754, communicated by the Board on the 28th idem, I request that the Board will be so good as to favor me with copies of it and other papers which accompanied the Despatch, together with the necessary instructions as to the proper course to be pursued by me in the matter.

ENCLOSURE No. 1.

ABSTRACT.—Copy of Notice served on the Collector by the Civil Court of Madura.

1. Ordered that the foregoing letter and Notice be forwarded to the Government Pleader, with reference to the Government Order No. 1,754, dated 24th September 1863.

2. Mr. Dale will be good enough to furnish all necessary instructions to the Collector at an early date. The order for the execution of the decree will issue after the 27th January 1865.

3. No copy of the papers referred to in the Government Order quoted in paragraph 1 above was furnished to the Board; and they are ignorant of the result of the appeal to Her Majesty in Council.

4. Ordered that copy of these Proceedings be submitted for the information of Government.

7th January 1865.

Read the following papers :—
Proceedings of Government in the Judicial Department.

Directing that steps be taken for the introduction of a Bill repealing Act VII of 1852, and giving the jurisdiction conferred by that Act, for punishing petty offences against the Salt Laws, to 2nd Class Magistrates, and extending the powers conferred by Act XVII of 1840, to 1st and 2nd Class Magistrates. (Dated 13th December 1864, No. 1796.)
Draft Bill prepared by the Assistant Secretary.

A
BILL
TO

Make better provision for the punishment of offences against Special and Local Laws.

Whereas it is expedient to give Magistrates in the Madras Presidency jurisdiction to the extent of their ordinary powers in respect of offences created by Special and Local Laws in the said Presidency, it is enacted as follows :—

I. Every Magistrate within the Madras Presidency shall be authorized to take cognizance of any offence committed within his local jurisdiction, against any Special or Local Laws now in force in the said Presidency, notwithstanding any provision to the contrary in any Act or Regulation now existing; and also of any offence against any Special or Local Law which may hereafter be passed, unless such law shall make the offences to which it refers punishable by some other authorities therein specially mentioned. Provided always, that every such Magistrate shall be restrained within the limits of his ordinary jurisdiction as to the amount of punishment which he may inflict.

II. This Act shall come into effect from such date as the Governor in Council may notify in the Fort Saint George Gazette; and it shall also be lawful for the Governor in Council from time to time by a similar Notification to exclude any particular law, either generally, or in any special locality, from the operation of this Act.

ORDER THEREON, 7th January 1865, No. 4.

Upon the representation of the Magistrate of Madura and of the Advocate General, the Government, in their Judicial Proceedings, No. 1796, dated 13th December 1864, directed that steps be taken for the introduction, into the Local Council for making Laws and Regulations, of a Bill for repealing Act VII of 1852, and giving the jurisdiction conferred by that Act, for punishing petty offences against the Salt Laws, to 2nd Class Magistrates, and for extending the powers conferred by Act XVII of 1840 to 1st and 2nd Class Magistrates.

2. Upon consideration in the Legislative Department, it seemed that the simpler course would be to pass a general Act, founded on the principle of placing offences not only against the Salt Laws but also against all Special and Local Laws of the Madras Presidency on the same footing as offences under the Penal Code, and leaving them to be dealt with by the ordinary criminal authorities, in the manner provided by the Criminal Procedure Code.

3. The Governor in Council approves of the Draft Bill which has been prepared in accordance with this view, and directs that the necessary steps be taken for its introduction into the Council at the next Meeting for making Laws and Regulations.

MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter:—

From the Secretary to the Government of India, Military Department, Fort William, — December 1864, No. 1133; to the Secretary to Government, Military Department, Fort Saint George.

In continuation of the letter from this Department No. 941, of the 23rd instant, forwarding copies of Government General Orders regarding the Medical Service in India, I am desired to request that the Government of Fort Saint George may be moved to forward to the Government of India, a List of all Medical appointments, (Civil and Military) other than Administrative or Regimental, in the Madras Presidency, with their present emoluments, whether composed of Pay and allowances with Staff salary, or consolidated, and shewing the consolidated salary which the Government of Fort Saint George would propose to assign to them, with reference to paragraph 30 of Sir Charles Wood's Despatch of the 7th November 1864.

