*Proceedings of the Madras Government, Public Works Department,
28th June 1865.*

No. 641. Read the following letter from Lieutenant-Colonel G. W. WALKER, R. E., Superintending Engineer, 7th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Coimbatore, 15th June 1865, No. 41 :—

SIR,

In paragraph 3 of my letter No. 18 of 22nd May, allusion was made to a sum of Rupees 6,000 for improvement of the road from Periah Ghát to Manantoddy, as lacking to make up the annual allotment of Rupees 60,000 for new works of communication in the Mysore plateau. I have now the honor to submit plans and estimates for the puckah culverts and drains, of which such improvements will consist; trusting to the maintenance allowance for conservancy and improvement of the road-way, Rupees 6,000 out of Rupees 15,800 is as much as the Range Officer can well spend in this year, in addition to other works in hand, leaving Rupees 9,800 for entry in the Budget of 1866-67.

1 Plan.
1 Estimate.

No. 642. ORDER THEREON, 28th June 1865, No. 1,787.

CIVIL WORKS, No. 95.

1. On the recommendation of the Superintending Engineer, the Governor in Council sanctions the plans and estimates (Rupees 15,800) submitted with the foregoing letter for the construction of masonry culverts on the road from Periah to Manantoddy in the Malabar District, and as it is proposed to expend during the current year Rupees 6,000, application will be made to the Government of India for permission to proceed with the work.

2. Colonel Walker alludes to this sum of Rupees 6,000 being wanting to complete the annual allotment of Rupees 60,000 promised for the formation of roads

Item No. 110, Part II. of Budget	...	RS. 20,000	on the Wynad plateau, but there is
" 111, " " "	...	14,000	nothing to show Government how much
" 112, " " "	...	30,000	of the amount allotted is to be laid out

above the Ghát. The Superintending Engineer will therefore furnish this information.

Ordered that the following letter be sent :—
