*Proceedings of the Madras Government, Public Works Department,
21st July 1865.*

No. 566. Read the following Endorsement of the Superintending Engineer,
5th Division, dated Salem, 14th July 1865, No. 856 :—

Read the following letter from Captain H. TULLOCH, R. E., Executive Engineer,
Bangalore, to Lieutenant-Colonel E. A. FOORD, R. E., Superintending
Engineer, 5th Division, dated Bangalore, 11th July 1865, No. 257.

SIR,

1. I have the honor to bring the following subject to your notice.
2. In addition to the Executive charge of Bangalore I am supposed to be in charge of the Military buildings at the following outlying stations :—

Mysore, Mercara, Hurryhur, Herrioor, Hoonsoor, Bomangerry, Muddoor, and Goondalpett. Whenever any repairs are required to a building at one of these stations, I receive notice of it either through the Commanding Officer at the station or through some other such channel. The only means that I have of getting the work done is by applying to the person who gives me notice of the necessity of the repairs, and by asking him to forward me an estimate. Sometimes the estimate is sent to me, but very often the Officer to whom I apply writes to say he is unable to furnish the estimate. Under these circumstances I have no resource but to ask the Chief Engineer of Mysore to have the work done by help of his Department. Colonel Lawford has, hitherto, kindly permitted the repairs to be executed under his orders; but I think it would be a far better plan if arrangements were made between the Madras and Mysore Governments for all work required at the outlying stations to be done *by* the Mysore Government, but *at the cost* of the Madras Government.

3. It would be mere waste of Government money if the Executive Engineer of Bangalore were to visit the outlying stations, and yet his duty ought properly to take him to them. The mere cost of one journey to (say) Mercara and back would generally be five and six times as much as the value of the work to be executed at the place.

4. I should think that the plan I have suggested would in every way be more satisfactory, than the one which I am now forced to adopt, and which after all is informal.

Submitted to Government, with a recommendation that Captain Tulloch's suggestion be adopted, as no great inconvenience will be entailed on the Mysore Public Works Department by their carrying out works required at outlying stations.

(Signed) E. A. FOORD, Lieut.-Colonel, R. E.,
Superintending Engineer, 5th Division.

No. 2,110.

From

COLONEL C. A. ORR, R. E.,

Secretary to the Government of Fort Saint George, P. W. D.,

To

THE COMMISSIONER FOR THE GOVERNMENT OF THE

TERRITORIES OF HIS HIGHNESS THE MAHA RAJAH OF MYSORE.

SIR,

MILITARY WORKS, No. 41.

Mercara.
Mysore.
Hurryhur.
Herrioor.

Hoonsoor.
Bomangerry.
Muddoor.
Goondalpett.

The Superintending Engineer of the 5th Division having forcibly represented to this Government that, owing to no Public Works Establishments being attached to the outlying stations noted in the margin, the greatest inconvenience is felt in carrying out necessary repairs to the Military buildings situated therein, I am directed by His Excellency the Governor in Council to request that you will be good enough to state whether there is any objection to these repairs being undertaken by the Executive Officers of the Mysore Public Works Department, from funds to be supplied by the Executive Engineer at Bangalore.

I have the honor to be,

Sir,

Your most obedient servant,

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

Executive Eng^r Office

Bangalore. 17th July, 1865.

To

The Superintending Engineer

5th Division

Sir,

I have the honor to bring the following subject to your notice.

In addition to the Executive charge of Bangalore I am supposed to be in charge of the Military buildings at the following outlying stations:-

Mysore, Mercara, Hurreahur, Herring, Hoor, Bomangerry, Muddoor and

Gondalpett. Whenever any repairs are re-

quired to a building at one of these stations

I receive notice of it either through the Com-

manding Officer at the Station or through

some other such channel. The only means

that I have of getting the work done is

by applying to the person who gives me

notice of the necessity of the repairs and

by asking him to forward me an estimate.

Sometimes the estimate is sent to me, but

very often the Officer to whom I apply

writes to say he is unable to furnish

the estimate. Under these circumstances I have

no resource but to ask the Chief Engineer

of Mysore to have the work done by help

of this department. Colonel Sanford has

hitherto, kindly permitted the repairs to

be executed under his orders, but I think it

would

would be a far better plan if arrangements were made between the Madras and Mysore Governments for all work required at the mthying stations to be done by the Mysore Government but at the cost of the Madras Government.

It would be mere waste of Government money if the Executive Engineer of Bangalore were to visit the mthying stations, and yet his duty ought properly to take him to them. The mere cost of one journey to (say) Mercana and back would generally be five and six times as much as the value of the work to be executed at the place.

I should think that the plan I have suggested would in every way be more satisfactory than the one which I am now forced to adopt, and which after all is informal.

Yours &c