2. Upon the receipt of this information, it is the intention of the Government to assemble a Commission in Calcutta for the purpose of submitting, for approval and transmission to Her Majesty's Government, a carefully prepared scheme of appointments and salaries for the three Presidencies.

ORDER, No. 124, 12th January 1865.

Communicated to the Principal Inspector General Medical Department, in view to the required List being furnished as early as practicable, through the Controller of Military Accounts, who will submit it to Government with any financial remarks he may consider necessary.

Read the following letter from G. THORNHILL, Esq., Collector of the Kistna District, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Masulipatam, 17th December 1861, No. 254 :—

- ENCLOSURE No. 1.

3. It was reported to me that on the night of the storm the sea came up the river and passed over parts of the village of Nizampatam to the depth of from one to six feet, carrying away many of the fishermen's and Golla people's huts situated close to the river and on low ground, but that nine lives only were lost. I found the foot bridge and road leading from the village to No. 3 platform, as well as the jetty and road to it from No. 1 platform, entirely swept off; many of the salt ponds and pans choked up with silt, and parts of No. 1 platform and its surrounding hedge washed away. No. 4 platform and its hedge sustained also some damage, and all the watching huts were blown down. The salt water, I was told, rose above the level of No. 1 platform, and the salt heaps on it became intermixed with each other, and a large quantity of salt washed away by rain, as well as by the inundation, as the storm had blown off the thatch on the heaps previously. The heaps on platforms Nos. 2, 3, and 4 suffered less than those on No. 1. The estimated wastage of salt by the storm at Nizampatam is 36,856½ Maunds, the particulars of which are given in the accompanying Statement No. 1. When I inspected the salt heaps, they had all been properly re-thatched, and the Superintendent was busily engaged in repairing the fences, &c. A shed that had been erected in front of the Salt Catcherry for keeping the weighing machines in was blown down, and destroyed one of the machines.

4. Leaving Nizampatam on the afternoon of the 25th ultimo, and proceeding by dak, I arrived at Chinnai Ganjam early on the following morning. I am glad to say, the salt at this division did not sustain much damage, as the water did not rise to the top of the platforms, but the thatch of many of the heaps was reported to have been blown off by the storm, and the wastage caused by the rain is estimated at 17,004 Maunds—*vide* Statement No. 1. Here also, all the huts erected for the accommodation of the guards, &c., were blown down.

5. I left Chinna Ganjam on the night of the 23rd ultimo, and returned to Bunder on the 1st instant, and after the arrival of my establishment, I proceeded to Buntoomully on the 8th instant, and remained there three days inspecting the stations. I regret to say the loss of salt at this Kotar has been very great. Of 2,83,872 Maunds in store before the storm, 2,08,186½ Maunds of salt is estimated to have been washed away as particularized in Statement No. 1. The sea swept over the whole place causing great loss of life in the adjacent villages, and doing much damage to the newly raised platforms. The work which will have to be done over again to these platforms is estimated at Rupees 800-1-11, as shown in the accompanying Statement No. 2, but as the number of platforms (for the enlargement and repair of which an estimate to the amount of 11,000 Rupees has been sanctioned) have been proposed to be reduced by Mr. Clarke, there are sufficient funds to meet this unexpected demand.

6. On my return from Buntoomully, I visited Munginapudi. With the exception of a few Maunds of swamp salt sold since the storm, the entire quantity remaining at this place, viz., 1,87,212 Maunds including the swamp salt at Cona was destroyed by the sea, which is reported to have passed over the place at a great height. The Salt Cutcherry situated on No. 1 platform, together with the records and all it contained was swept away, and nothing remains of the Cutcherry, but a few broken bricks. The weighing machines which were kept in the verandah of the Cutcherry are all more or less broken. Of the public servants, five of the Police Guards and two Vettians lost their lives. In Munginapudi and the neighbouring villages the loss of life was very great. The platforms are much cut up and require heavy repairs, many of the pans have been filled up with sand. The Cash box of this Kotar was found on the 3rd ultimo in a ditch about a hundred yards from where the Salt Cutcherry stood. It was conveyed, as soon as it was practicable to do so, to the Huzur Cutcherry on the 7th, and opened on the 16th ultimo. Rupees 3,006-5-6 were found in it; but according to the accounts made up from Memoranda in my office and in the Treasury Deputy Collector's office, the amount should be about Rupees 3,775-11-6. An inquiry regarding the deficiency is now being instituted by the Acting Superintendent of Police, Captain Frazer, and the result will be reported to you.

