No. 108. ORDER THEREON, 4th August 1865, No. 2,236.

ESTABLISHMENT, No. 14.

No. 1,476, dated 1st June 1865.

1. Representations having been made of the necessity for re-distributing the Range Office Establishments recently sanctioned with reference to the relative importance of the several charges, the Superintending Engineers were called upon, in the Orders marginally noted, to submit Statements of the Establishments which they would recommend to be entertained in each of the Ranges in their respective Divisions. The replies to this requisition are above recorded. Some of the Superintending Engineers have

*Proceedings of the Madras Government, Public Works Department,
4th August 1865.*

proposed the adoption of four classes of Establishments, while others have provided for three, as shown in the following Statement:—

	FIRST CLASS.		SECOND CLASS.		THIRD CLASS.		FOURTH CLASS.		Remarks.
	No. of servants.	Month-ly cost.	No. of servants.	Month-ly cost.	No. of servants.	Month-ly cost.	No. of servants.	Month-ly cost.	
1st Division...	4	161	3	136	2	89	2	74	3 Presidency Ranges not included. Bangalore Range not included. The Neilgherry and North Wynad Ranges not included.
2nd Do. ...	4	174	3	121	2	69	...	...	
3rd Do. ...	4	183	3	163	2	108	...	...	
4th Do. ...	4	160	3	130	3	100	2	80	
5th Do. ...	4	185	3	125	3	105	...	...	
6th Do. ...	4	187	3	138	2	117	2	112	
7th Do. ...	4	171	4	156	3	126	...	...	
8th Do. ...	4	185	3	125	3	105	...	...	

NOTE.—The Lascars have been excluded under the head "No. of servants."

2. The total cost of the Establishments proposed by the Superintending Engineers amounts to Rupees 12,027½ per mensem. After careful consideration of the subject, the Government are of opinion that it will be sufficient for all purposes if three classes of Establishments be adopted; and looking to the desirableness of establishing an uniform rate of salary for each description of servant in the same class of Range, they consider that the following classification is preferable to the varied rates which have been recommended by the local Officers:—

	First class Range.	Second class Range.	Third class Range.
	RS.	RS.	RS.
1 Accountant	60	50	40
1 Draughtsman and Estimator	40	40*	...
1 Assistant Accountant and Writer	30	...	20
1 Do. do.	20	25	15
3 Lascars	21	21	21
Total...	171	136	96

* This man should assist in the compilation of accounts.

*Proceedings of the Madras Government, Public Works Department,
4th August 1865.*

3. The expense of these Establishments will be Rupees 12,161½ per mensem, as follows, being Rupees 39½ less than the sum sanctioned by the Government of India:—

	RS.
27 Ranges at Rupees 171	4,617
20 Do. at ,, 136	2,720
35 Do. at ,, 96	3,360
Bangalore Range establishment	252
Neilgherry do.	308
Presidency three Range do.	801
50 per cent. increase for Wynad Range offices.	103½
	12,161½
Amount sanctioned by the Government of India including 50 per cent. for Wynad Range office	12,201
Saving per mensem... ..	39½

4. In each class of office, due provision has been made for an efficient staff of servants. In the 7th Division, the Assistant Accountants attached to the First Class offices may, if necessary, be employed exclusively on the duties of Store-keepers, or be required to perform those duties in addition to their own as Accountants.

5. The Government have not considered it desirable to alter the number of Lascars attached to each Range under the orders of the 28th April, or to make any change in the Establishments allotted to the Presidency, Bangalore, and Neilgherry Ranges. These will continue therefore as sanctioned by the Government of India.

6. The 50 per cent. additional provided for the office Establishments of the North and South Wynad Ranges has been determined as follows:—

50 per cent. on 2nd class Establishment for the North Wynad Range... ..	RS. 68
50 per cent. on salaries of Accountant and Lascars to be detached from the Collegal to the South Wynad Range... ..	35½
	103½

7. As recommended by Colonel Walker, the office of the South Wynad Range, so long as it remains a separate Executive charge, will be made up of servants transferred from the North Wynad and Collegal Range Establishments. The servants to be detached from each of these Ranges are noted below:—

	RS.
Collegal Range, 1 Accountant	50
Do. 3 Lascars	21
North Wynad Range, 1 Assistant Accountant and Writer... ..	25

8. - The following list gives the particulars of the distribution over the several Districts of the classes of Ranges above mentioned. The Establishments allotted to the Presidency, Bangalore, and Neilgherry Ranges are added to complete the list:—

*Proceedings of the Madras Government, Public Works Department,
4th August 1865.*

District.	No. and name of Range.	Amount.	Total.
	THIRD CLASS.—(Continued.)	RS.	RS.
	3RD DIVISION.—(Continued.)

