quently I could only telegraph as much to Mr. Norfor, but there is no authority for this Office to incur any expenditure on this account, or for any Range Officer to incur the same without the sanction of his Superintending Engineer ; and I beg to be informed if the Government intend to grant this privilege to all Range Officers in the same manner as it is proposed to grant to them the liberty of franking letters direct to this Office. I make this reference as the charge for contingencies is likely to be much increased if telegraphic communications are to be addressed by so many Officers whenever they may think the same necessary.

No. 324. ORDER THEREON, 14th September 1865, No. 2,704.

ESTABLISHMENT, No. 41.

The Government consider that it will be rarely necessary for Range Officers to telegraph to the Controller on subjects relating to their bills and accounts, but that whenever such is found to be indispensable the cost of the messages must be met from the Budget allotment for each Range under contingencies, which should on no account be exceeded.
