Secretary to Government P.W.
Fort-Saint George

Sir

With reference to G.O. of the
2nd August 1865 N^o 2213 I beg to explain
that by G.O. of the 1st May 1865 N^o 1173
para 1 Mr. Colquhoun was "re-ap-
pointed" to the P.W. and therefore
by para 51 Section 3 of the Uncon-
-nanted Civil Service Rules he was
not entitled to salary till he joined
his appointment.

2. It would appear from
para 4. of Mr. Colquhoun's letter to
Captain Moberly printed in the
G.O. under reply that he reported
having arrived in the District on
the

21st 1865. I am

the 8th May last and was told by the
Superintending Engineer on the 13th of the
same month he had not received any
orders or "any notice" regarding him; and
in fact Captain Moberly in his usual
returns to this Office reported that
Mr Colquhoun had only joined on the
1st June last and as Government had
in para 2 of their orders of the 1st May
last N^o 173 refused to accede to a re-
quest made by Mr Colquhoun in
para 5 of his letter printed therewith
for a refund of back pay, this Office
had no alternative but to decline
paying his salary until such time as
the Superintending Engineer reported
the date of his having joined.

Copy of a Resolution passed at a
General Meeting of the Planters of
South East Wymond, held at
Goodaloor, on 31st July 1865 -

1. That the Planters of South East Wymond
have learned, with much anxiety, and concern,
the likelihood of Mr J. O'Dhaughnessy's quitting the
present scene of his labors, where so much has
been accomplished, that is due in the chief degree
to his own energy, and to the devotion of his almost
unaided personal exertions -

2. They deplore that the Planters of South East
Wymond have in the works that are now in pro-
-gress under Mr O'Dhaughnessy's directions, rendered
it alike an interest and a duty, to take every
every step in their power to arrest a measure
which, by the removal of an Officer of acknowledged
intelligence and energy, by the consequent dis-
-turbance of all present labor arrangements,
and by the delay which must follow the intro-
-duction of a new Executive Engineer, until
he has acquired a knowledge of the District -
cannot fail to aggravate, in a heavy degree,

the grievous disappointments, losses and incon-
-venience, which the Planters of South East Wymond
have already suffered, under the absence of these
roads of communication, which it was Mr
O'Dhaughnessy's special work to complete -

3. That they cannot at the same time refrain
from expressing their opinion, upon what has
fallen under their own personal observation,
They have seen the immense extent of work
imposed on Mr O'Dhaughnessy, the totally
inadequate

inadequate establishment at his disposal for carrying out that work; the dispersion of gangs of laborers, through the requisite funds for paying them being withheld at critical junctures, gangs too which had been collected, only with the greatest exertion and difficulty; they have seen the Engineer's personal labor frittered away in looking after a wide extent of work, instead of being devoted to the effectual completion of some special portion at a time; and yet they have found that the personal energy of Mr Oshaughnessy and of his predecessor of the works, the late Mr Campbell, has in despite of all accomplished substantially useful results.

- And they would beg a comparison between the work accomplished by the Engineers in South East Wynnad and that performed in the Northern & Southern divisions of Wynnad, the amount of money respectively expended being borne in mind, of course excluding the works on the Tamburacherry ghât which has been done principally by the skilled Sapper Corps.
4. That the Planters of South East Wynnad venture with reference to the extent of work imposed on the Engineer of South East Wynnad, to suggest that he be relieved of the labor of tracing, surveying, estimating for, and constructing the great extent of road, running from the Mysore frontier, through Suddans Battery to Sulputta, for the formation of which a considerable sum has been sanctioned in this year's Budget - That the personal labor entailed on the Engineer in the performance of this work, would necessarily interfere with the progress of the other works in course of construction on the line of road through Goodaloor from the

from the Mysore frontier to the foot of the Ancon pass. But with reference to the transfer of the Superintendence of the Reddiwuttur ghât works from Mr Oshaughnessy to Major Farewell, lately effected by the Superintending Engineer, they would remark that this deprives the Engineer of South East Wynnad of the benefit of the Sanitarium at Reddiwuttur, without which it will be hardly possible for him to retain his health, in the feverish districts in which his works lie, and it will also deprive him of the advantage that work presents of retaining his laborers during the most sickly months; by removing them to a locality out of fever range -