Coimbatore	Neilgherry Range	308	12,161½
	50 per cent on Wynaud Ranges	103½	
	Grand Total		

9. The Government believe that these Establishments will be found amply sufficient for the duties devolving upon them ; and as the new system of Accounts will shortly be brought into operation, His Excellency the Governor in Council directs that the arrangements now sanctioned be carried into effect without delay. The dates on which the Establishment for each Range may be entertained should be reported to the Controller of Public Works Accounts.

*Proceedings of the Madras Government, Public Works Department,
4th August 1865.*

10. No time should be lost in reducing the Establishments of the Superintending Engineers to the scale sanctioned on the 28th April last. The Government will be prepared, on the receipt from the Controller of the report called for in G. O. No. 2,013, dated 15th July 1865, to authorize the entertainment of small temporary Establishments in the Offices of the Superintending Engineers for the preparation of the bills remaining to be rendered in adjustment of all outstanding balances up to the close of the past official year.

Superintending Engineer's
389 Office, 1st Div. Wallaces
24th June 1865.

From Captain J. G. Dykes R.E.
Supg. Engineer, 1st Div.

To Colonel C. A. Orr R.E.
Secretary to Govt; D.W.

Madam.

With reference to G. O. N^o 1624
dated 13th instant, I have the honor
to report that I prefer the scale of
Office Establishments proposed in my
letter dated 6th instant and the state-
ment furnished on the 8th idem
~~in accordance with G. O. N^o 1624~~

In my scale I divide Range Offices
into three classes, as far as accounts
are concerned, of the same strength
and very nearly identical rates of
pay as in the scale proposed by
the Controller; so far therefore would
accept

in acc^{ce} with G. O.
N^o 1624
of 1st instant

accept the Controller's proposed scale.

2. But some of the second class Offices ought to have a Draftsman attached to them. you may have a clever Engineer expressly put in charge of a 2nd Class Range to prepare Estimates and designs for new works: there is no necessary, & in practice not much actual, connection between the requirements of a Range in the two branches of accounts and designing.

3. I therefore prefer my scale on general grounds, and for the particular case of my own division, at any rate for some time to come, three draftsmen (the number according to the Controller's scale) would be insufficient.

4. The distribution of the classes of Offices in this division recommended in my letter & statement above

12
above referred to is the correct one: a first class Office is required in Gaujam & a second class Office is not required in Vizagapatnam.

I have the honor to be
Sir
Your most Obedient Servant

No 36

Sup^y Engrs Office 2nd Div
Mauritipatam
17 June 1865

From V. C. G. V. Wincom R.E.
Sup^y Engineer 2nd Div
To Colonel C. A. Orr R.E.
Secretary to Government
D. P. A.

With reference to G.O. No 1624
dated 13 June 1865 forwarding the
Scale of Ranges and Salary Establish-
ments recommended by the Controller
of Public Works accounts as the
scale proposed by me in compliance
with para 4 of G.O. No 1476 of 1st
June and despatched from this
Office on 10 inst; I consider it
desirable to state that I do not think
Captain Roche's proposal is the
best that could be made for this
Division.

I Without entering into arguments
as to details, I would wish to point
out some of the main objections as
they occur to my mind.

99/0412/1266

1st The Controller proposes only two 1st class Ranges in the Krishna District. I consider it very desirable, both on account of the great importance and quantity of the work which will for several years be in progress, that all the Delta Ranges should be 1st class, and officered by men of considerable experience and superior standing in the Department.

2nd The Establishment proposed for a 3rd class Range appears to be more than is necessary, as the expenditure in such Ranges is small.

