Proceedings of the Madras Government, Public Department,
9th August 1865.

No. 39. Read the following letter from Lieutenant Colonel C. V. WILKIESON, R. E., Honorary Secretary, People's Park Committee, to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Fort Saint George; dated Madras, 8th July 1865, No. 425.

I have the honor, by desire of the Committee of People's Park, to forward to Government the information required in Government Order, 29th May 1865, No. 572.

Statements, A, B, C, D, E, F, G, H, I, J, K

The points on which Government more particularly require information are as follows:—

1. A Statement of the expenditure incurred in the construction and maintenance of the Park up to this time.
2. Amount of receipts that have been carried to the credit of Government.
3. Statement showing the sums due for work done, and the estimated cost of any works still incomplete.
4. Statement of establishment required, showing how much of the cost can be met from proceeds of sale of grass.

Statement of expenditure.—This may be divided under two heads:—1st, when the monies for sale of land were handed over to the Municipal Commissioners, and works were carried out by them; 2ndly, when the money was paid into the Government Treasury, and work was carried out under special sanction in the Department Public Works.

1stly.—Statement A. shows an expenditure under the Municipal Commissioners of Rupees 38,707-10-1, while Rupees 37,182-12-4, was received on account of land sold, and Rupees 1524-13-9 was paid to the Municipal Commissioners, by the Secretary, for cotton, grass, and small things sold.

2ndly.—Government received Rupees 19,494-4-2 paid into the Treasury for sale of lands, and Rupees 6607-5-2 on account of Hay sold. Against this, Government sanctioned Rupees 82,016 out of Public Funds in the Department Public Works, and Rupees 2059-3-7 was received from sale of cotton, old wood, grass, &c., of which Rupees 83,113-11-5, was spent on ornamentation, leaving a balance of Rupees 961-8-2 in the Secretary's hands on the 1st May 1865—see Statement B.

Statement of receipts.—Statement C. shows total receipts from sale of land, &c., of Rupees 66,863-7-0, with a total expenditure of Rupees 1,23,582-13-8.

Statement of sums due for finished work and for completion of works.—A detailed Statement I, is given showing at the commencement of 1864-65 Rupees 2978, as due on account of works finished, but not paid for, the amount having been taken from funds sanctioned for salaries, sundries, &c., and Rupees 4086-12-0 being required for finishing off incomplete work, chiefly earth-works.

The amount of Establishment.—The establishment list as given is so moderate in its proportion, that it will be quite impossible to cut it down, though the Superintendent's pay of Rupees 120 a month, might very fairly be charged to the Department Public Works, of which he is a member.

Sale of Hay paying for establishment.—The taking of the proceeds of the sale of hay, &c., for the payment of establishment, is a more difficult question, as the establishment is a settled quantity, while the sale of hay is very variable. For instance

5

*Proceedings of the Madras Government, Public Department,
9th August 1865.*

this year, we ought, now, to be cutting our best and heaviest crop; but as we are solely dependent on the local rains, which have failed this year, we are without a first crop.

The average amount of sales of hay is about Rupees 1800 a year, which might be increased to Rupees 4000, by bringing the remainder of the Park under grass, at a cost of Rupees 2000.

But, then, the whole Rupees 4000 would not be available, as at least a third of it must be expended yearly on manure, weeding, cutting, and stacking of hay. This year, however, the amount due for the hay will not be available until February, so whatever we get then might be then taken to help the establishment next year. The total amount, therefore, that is actually required by the Park Committee is as follows:—

	RS.	A.	P.
Establishment.....	3,864	0	0
Still owing to Contractors.....	2,978	0	0
To finish work commenced.....	4,086	12	0
Total.....	10,928	12	0

In addition to this, if Rupees 2000 is given for ploughing and bringing the remainder of the Park under cultivation, it will well re-pay the expenditure.

An item of Rupees 673 was spent last year in lighting the Park, which, owing to many of the lamps not being now lighted, will be very much less this year, but the Committee think this might well be paid by the public, and have resolved to call on them to do so.

A copy of the Budget letter to the Superintending Engineer is forwarded, which clearly shows what are the further wants of the Park.

From Lieutenant Colonel J. CARPENDALE, R. E., Honorary Secretary, People's Park Committee, to Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division; dated 2nd December 1864, No. 416.

I have the honor, by desire of the Park Committee, to transmit, herewith, for submission to Government, estimate amounting to Rupees 22,010.

