MILITARY DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

From the Superintendent Gun Powder Manufactory, Madras, 4th July 1865, No. 77;
to the Superintending Engineer, 4th Division, Madras.

I have the honor to inform you that the East tank at the Mills has sunk to a depth of only about 3 feet, instead of being kept, as proposed, at 6 feet by daily re-placing from the 7 wells the loss by evaporation.

The water is consequently getting muddy and foul, and the temperature of it has risen to 95°, seriously impairing the action of the Engines.

I have from time to time replenished it from the West tank, till that also is down to about the same depth, and unless water is laid on without further delay, a stoppage of work is to be apprehended, which will be attended with very serious inconvenience to the public service, the Bengal Mills not being at work, and requiring supplies from here, which I shall not be in a position to give, unless these Mills are kept uninterruptedly in full work.

No. 897.

Submitted to Government.

2. An extra Establishment to meet the actual requirements of the Gun Powder Factory has been ordered by the Superintending Engineer, to be entertained on emergency, a measure which he trusts, under the circumstances, will meet with approval. This will afford an opportunity of ascertaining precisely how many more men must be permanently entertained. When this is known, the Superintending Engineer will submit the application in regular form, with explanations of how it has come to pass that any more hands are asked for, when in a former communication it was stated that none would be necessary.

SUPT. ENGR'S OFFICE, 4TH DIVISION, } (Signed) A. BOILEAU, Colonel, R. E.,
CAMP GODIATTUM, 10th July 1865. } Superintending Engineer, 4th Division.

Transferred to the Military Department.
(Signed) C. A. ORR, Colonel, R. E.,
Secretary to Government.

13th July 1865.

ORDER, No. 2806, 28th July 1865.

Approved as a temporary measure.

2. The Controller of Military Accounts will report how the extra charge can be met.