3rd The 8 grades of accountants proposed by Captain Fischer seem to me too numerous, and the opportunities for promotion thereby occasioned will cause continual changes and a feeling of dissatisfaction.

4th More men who, besides the title of Draughtsmen, can also survey and estimate, are needed in the Divisions than proposed by the Controller. The want of such men has been a good

deal felt during the last 2 or 3 years.

21
I have the honor to be
Sir,
Yours most Obedt Servt

Geo. W. M. Cole
Superintendent
Sub. Secy. to Govt.

 Super. Engrs' Office D.D.

N^o 70.Supp. Engineer's Office, 3^d Division
Bellary, 11th July 1865.

From

Captain A. S. Moberly, R.E. 0;
Supp. Engineer, 3^d Division

To

The Secretary to Government
Public Works Department.

Sir,

With reference to the order of Government N^o 1624 of the 13th ultimo forwarding for consideration a statement proposed by the Controller of the Classification of Office Establishments proposed by him, I have the honor to point out that Captain Fischer has not as he states made provision to have draughtsmen in those Ranges now specially provided with them, for he has only allowed one 1st Class Office for Buddapah whereas there are now ten.

2. I would beg to propose a slightly different classification and herewith attach a statement of what I would recommend: I propose two classes of Establishments, but as in the Military Buildings Range there is more work for Accountants, I propose giving a Formastah extra. As regards Lascars I would strongly recommend that they should all of them get Rupees 7 each monthly as I have already reported to Government the difficulty there is in procuring Lascars on a monthly salary of Rupees 6.

3. The total amount for this Division according to my scale is slightly greater than that entered in Captain Fischer's scale, but is less than the amount newly sanctioned in G.O. N^o 1137 of 28th April 1865.
I have &c

A. S. Moberly Captain R.E.
Supp. Engineer, 3^d Division.

Statement shewing classification of Range Office Establishments in the 3 Divisions.

No. 39.

Supy. Engineer's Office 3rd Divⁿ

Bellary, 7 June 1865.

From

Captain A. S. Moberly, R.E.

Supy. Engineer, 3rd Division

To

The Secretary to Government

Public Works Department.

Sir,

In forwarding the accompanying Statement
of the Establishment which I would propose to allot
for each of the Ranges in this Division, I have the
honor to inform you that I consider two Assistants
are required in the Military Buildings Range as
there is a great amount of writing connected with
the numerous calls for petty work in the Canton-
ment.

2. I have entered the pay of the Draftsman in
the Military Buildings Range at a higher rate than
the others, as there is more drawing in that Range.

3. The rest of the Ranges in this Division have
divided into Classes and have entered increased pay
for the Accountant and Draftsman in the 1st Class
Ranges, as I consider that the work in them will be
greater than in the Second Class.

4. As regards Lascars I think it very necessary
that each Range should have 4 Lascars attached as
it is always advisable to have one man at the Head
Quarters of the Range to take care of the Office records.

5. In conclusion I have the honor to inform
you that I have taken advantage of this opportunity
of the revision of the Establishments to request the
consideration of Government as to the pay of the
Moosee and Lascars attached to my own Office.
At the time of District Engineer's Office being abolished
the pay of the Moosee was reduced from Rs. 50 to Rs. 40.
I would beg that he may receive the former rate of
pay, as he has been in this and the late District

L. O. No. 46. of
1st June 1865.

Engineers Office for the last nine years and as the
rise in prices has been so great.

6. As regards the Lascari I have already addressed you in my letter N^o. 35 of the 5th Inst. and the rates which I would propose for them are R^s. 8 for the two Seniors and R^s. 7 for the rest.

I have few

A. S. Webb, Captain R.C.
Supy. Engineer, 3^d Div'n.

 No. 1524, dated 13th June 1865.

* Statement appended
 to No. 1524 dated 13th June 1865.

With reference to the orders of Government marginally indicated, I have the honor to forward the scales of establishments I would propose for the three Districts of this Division.

2. I agree with the Controller of Public Works Accounts that there should be in each Dist. 1 first Class Range, 1 second Class Range, and 2 third Class Ranges, and that in Salem there should be 3 Ranges, one of each class.

3. I strongly advocate the proposed changes in the establishments, as I consider that it would be hardly fair to give all Ranges the same establishments, while the work is much heavier in some than in others.