7. The Salt remaining at Buntoomully is now being fast sold to Lambalies and other Traders, and I expect the store will be exhausted by the end of this month, or early part of January; but the demand for the article in our District both for Home and Foreign sales can be fully met at Nizampatam and Chinna Ganjam, and I do not see the necessity of indenting on the salt stores of the neighbouring Districts to supply our wants.

8. I propose that as much swamp salt as can be collected at Buntoomully should be gathered and stored there during the ensuing season from March to July next. I hope it may amount to (4,00,000) four lacs of Maunds.

9. I further propose that 2,00,000 Maunds of Salt or more if it could be made, be manufactured at Munginapudi, and as the Salt Ryots have been reduced to great distress by the cyclone, I trust you will obtain the sanction of the Board to make liberal advances to them.

10. The quantity of salt remaining at Nizampatam on the 13th instant, according to the Daily Report of that date is 1,73,524½ Maunds, from which if the wastage by storm, &c., say 40,000 Maunds be deducted, there will remain 1,33,524½ Maunds available for sale, as it is probable that much of this quantity will be sold in this Fash to meet the deficiency in the Northern Cotars. I would suggest the manufacture of 1,00,000 Maunds of salt at Nizampatam in the current Fash.

11. At Chinna Ganjam the quantity of salt remaining on the 12th instant, according to the accounts is 6,35,315 Maunds, quite sufficient to meet for more than two years all demands ordinary and extraordinary that may be made on that Kotar, with reference to the present state of the sales at that place. I think it would be undesirable to manufacture any salt there during this Fash.

12. As the Salt Cutcherry at Munginapudi has been quite destroyed, I beg to suggest that a new one may be erected as soon as practicable, after the same plan as the one at Buntoomully, which appears to me to be particularly well adapted for a Salt Cutcherry, and it was highly approved by Mr. Clarke. Meanwhile, I propose to have a temporary shed erected for the purpose.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 23rd December 1864.

Read the following letter from J. FRASER, Esq., Officiating Collector of the Godavary District, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Cocanada, 8th December 1864, No. 320 :—

1. As directed in paragraph 89 of the Order of Government, No. 331 of the 6th February last, communicated with the Board's Standing Circular, No. XXIII., dated 15th March last, I have the honor to submit a Statement showing

the number of irrigation works in this District, the probable amount of revenue dependent thereon, the number requiring repairs, and the amount proposed to be laid out during the ensuing official year.

2. This Statement has been prepared from the information afforded by the Superintending Engineer, and the Taluk Tahsildars, as well as from the irrigation registers in my office.

3. The sums estimated to be spent according to the accompanying Statement amount to Rupees 1,97,264, while they amount to Rupees 1,81,545 according to the return furnished by the Superintending Engineer.

The number of works requiring repair includes also certain new works applied for by the Ryots through the Tahsildars.

ENCLOSURE No. 1.

ABSTRACT.—Statement showing the number of irrigation works in the District, the probable amount of revenue thereon, the number requiring repairs, and the amount proposed to be laid out during the official year.

ENCLOSURE No. 2.

From Lieutenant-Colonel O. W. S. CHAMBERS, R. E., Superintending Engineer, 1st Division, to H. NEWELL, Esq., Collector of the Godavary District, dated Dowlaishwaram, 21st April 1864, No. 2,593.

1. In reply to your letter of the 11th instant, No. 30, I have the honor of observing that you already possess, in the shape of irrigation registers, lists of the irrigation works in each Taluk of this District, with the revenue dependent thereon.

2. I do not believe, even if there were a necessity for this Department making them out, that fresh lists would be so accurate as those you already possess, which were made out by the Revenue authorities; with reference in particular to the amount of revenue dependent on works of irrigation, the only information that the Public Works can possess must be derived from Revenue officers.

