Sir,

With reference to G.O. No. 1158 dated 29th April 1865, and your Memo No. 96 dated 15th June 1865, I have the honor to report that on the receipt of the order I placed myself in communication with the Major General Commanding the Division, and with the Barrack Master. With the latter Officer you are aware have hitherto resided all questions appertaining to the accommodation of troops at the principal Military Stations in this Division, and with him lies all the information connected with the areas of buildings, occupation-return &c.; so that I rather looked at the order of Government as referring to the Superintending Engineers of the 7 Divisions, in which there were no

Barrack

Barrack Masters; and expected that the order having been communicated to the Military Department, Colonel Worster would probably be called upon in that Department to furnish what was required.

2 I have made these few observations in explanation of the delay which has occurred, but I am now writing to the Barrack Master to favor me with a Memo of the areas of the Barracks, and the No. of men in each, and I hope soon to supply the particulars required by Government.—
