G.O. No.	1785	Press
632-638		-Mis.
Dated	28. 6.	1865.

Not to be folded or roughly handled

27/11/11

*Proceedings of the Madras Government, Public Works Department,
28th June 1865.*

No. 637. Read the following letter from Captain J. MULLINS, R. E., Consulting Engineer for Irrigation and Canal Company, to Colonel C. A. ORR, R. E., Secretary to Government, Department of Public Works, dated Madras, 16th June 1865, No. 28 :—

SIR,

1. I have the honor to forward, for the considerations of Government, a letter No. 68 of the 8th instant, from Captain Beckley who, in the Order as per margin,* was deputed to take Stock of the Stores at Madras belonging to the Madras Irrigation and Canal Company, and to request instructions as to whether the Government would wish that Officer to examine the stock of Teak-wood in detail.

1 Letter in original from Executive Engineer Presidency, General No. 134.

* No. 685, dated 31st March 1865.

2. It will be observed that Captain Beckley mentions that the Teak-wood was carefully measured by the present Chief Accountant and Store-keeper when he took charge,† and the quantity in stock on the 20th April, based on these measurements, was 12,420'·7", but as Captain Beckley did not report the quantity shown in the Stock Ledgers, I wrote to the Agent from whose reply it will be seen that, according to the latter account, the quantity should be 16,691'·4"·8".

† December or January last.

No. 97, 14th instant.

3. Explanations regarding the above discrepancy will be included in the Agent's report on the result of the Stock-taking, but the question now is whether, either in confirmation of Mr. Badham's measurements or to complete the check of the stock at the close of 1864-65, the Government would wish the Teak-wood measured at the considerable cost of labor, for its removal preparatory to measuring, and of time mentioned by Captain Beckley.

No. 638.

ORDER THEREON, 28th June 1865, No. 1,785.

ACCOUNT, No. 102.

If the Consulting Engineer for the Madras Irrigation and Canal Company and Captain Beckley are satisfied with the examination made by Mr. Badham on his assuming charge of his duties, as Chief Accountant and Store-keeper, of the stock of timber then in Store, the Government will not insist on its being measured again so soon, at the cost mentioned by Captain Beckley.