I have the honor to be,
 Sir,
 Your most Obedt Servt.

Supr. Engrs Office 6th Div
Tanjore 15th June 1865

From

Captain R. F. Oakes R.E.

As: Supr. Engineer, 6th Div

To

Colonel C. A. Dorr R.E.

Secretary to Government

P. W. Department

Sir

Encls: 1

1st June

I have the honor to forward the List called for in the Order of Government No 1476 shewing the redistribution of the Establishment which I would propose:

No 133

16th May

2 The necessity for a very large increase in the Office of the Trichinopoly Range has already been pointed out; an assistant Accountant and Writer are provided in addition to the Accountant and Draughtsman allotted to the Range in the Establishment recently sanctioned. In this Range a Draughtsman is required owing to the numerous calls for Estimates and Plans for Military Buildings; but not so in the other Ranges, and provision is made by reductions in the Establishments of Ranges

Ranges 2, 3 and 4 for the extra Establishment required in No 1 and a saving of Rs 1 per mensem is effected.

3 In the Tanjore District there is comparatively little difference in the importance of the Ranges and the Work to be executed in them.

Ranges 1, 2, 3 and 4 may be considered on a par. A Draughtsman is hardly required in these Ranges and I have proposed that an Estimate Maker and a Writer or Gumastah should be retained on his salary. A Gumastah is much required in these Ranges to check Progress Reports, Calculations in Estimates ~~yes~~ ~~yes~~ and to carry on Tamil correspondence, Copy Contracts ~~yes~~ ~~yes~~. Where so many minor works of Irrigation are in progress a Tamil Gumastah would be very useful. it would not be necessary for him to understand English further than the figures. Ranges 5 and 6 are of less importance perhaps than the others and no large new Works are likely to be carried out in them, a smaller Officer is therefore provided for them.

Para 3 of
Letter No 133

4 It will be observed that

4 different rates are allowed for the Accountants this I consider necessary because the work of some of the Accountants will be much heavier than that of others and with a graduated scale merit can be rewarded by promotion to a Range with a higher rate of Salary.

5 A fourth Lascar on Rs 6 per Mensem is provided in the new arrangements proposed, because it has been pointed out to me by Executive Agents in charge of Ranges that they are often obliged to forego a morning's work owing to their being unable to move camp and at the same time to spare a Lascar to assist in carrying out small survey sketches of River or channel Heads ~~yes~~ ~~yes~~ and because it is often necessary to send considerable distances to Taluk Post Offices for Letters.

6 While this Letter was being fair copied I received the order of Government No 1624 and I am of opinion that the classification of the Ranges in the 6th Division proposed by me is preferable to that proposed by Captain Fischer.

there

there are no third class Ranges in
Tanjore and no second in Trichinopoly.

I have the honor to be
Sir,
your most obedient servant.

N^o 52. Superintending Engineer's Office
1st Division
Coimbatore 1st July 1855 65

From Lieut Colonel G. M. Walker R.E.
To Superintending Engineer 1st Division
Colonel C. A. Orr R.E.
Secretary to Government D. P.

Sir I have the honor to report on the subject of Range Establishments, with reference to Government Order N^o 1476 of 1st June.

2 I have consulted every Range officer in my Division and I find the general opinion amongst them to be, that the scale of salaries sanctioned at present is unnecessarily high; but not the total amount allowed per Range, as the necessity of extra hands to meet the demands of the new system of accounts is universally urged.

3 I have after much consideration, classed my 13 Ranges as follows, (and as shown more in detail in the accompanying list) viz

2. 1st Class Ranges at Rs per — 171
1. Extra 1st Class D^o at — 256 1/2 being 50 per cent additional to ordinary 1st class.
7. 2^d Class Ranges — at Rs — 126.
1. Extra 2^d Class D^o — at Rs — 189 being 50 per cent additional to ordinary 2^d class.
2. 2^d Class Ranges with storekeepers at Rs — 156.

