MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—
Memorandum, from the Superintending Engineer, 4th Division, Madras, 28th August 1865, No. 1607; to the Secretary to Government, Public Works Department.

Enclosure.
1 Original letter.

Submitted to Government, with reference to Proceedings, No. 2299, dated 9th August 1865.

On the whole, it seems advisable to try the effect of deepening the present Well.

From the Executive Engineer Presidency, Northern Range, Fort Saint George, 18th August 1865, No. 192; to the Superintending Engineer, 4th Division.

With a view to give effect to your Order, No. 1398, dated 15th instant, I have the honor to report, that I have been in consultation with Doctor Hunter, who is well acquainted with the geology of Perambore.

2. From the known nature of the strata, observations made on Wells newly constructed and on Wells deepened, Doctor Hunter recommends that the present Well be deepened.

3. If we do not find sweet and good water in plenty at 6 or 8 feet below the present depth of the Well in question, we must sink another six feet or so when we shall probably find sweet water.

Referred to the Military Department, with reference to paragraph 2 of the Orders in that Department, No. 2873, dated 4th August 1865.

(Signed) C. A. ORR, Colonel. R. E.,
Secretary to Government. P. W. D.

30th August 1865.

ORDERED, No. 3383, 11th September 1865.

The deepening of the present Well in the Perambore Lines, as recommended, is approved.
