*Proceedings of the Madras Government, Public Works Department,
27th July 1865.*

No. 667. Read the following letter from Lieutenant-Colonel G. W. WALKER, R. E., Superintending Engineer, 7th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Andoor, 19th July 1865, No. 68:—

SIR,

1. In reply to your remind No. 120, of the 8th July, I lose no further time in submitting plans and estimates for providing cart sheds and earth stores at the Military out-posts of Calicut and Malliappooram, Rupees 315 each, total Rupees 630. I have had occasion to order revision of the papers originally sent me, and those from Cannanore are under revision.

2. At Wellington the dry conservancy system has not been fully established; and a doubt has arisen whether it falls within the scope of the order. But I have requested the Executive Engineer to prepare estimates for adapting all the privies to the dry system, and to provide in them for cart sheds and earth stores.

3. From Mangalore no reply has yet been received, and reminder has been sent, with instructions to estimate for all requisite alterations and additions to the Military Hospital privies at that place.

No. 668. ORDER THEREON, 27th July 1865, No. 2,162.

MILITARY WORKS, No. 47.

There is nothing in this letter to show whether the plan submitted therewith, of additions proposed to be made to certain Military buildings at Malliappooram and Calicut to answer the purposes of earth stores and cart sheds, has been prepared in communication with the Sanitary Commission, as directed in G. O. No. 1,130, dated 27th April 1865, neither is any information given of the distance of the buildings from the privies where the experiment of the "earth sewage" system is being carried out. These omissions the Superintending Engineer of the 7th Division will be requested to supply.
