*Proceedings of the Madras Government, Public Works Department,
22nd August 1865.*

No. 528. Read the following letter from Captain A. S. MOBERLY, R. E.,
Superintending Engineer, 3rd Division, to Colonel C. A. ORR, R. E.,
Secretary to Government, Public Works Department, dated Bellary, 9th
August 1865, No. 107 :—

SIR,

1. With reference to paragraph 1 of G. O. No. 2,051, of the 18th ultimo, I
have the honor to request that you will inform me as to whether the Sappers are
to continue to draw their working pay in the Military Department, or whether they
are to receive it from this Department; also as to whether the extra remuneration
is prohibited. I directed that no working batta should be paid by this Department
from the 1st ultimo, pending the orders of Government.

2. As regards paragraph 2, Lieutenant Pennefather states that he made his
calculation on the total amount of working batta given to the Sappers, including
workmen and superintendence; and as this last item is rather heavy on account
of the number of European Non-Commissioned, and Native Commissioned and
Non-Commissioned Officers the amount is increased: he also had to take into con-
sideration the height of the Rifle Butts, and the distance and lift that the earth would
have to be carried.

3. On looking into the matter I find, however, that there will be no necessity
to revise the estimate, as the working batta for Artificers, &c., entered in column
3 of the Statement in my letter No. 58 of the 4th ultimo, will cover the average of
the three classes.

No. 529. ORDER THEREON, 22nd August 1865, No. 2,445.

ESTABLISHMENT, No. 66.

The Superintending Engineer of the
3rd Division will be informed that the
Sappers at Bellary should continue to
draw working pay in the Military Department, and that the G. O. quoted by that
Officer clearly prohibited the continuance of the payment of the extra remuneration
which had been irregularly disbursed by Captain Fischer.

2 As regards Para 2 Lieutenant Penningfather states that he made his calculation on the total amount of working Batta given to the Sappers including sub-station and Superintendence; and as this last item is rather heavy on account of the number of European Non-commissioned and Native commissioned and Non-commissioned Officers the amount is increased: he also had to take into consideration the height of the Rifle Butts and the distance and lift that the earth would have to be carried.

3 On looking into the matter I find however that there will be no necessity to revise the Estimate, as the working Batta for Artificers &c entered in column 3 of the Statement in my letter N^o 8 of the 4th Ultimo will cover the average of the 3 classes.