3. I shall attempt to furnish you, by the end of August next, with a list of works that may or will need repair in the year 1865-66; but I cannot help commenting on the untrustworthiness and even uselessness of such a return; to be of any practical utility such a list should be drawn out after the monsoon, when the effects of the season on the works of irrigation, and the necessity or non-necessity of making an expenditure on the same in the shape of repairs have become evident; no one but a prophet could say, in August 1864, what works would stand in need of repair in the year 1865-66.

From Lieutenant-Colonel O. W. S. CHAMBERS, R. E., Superintending Engineer, 1st Division, to J. FRASER, Esq., Officiating Collector of the Godavary District, dated Waltair, 20th August 1864, No. 581.

1. With reference to an application made by your predecessor in his letter as per margin, for a list of the works of irrigation at the Godavary that will need repair in 1865-66, as well as

No. 39 of 11th April 1864.

RECORDED.

a Statement of the presumed cost of these repairs, and with reference also to a promise made by me in my reply. No. 2,533 of the 21st April last, I beg to forward a Statement giving the information required.

2. At the same time I do myself the honor of observing, that for all practicable purposes, I hold the return to be of little use. As it stands it is a mere list of guesses of the sums that may be needed for "repairs irrigation," and even if this Department were able to make an accurate statement, in the month of July, of the sums required for expenditure under this head in 1865-66, Government would not grant the money.

3. The present list gives Rupees 1,81,545 as the amount required for mere repairs, leaving out improvements and extensions of channels and tanks, whilst the Budget allotment for the present year for the repairs of works of irrigation is Rupees 1,52,600, which sum is considered by Government to be unusually large.

4. It appears to me that in calling upon this Department for the return now forwarded, Mr. Newill must have misunderstood the Board of Revenue's order: what the Board wanted, I think, was not information substantially, the same as what will find an entry in my Budget for 1865-66, but independent information obtained by the Collector through his own subordinates.

Read the following letter from G. A. BALLARD, Esq., Collector of Malabar, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Cochin, 14th December 1864, No. 307:—

1. I regret to have to report that a fire, which broke out in the Town of Ponany on the night of the 8th instant, resulted in the entire destruction of the Salt Gollah at that place.

There were 255 Garce and 3 Maunds of salt in the Gollah. How much of this quantity has been destroyed can only be ascertained when all the remaining salt is weighed. I have not decided it to be weighed immediately as the process is expensive, and I think it better to wait till sheds are prepared for its reception.

2. Meanwhile eight extra Kolkars have been entertained to guard the salt, besides a Constable, whose services the Local Police authorities have placed at our disposal for the purpose.

3. Orders have been issued for the immediate erection of sheds, &c., for the protection of the salt in store.

Submitted for the information of Government.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from W. HUDLESTON, Esq., Secretary to the Board of Revenue, to J. D. SIM, Esq., Secretary to Government, Revenue Department, dated Madras, 5th December 1864, No. 7,781:—

1. With reference to the Orders of Government, dated 8th September 1864, No. 1,638, I am directed by the Board of Revenue to submit, for the information of Government, a file of the printed replies of the Collectors of the Districts marginally noted, to the Board's Proceedings, dated 14th September 1864, calling upon them to furnish the report required by the Supreme Government as to the extent of Cotton cultivation, and the probable out-turn of the crop for the season 1864-65, as compared with 1863-64.

Kistna District.	North Arcot.
Mylapore.	Tinnevely.
Kurnool.	Coimbatore.
Madras.	

2. It will be seen from the accompanying Statement, prepared from the Collectors' letters, that the extent of land taken up for Cotton cultivation in six of the Districts in 1864-65, exceeds that of 1863-64 by Acres 36,776½, and that the probable out-turn of the crop for the current season may be calculated at Indian Maunds 19,57,222½ above that of last year.

	Acres.
1864-65	14,15,848
1863-64	13,79,072½
	36,776½

3. The Collectors consulted on the subject report that the native cloth manufacture in their Districts has greatly decreased, owing to the enhanced price of Cotton twist, and that in consequence the weavers have almost entirely abandoned their profession and sought means of livelihood in other pursuits, or by emigration. In the Madras District however, where the effects of the high price of Cotton thread were severely felt, a considerable number of weavers have been induced to return to their looms, and are now in full work.