	RS.	A.	P.
1. An iron Suspension Bridge, 200-feet long, 6 feet wide, to cross Cochrane's Canal, connecting Black Town with the Park.....	7,370	0	0
2. An octagonal galvanized iron lion cage.....	1,200	0	0
3. An octagonal do. do. Aviary, 6 feet.....	400	0	0
4. Do. do. do. 5 feet.....	260	0	0
5. Ten Iron Lamp-posts, with Lamps complete.....	390	0	0
6. Eight hundred and eighty yards galvanized iron wire netting, to surround one lake for water fowl.....	1,320	0	0
7. Two lots of ornamental iron sheep hurdles for enclosing paddock for Deer, Antelope, &c., 750.....	1,140	0	0
8. An iron Hay-rick-stand complete (much needed), 360.....	270	0	0
9. Sythes and carts.....	200	0	0
10. Trees.....	1,610	0	0
11. Ploughs and manure for grass.....	1,050	0	0
12. Maintenance allowance, roads, bridges, and buildings.....	6,800	0	0
Superintendent's quarters, with out-houses and store-rooms combined.....	22,010	0	0

*Proceedings of the Madras Government, Public Department,
9th August 1865.*

RS. A. P.

Permanent Establishment has been sanctioned by G. O., dated 19th October 1864, No. 1183 6,537 0 0

With reference to Estimate No. 1, I am informed that the erection of a Suspension Bridge was approved of at the first formation of the Park, and an isometrical view of one appears in the original plan.

3. The Committee recommend its erection, in order to afford access to the Park from the densely populated parts of Black Town, the inhabitants of which are now almost precluded from its use, by the circuitous routes, via the Elephant and General Hospital gate bridges; and such of the poorer class of visitors as do attend are much inconvenienced by the number of carriages going through the principal gates on Band evenings, which renders it dangerous for foot passengers. The foot bridge now proposed will afford direct communication with Black Town and John Pereiras.

3. The quarters for the Superintendent, with out-houses and store-rooms combined, is the next item requiring remark. The Committee recommends its erection as the present dwelling house is of a very inferior character, the walls being built of sun-dried bricks. The roofing is composed of perishable materials, consisting of bamboo mats and straw; the walls are cracked in several places, and infested with white-ants. The present design is well suited for the Park, as it presents no objectionable scattered out-houses in its vicinity.

4. Items Nos. 2, 3, and 4 for galvanized iron Lion cage and Aviaries, are according to designs which have been procured from London, and the estimated cost of them, as well as of No. 1, the iron Suspension bridge, includes freight, packing, landing charges, and the cost of erection in the Park.

5. Items Nos. 5, 6, and 7, for additional Lamp posts, galvanized wire netting, ornamental iron hurdles, and a hay-rick stand, are for the purchase of articles now in Madras, and all of which are very desirable.

6. Items Nos. 8, 9, 10 and 11 do not require comment. Designs for the first four items and the last accompany;—the rates in the estimates are contract rates.

7. The Committee consider it desirable to submit the Budget thus early this year, as in the event of the Income Tax being abolished, Local Funds may not be available, and such sum as Government may be pleased to sanction would have to be provided from Imperial Funds.

(True Copy).

(Signed) C. V. WILKIESON, Lieut. Colonel, R. E.,
Honorary Secretary, People's Park Committee.

No. 41. ORDER THEREON, 9th August 1865, No. 833.

It appears from the Statements forwarded with the foregoing letter that the sum of Rupees 2978 is due for work done in the People's Park, and that a further sum of Rupees 4086-12-0 has been sanctioned for other necessary earth-works, which, however, have not been carried out; the money advanced for them having been applied to the payment of the Park Establishment, the cost of which is Rupees 3834 per annum. This establishment the Committee are of opinion, and the Governor in Council sees no reason to question the correctness of the opinion, cannot be reduced. This charge does not include lighting, the cost of which last year was Rupees 673; but the Committee hope to induce the public to defray this charge in future. The income from the proceeds of the sale of hay is stated to be about Rupees 1800 per annum, which the Committee think may be increased to Rupees 2800 per annum, by bringing the remainder of the Park under hay.

2. It thus appears that the sum of Rupees 2978+4086+2000=9064 is wanted for works of construction. This will be disbursed in the Public Works Depart-

*Proceedings of the Madras Government, Public Department,
9th August 1865.*

ment, as soon as funds may be available. For the establishment, the Government of India will be requested to sanction the disbursement of such sum, not exceeding Rupees 2000 per annum, for the current and the next official years, as may be requisite to supplement the proceeds of the sale of hay.

3. The other charges for works entered in the Budget for the current year must lie over for the present.

(True Extract).
