Read the following papers :—

No. 23. From Lieutenant-Colonel G. W. WALKER, R. E., Superintending Engineer, 7th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Camp, Trichoor, 14th September 1865, No. 127.

SIR,

1. I have the honor to submit the accompanying plan and abstract estimate \* of Rupees 6,600, for renewing the entire roof of the Court House at Mangalore, portion of which (colored

red on plan) has already fallen in, and the rest is reported in a state beyond repair. From my own knowledge of the building, I have no doubt of the necessity of the work, urgently called for by the Judges; and think it has been judiciously planned. I hope, moreover, to have the opportunity of a personal inspection of the building not later than January next, when I will again carefully scrutinize the details on the spot.

2. Meanwhile, I think it highly desirable that, if funds are available, Rupees 5,000 should be placed at our disposal to renew the roof before next monsoon; Rupees 1,600 being left for provision in May, when the final payments will be made.

Referred to the Judicial Department.

1. The Government approve of the estimate of Rupees 6,600, submitted with this letter, for renewing the roof

of the Court House at Mangalore. They would observe, however, that the Superintending Engineer should have stated whether the Court House is an old building, and if not, whether the necessity for the work now proposed arises from defective construction. He will now furnish this information.

2. The Government having no funds at their disposal, Colonel Walker will state whether he can provide the required amount by transfer from any available source.