ORDER THEREON, 4th January 1865, No. 4.

1. The Government observe that the out-turn of the Cotton crop in the Kistna District is given by the Collector as Indian Maunds 19,55,327 for 2,30,292 Acres, or nearly 700 lbs. per acre. Mr. Thornhill also omits to state whether his return shows cleaned or uncleaned Cotton.
2. The Acting Collector of North Arcot, Mr. Banbury, makes the like omission, and does not even state the description of weight in which the produce is entered. The Collectors of Tinnevely and Coimbatore also do not mention whether the out-turn entered in their letter represents cleaned or seed Cotton.
3. The Acting Collector of Cuddapah promised a report "after October," but none appears to have been received up to the 5th December, the date of the Board's Proceedings.
4. The Government regret that so important a subject should have been treated in such an unsatisfactory manner by the Board and the Collectors of the Districts abovenamed, and they desire that amended returns of area and produce be submitted without delay.
5. The Board will instruct the Collectors of all Districts that in all future returns of Cotton the area under cultivation is invariably to be given in Acres, and the produce in Cwts., and that it is always to be noted whether the latter represents cleaned or seed Cotton.

1. Instructions will be issued to the Collectors to furnish further returns; but with reference to the remarks of Government in paragraph 4, the Board beg leave to point out that the only part of the information that can at all be relied on is the statement of area; the estimates of produce are so purely speculative as to be of little value, and the Board believe that an equally correct idea of the probable out-turn could be derived from a knowledge of the average produce per acre of Cotton on different classes of soil and the circumstances of the season.

2. Ordered that the foregoing order be communicated to the Collectors of the Districts concerned, with instructions to send up fresh returns of area under Cotton, reduced to acres, and of the estimated out-turn of the crop in cleaned cotton stated in Cwts.

1. I have the honor to acknowledge the receipt of the Board's Proceedings dated the 4th June last, No. 3,231, conveying the Proceedings of the Madras Government dated the 1st idem, No. 932, calling for certain information relative to the Chuttrums at Usur and Palcode.

2. With reference to paragraph 4 of the Government Proceedings, I beg to refer the Board to the correspondence noted in the margin, relative to the Chuttrums at Usur. In the Proceedings of the Board dated the 18th September 1843, they informed the then Collector that the Proprietor of the Chuttrum should

submit a fresh application for an endowment not exceeding 60 Rupees. It appears that the Board's order was duly communicated to the Proprietor, but the application does not appear to have been renewed.

3. The plan forwarded with my letter dated the 31st January 1863, No. 12, is the plan of a Government choultry, and not the plan of the Chuttrum recommended for endowment. It appears that Captain Clay, who prepared the plan, mistook the one building for the other. The Government choultry is one of the number of small choultries built at different places in this District at the expense of Government by the late Principal Collector Mr. Orr. I have now had a correct plan of the Chuttrum prepared, which I beg to submit herewith. From this plan the Board will see that the Chuttrum affords accommodation to all classes of travellers. I therefore request that an endowment of 60 Rupees may at once be granted for this Chuttrum.

4. With regard to the Chuttrum at Palcode, I beg to state that the Proprietor of the Chuttrum has completed the necessary additions so as to admit of accommodation for all classes. I beg to return the plan of the building with another showing the additions made. I now request that in this case also the endowment I have already recommended be at once granted. I recommended 48 Rupees for this Chuttrum, which although useful to travellers is of less importance than the one at Usur.

1. The plans received with the above letter will be returned to the Collector of Salem.

2. In the case of the Oosoor Chuttrum the Board cannot recommend a grant of land unless more accommodation is allowed for those who are designated "common Hindoos" and for Christians.

3. The accommodation intended for the same classes in the plan of the Palcode Chuttrum is also too small to justify a liberal recommendation. The Collector is requested to communicate with the proprietor of the Choultries on the subject and to report the result.

