MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter :—

From the Officiating President Sanitary Commission, Secunderabad, 18th September 1865, No. ——; to the Secretary to Government, Military Department, Fort Saint George.

I have the honor to solicit that His Excellency the Governor in Council will be pleased to permit Major Shaw Stewart to join Dr. Arnold Smith and myself in our enquiries here.

After we had completed our inspection of the old Cantonment of Secunderabad, which has occupied us daily until the last week, we entered upon an enquiry into the new station of Trimulgherry, to which place the European Troops are being removed and where they will ultimately be cantoned.

The professional advice of a Sanitary Engineer is therefore very necessary now to aid us in our deliberations and to draw up a well digested scheme, as far as possible, to guard against the many evils which envelop most of our older Indian stations. I trust therefore that His Excellency will sanction the request made in this letter.

From the Secretary to Government, Military Department, Fort Saint George, 29th September 1865, No. 3623; to the Resident at Hyderabad.

Dr. Macpherson, Officiating President of the Sanitary Commission, Madras, having requested that Major Shaw Stewart, the Engineer Member of the Commission, might be allowed to join him at Secunderabad, to aid the Commission in their enquiries regarding the sanitary condition of the Cantonments of Secunderabad and Trimulgherry, I am directed to inform you that the Governor in Council has resolved to direct Colonel Anderson to afford the necessary assistance to Dr. Macpherson, in case his visit to the station on duty, of which the correspondence in the Public Works Department regarding that Officer has already apprized you, should be so timed as to admit of this arrangement. Otherwise, I am to request that, should no objection exist, you will be good enough to afford Dr. Macpherson the assistance of an Officer of the local Public Works Department to aid and advise him, so as to obviate if possible the necessity of deputing a second Engineer Officer to Secunderabad on duty.
