*Proceedings of the Madras Government, Public Works Department,
25th July 1865.*

No. 620. Read the following letter from Captain R. F. OAKES, R. E., Acting Superintendent Engineer, 6th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Tanjore, 13th July 1865, No. 539 :—

SIR,

1. I have the honor to inform you that the large dredge at Negapatam requires cleaning and painting, and to request permission to dock her to enable us to examine her bottom, and to prepare an estimate correctly. Her machinery will have to be removed before she is docked, and opportunity should be taken of the monsoon season, when she is not required, to carry out repairs to her.

2. The smaller dredge has been carefully examined by a Mechanical Engineer attached to the Railway Department, and has been pronounced beyond repair. In G. O. No. 1,516 this dredge was ordered to be sold, she was advertised for sale, but no bid was made for her. There is no sale for old iron in this District at present, but there may be, by and bye, when the Railway Department set up a blast furnace, as they are reported to be about to do.

25th May 1864.

No. 621.

ORDER THEREON, 25th July 1865, No. 2,138.

ESTABLISHMENT, No. 78.

1. The Superintending Engineer's proposal to dock the Negapatam Dredge, with a view to examine her hull, and to prepare an estimate for cleaning and painting it, is approved of. The Government do not, however, consider it by any means necessary to remove the whole of her machinery for this purpose, and the attempt to dock her, without going to that expense, should at any rate be made.

2. The Superintending Engineer will use his discretion in disposing of the hull of the small dredge to the best advantage, reporting his proceedings to Government.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

To the Superintending Engineer, 6th Division.
.. Controller of Public Works Accounts.
.. Officer in charge of the Store Department.