1. With reference to the Board's Proceedings, dated the 19th May last, No. 3,062, I have
the honor to forward copy of a letter from the Sub-Collector, dated 29th September 1864, inform-
ing me of the result of his communication with the proprietors of the Chuttrums at Usur and
Paulcode in reference to the Board's Proceedings under acknowledgment.

2. The Board will observe from paragraph 2 of Mr. Thomas's letter that the proprietor of
Usur Chuttrum has agreed to make the additions required in the Board's Proceedings within six
months, and I beg to add that he has also expressed before me his willingness to make the required
additions shortly. When the additions are made, I shall submit a report thereon.

3. With regard to the Chuttrum at Paulcode, I beg to refer the Board to paragraph 3 of Mr.
Thomas's letter, from which the Board will see that the proprietress has expressed her inability to
make any more additions.

5. I beg to return the Board's Petition No. 3,312 of 1864, presented by the proprietress of

ENCLOSURE No. 1.

From H. S. THOMAS, Esq., Sub-Collector of Salem, to the Honorable D. ARBUTHNOTT,
Collector of Salem, dated Usur, 29th September 1864, No. 293.

1. I have the honor to reply to your letter, dated 6th June 1864, No. 372, forwarding
Board's Proceedings dated 19th May 1864, No. 3,062. As desired therein I pointed out to the
proprietors of the Choultries at Usur and Paulcode the insufficiency of the accommodation provided
therein for the classes of people designated "Common Hindoos," giving them distinctly to under-
stand, at the same time, that the grant applied for by them will mainly depend upon what further
steps they may take to enlarge the portions of the choultry intended for that class of people.

2. The proprietor of the Choultry at Usur has agreed to make the requisite additions in
about six months' time, and I shall submit my report after inspection when they have been com-
pleted.

3. The proprietress of the Paulcode Choultry has expressed her inability to make any more
additions, adding that the detached building, intended for the lower orders of the people, has been
largely used by those classes, and that she was not aware that it was ever considered insufficient
for their requirements.

4. The plans of the choultries received with your letter under reply are herewith returned,
together with the Arzis of the Tahsildars on the subject.

ENCLOSURE No. 2.—Petition.

1. The above recorded letters will be submitted to Government with reference to their
Order, dated 1st June 1863, No. 932.

2. Under the circumstances reported, the Board will await the Collector's further report
regarding the Usur Choultry. The Collector should inform the proprietress of the Paulcode
Choultry, that no endowment can be applied for until she makes the necessary additions.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 12th January 1865.

Read the following letter from C. W. READE, Esq., Collector of South Arcot, to W. HUDLE-
STON, Esq., Secretary to the Board of Revenue, dated Trikalore, 16th December 1864,
No. 239:—

1. I have the honor to forward the accompanying copy of a letter* from my Salt Deputy
Collector, reporting the loss of 124 Garces and
6 Maunds of salt stored at the depots of Mer-
kanum and Chunampet in the late severe storm, which passed over that part of this District on
the 27th and 28th November last.

2. On the dates mentioned the northern and western parts of the District were visited
with a very heavy gale; the wind commenced from the north-east gradually veering round to
north-west, and then due west and so on to south-west, south-east and due east, having gone
round the compass in about the space of twenty-four hours. At intervals the rain during the whole
of this time was very heavy, and the sea made considerable inroads in the back-water from which
the salt pans are formed at the two depots, and the wind blew with such violence and in gusts
that the entire covering of some of the heaps were bodily carried away, notwithstanding the heavy
clay or earth coating with which the thatch was amalgamated.

3. The storm was no doubt a cyclone, the centre of which could not have been very distant.
The post from Madras was delayed three days showing that the greatest strength of the storm must
have been somewhere to the north or north-east, probably of the places in this District which felt
its influence the most.

4. In Cuddalore it blew very violently for some hours during the night of the 27th and day
of the 28th, and the rain was also at times very heavy; but the accounts I received from the Taluk
of Tindevanum, shortly after proved that the storm must have expended its fury as above stated
to the north or north-west of the District.

5. While the consequence to the salt have been so disastrous, I may mention, with satis-
faction, that the rain which fell on the two days and nights in question was greatly wanted, and that
tanks which, till then, had been comparatively empty, received a supply of three and four months
water to the great relief and blessing to the country. Prior to the storm I had been apprehensive
of a partial failure in the cultivation of those parts of my District, which have been entirely set at
rest by this timely downpour.

