*Proceedings of the Madras Government, Public Works Department,
30th June 1865.*

No. 695. Read the following letter from Major J. H. M. SHAW STEWART, R. E., Under Secretary to Government, Public Works Department, in charge of Public Works Store Department, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Chepauk, 23rd June 1865, No. 225 :—

SIR,

1. I have the honor to forward, for submission to Government, copy of the Proceedings of a Committee of Survey on the Public Works Stores landed per "New Era."

60 Bolts and nuts 15" $\times$ $\frac{5}{8}$ ".
1 Steering sail for Wind Mill 4-H. P.

2. You will observe that the articles marginally noted have not been delivered, and the Committee are of

opinion that the ship is liable for the loss, inasmuch as the case containing these articles was broken previous to landing.

3. The Superintendent of Marine has been requested to recover the value of bolts and nuts, viz., Rupees (11-6-6) eleven, Annas six and Pice six, but the General Superintendent of Stores and Workshops, reports that he is unable in the absence of specified drawings of the Wind Mill, to estimate the cost of the Steering Sail.

4. I beg, therefore, that the Right Honorabe the Secretary of State may be moved to order the supply of another Steering Sail, by Messrs. Gwynne & Co., the Manufacturers of the 4-H. P. Wind Mill, with as little delay as possible, and to recover the cost of the sum from the owners of the Ship "New Era."

Proceedings of a Committee of Survey held at Abercrombie's Battery, Madras, on Thursday the 15th June 1865, to report on certain Government Stores landed from the Ship "New Era" for the Public Works Department.

PRESIDENT.

E. S. ATKINSON, Esq., Deputy Collector of Sea Customs.

MEMBERS.

F. L. MONCRIEFF, Esq., C. E. General Superintendent Public Work Store and Workshops,

J. B. CROWTHER, Esq., Deputy Master Attendant.

The Committee having assembled proceed to inspect the following cases :—

No. 2,185.—Containing parts of a 4-H. P. Wind Mill. No. A 1 and 2, No. B 1.—Containing Brick-making Machines for the Government of Mysore : the above cases are reported by the Assistant Master Attendant, who surveyed the stores before being landed, to have been broken on board.

2. The contents of case No. 2,185 having been compared with the Packing Account, the Committee find the following articles deficient, viz. :—

60 Bolts and nuts 15" by $\frac{5}{8}$ " and
1 Steering Sail,

and they have no hesitation in stating that the loss of the above was occasioned by the damage to the case, a part of which was completely broken off.

3. The Committee are therefore of opinion that the ship is liable for the loss.

4. The damage to the other cases calls for no remarks from the Committee, further than that the case appeared far too slight for their intended purpose, as their contents were found on examination to be correct and in good order.