The arrangement requires no remark, save as to the provision of Range Storekeepers at Coimbatore, Cannanore, Calicut and Mangalore, which are Railway stations or Shipping Ports, convenient for reception and distribution of Tools and Stores - including as it does the reduction of Wajad allowances the aggregate increase caused by adoption

 Representation
 having been made of the
 necessity for redistributing
 the Range Office, Estab-
 -lishments recently re-
 -tained with reference to the

relative importance of
 the several charges, the
 Superintending Engineers were
 called upon, in the order
 to 1476 7/1 June/65
 marginally noted, to sub-
 mit statements of the Co-
 -tabliaments which they
 would recommend to be
 entertained in each of
 the Range, in their re-
 spective Divisions. The
 replies to this requisition
 are above recorded. Some
 of the Supg Engineers

have proposed the adoption
of four classes of Es-
tablishments, while others
have insisted on five, as
shown in the following
Statement as furnished

by the Hon. Secy. to Govt.

No.	First Class		Second Class		Third Class		Fourth Class		Remarks
	No. of Servants	Monthly Cost	No. of Servants	Monthly Cost	No. of Servants	Monthly Cost	No. of Servants	Monthly Cost	
1 st Do	4	161	3	136	2	89	2		
2 nd Do	4	174	3	121	2	69			
3 rd Do	4	183	3	163	2	108			
4 th Do	4	160	3	130	3	100	2	80	3 Presidency Ranges not included Bangalore - not included
5 th Do	4	185	3	125	3	105			
6 th Do	4	187	3	138	2	117	2	112	The Nalgaherry & North Wynand Ranges not included
7 th Do	4	171	3	156	3	126			
8 th Do	4	185	3	125	3	105			

Note The Saccars have been
excluded under the head
"number of Servants"

2nd The total cost of
the Establishments pro-
posed by the Superin-
tending Engineers amounts

to Rs. 12027 2 per men
per Annum. After careful con-
sideration of the subject
the Government are of op-
inion that it will be
sufficient for all pur-
poses if 3 classes of
Establishments be adopted,
and looking to the dis-
tributions of Establishments
and uniform rates of
pay for each descrip-
tion of Servants in the
same class of Range,
they consider that the
following classification
is preferable to the
proposed

27 Ranges @ Rs 171 = 4617
 20 do @ " 136 = 2720
 33 do @ " 96 = 3168
 Bangalore Range Establishment 252
 Nulgherry do 308
 Presidency 3 Ranges do 801
 50% increase for Nulgherry Range 103 1/2

12161 1/2

Amount sanctioned by the Govt. of India including 50% for Nulgherry Range Office 12201
 Saving for provision 139 1/2

In each class of Office, due provision has been made for an efficient staff of servants. In the case of the Assistant Accountants attached to the First Class Office, if necessary, they are employed exclusively on the duties of storekeeper or as required to perform those duties in addition to their own accounts.

This man should assist in the compilation of accounts.

	First Class Range	Second Class Range	Third Class Range
1 Accountant	60	50	40
1 Draftsman & Estimator	40	40	-
1 Asst. Accountant & Writer	30	-	20
1 Asst. Writer	20	25	15
3 Peons	21	21	21
	1710	136	96

operated which have been recommended by the Local Officer.

The proposed establishment is as follows, being the same as for those of the same rank sanctioned by the Government.

Nath Wynand Hoijed 1802

The Government believe that these Establishments will be found amply sufficient for the duties devolving upon them; and as the new system of accounts will shortly be brought into operation, His Excellency the Governor in Council directs that the arrangements now sanctioned be carried into effect without delay. The Station on which the Establishments for each Range may be entertained should be reported to the Controller of Public Works.

Accounts

Accounts. 17 93

10. No time should be lost in producing the Establishments of the Superintending Engineers to the scale sanctioned on the 28th April last. The Government will be prepared on the receipt from the Controller of the report called for in G. O. No. 2013, dated 15th July to authorize the establishment of small temporary Establishments in the Offices of the Superintending Engineers for the preparation of the Bills remaining to be rendered in adjustment of all outstanding balances up to the close of the past

I have the honor to
 acknowledge the receipt of
 your letter of the 11th inst.
 in relation to the above
 mentioned matter. I have
 the honor to inform you
 that the same has been
 forwarded to the proper
 authorities for their
 consideration. I am, Sir,
 very respectfully,
 Yours,