6. The Board will observe that all is again in order at the salt depots, and the heaps have been
thoroughly re-thatched. The loss to Government is considerable, amounting to Rupees 22,329;
but no foresight could have guarded against its occurrence, and one can only be thankful that the
damage to property and loss of life in this unusual season have not been far greater.

ENCLOSURE No. 1.

From MAHOMED ESUF, Deputy Collector, to C. W. READE, Esq., Collector of South Arcot,
dated Cuddalore, 13th December 1864, No. 163.

1. I have the honor to report for your information, the loss at Merkanum and Chunampet,
of 124 Garces of salt, consequent on the visitation of the late cyclone accompanied with heavy rains
at those stations.

2. This loss is the aggregate of damage sustained by the heaps as specified in the annexed
list. These heaps were well thatched and secured as usual, and every precaution had been taken
for their protection during the monsoon. Nevertheless the violence of the wind between the
27th and 28th November last was so great as to uncover, though not wholly, nearly all the heaps

and lay them exposed, while the heavy rains which were pouring simultaneously, washed out the salt.

3. The cyclone commenced on the 27th, and subsided on the following day, though it has been pouring incessantly for some days previously. The brunt of the cyclone was greater at Chunampet than at Merkanum, and hence the heavy loss. Steps were at once taken, and the heaps have all been since fully re-thatched. The value of the loss to Government at the monopoly price is Rupees 22,329.

Proceedings of the Madras Government, Financial Department,

16th January 1865.

No. 54. Read the following Extract from the Proceedings of the Government of India, in the Financial Department, dated 31st December 1864, No. 4117.

Read Office Memorandum to the Military Department, No. 802, dated the 11th June, and the reply, No. 150, dated the 5th November 1864, regarding the principle for determining whether the salary of a Medical Officer should be charged to the Civil or the Military Department, and his absence be regulated by the Civil or the Military Leave Rules.

RESOLUTION.

In accordance with the views expressed in the correspondence mentioned above, and in supersession of all previous orders on the subject, the Governor General in Council is pleased to declare that the appointment of a Medical Officer shall in future be regarded as a Military or a Civil charge, according as he may be nominated to it by the Military or the Civil Department; his emoluments being audited and adjusted in the former case, in the Military Department, under Military Rules, and in the latter case, in the Civil Department, under Civil Rules. In cases, however, of the charge for any appointment being transferable, under this order, from the Military to the Civil Department, or *vice versa*, the order shall, as regards such transfer of charge, and Budget provision for it, take effect from the next year, there being no object in giving it earlier effect, so far as audit and accounts are concerned.

Ordered that a copy of the foregoing Resolution be forwarded to the Military Department. It is for that Department to consider, in communication with the local Governments, and dispose of the proposal of the Military Accountant General, that the nomination to certain Medical appointments should be transferred from the Military to the Civil Department.

Ordered, also, that copies of the above be forwarded to the—

Read the following letter from E. G. R. FANE, Esq., Collector of Madras, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Sydapet, 11th January 1865, No. 8:—

In their Order of 27th September last, No. 1,784, Government were pleased to sanction a sum of Rupees 2,000 from the head B. IV, "Miscellaneous," for removing prickly-pear bushes in the District of Bangalore. Vide Board's Proceedings, 30th September 1864, No. 6,419.

Vide Board's Proceedings, 30th September 1864, No. 6,419. I have accordingly employed men at the work under the
Roshan Baugh and Home's Gardens. I have accordingly employed men at the work under the
superintendence of a European; but as the coolies cannot be paid unless the Civil Auditor passes
bills for their payment, I request the Board will be pleased to obtain the sanction of Government
to my paying the coolies in advance as a special case, and then adjusting the amount, as it is im-
possible to get coolies to work, and to wait for a whole month for their wages.

1. The Board consider that the Government order in question clearly authorized an advance of Rupees 2,000 for the purpose in question, the charge being adjusted on passed bills.
2. It is evident that coolies must be paid daily, and cannot be kept waiting till after the bill is passed before they receive their hire.