5. That the Planters of South East Wynnad can hardly hope to see an early close to their existing difficulties and impediments, even with the exertions of men of Mr Oshaughnessy's stamp unless a considerable latitude be allowed by the Government, to its local executive Officer as to his mode of carrying out the works entrusted to his management - and this is the more imperatively required in the range of South East Wynnad, when it is considered that the Officer having this charge has at present an extent of 122 miles of communication to look after, and this almost without subordinate assistance, while the other Executive Engineers of Wynnad have their respective charges limited to eighteen and sixty miles respectively -
6. That the Planters of South East Wynnad would respectfully refer to the Minute of Sir Charles Wood on the subject of the Wynnad communications in which the disadvantages resulting from a change in the Executive Officers, are particularly remarked upon -

That the above considerations be brought
respectfully under the notice of the Government,
with the expression of an earnest hope, that
it may be pleased to continue Mr O'Hanphy's
services in the district; and to sanction and
enforce such measures as may conduce to the
substantial completion within the present year
of the entire road of communication between
Goodaloo and Aracode on the Boypon river on the
one side, and between Goodaloo and Deppeoradoo
on the other.

Mr. Assistant Engineer Fox
was employed under me in the Kistna
District for nearly two years principally
in surveying and levelling, in which I found
him very correct and the Muzo Capital,
he was nearly 12 months in charge of a
Talook, but in which, unfortunately for
him there was no large amount of Maramat
work, but with what he did do, I had every
reason to be pleased, With practice I think
he would make a good Range Executive,

unexceptionable

Sir,

In obedience to the verbal instructions given me by the Superintending Engineer, I beg to submit accompanying a statement showing the period of my services in the Department, and in doing so also beg most respectfully to observe, with reference to the Supply Engineer's Letter to you No. 852 of the 4th July 1865, that although there are nine persons in the Department in the 1st Division who have a greater period of Service than myself, still there are only two who may be said to have claims for promotion before me, & these are, Overseers, J. Wakefield of the Madras Dist., and A. Moonesawmy, Mofid of the Schikhar Taluk of the North Arcot Dist., as these only I believe were made Overseers within a short time before me, or at the same time with me.

As for the other seven, I have been informed from various sources, that they were originally appointed to the Dept. as Apprentices, & have been promoted to Overseers several years after my being appointed, & thus the case is a hard one and exact

is entitled to that rank, and while they
have been improving by promotion, to the
extent of, perhaps, 3000 to 4000, or more, since
their first appointments, I have on the
contrary, as will be observed from the
Statement submitted, lost No 20 by the
Reorganization, compared to what I received
6 years ago, & No 3 to what I received 10
yrs ago

Taking Overseers & Daniel Pillay, of
the Presidency; - C. Annamilly Mudali, & C. Sree-
nivasulu Aiyar of the Madras Dist; - Mr. P.
Murray, C. Arumachellum Mudali, & C. S. Aiyar
Mudali of the North Arcot Dist, who, though they
have all served longer than me in the Dept., were,
I am credibly informed, only Sub Overseers so
late as 1862, when I was 6 yrs. as a Sub Overseer,
and may therefore be considered as actually
being promoted by being made Taking Overseers in
July 1863; - and it will certainly bear very
hard upon me, to be made to wait till
they should be promoted above me, who
were Sub Overseers & Aiyars when I
was an Asst. Overseer

I might moreover mention that several
who entered the Department after me, have
been long ago promoted above me, and
they are as follows, -

Name	District	Date when entered the serv
C. Samaya Setti	Krishna	1858
Mr. G. Lewis	Cuddalore	10 th Novr 56.
Mr. S. Claridge	Bellary	18 th Sept 56.

Mr. R. Donaghue	Tanjore	5 th July 61.
Sergt. K. F. Wardman	Malabar	29 th June 62.

In conclusion I beg, Sir, most respect-
fully to request, if you will, in submitting the
accompanying statement, to the Supd

of explanation from me, with a letter of
recommendation of your own. - I also

Sir: In your memo no. 852 dated 4th Instant, you state that there are 8 Overseers in the Division seniors in the Department to Mr. Fox.

to Mr. Fox.
2 I have now the honor to forward a letter from Mr. Fox in which he explains that altho there are 9 Overseers in the Division who have been more years in the Department than he has, yet that as many of these count as service the time passed as Maistris and apprentices there are only 2 who have served as long as he has in the Upper Subordinate grades. These two are Mr Wakefield and Mr. Wakefield and Mr. Wakefield.

3. Mr. Fox further explains that through the Departmental Changes ~~he~~ ^{his} draw less pay than when he entered the Department in 1855 and 25 Rupees a month less than he was drawing in 1857.

Sir,
With reference to your official Memorandum No. 146, dated 4th August 1865, I beg to explain that, the difference therein pointed out, has resulted from an oversight in this office. Refuses 53,688.6, should have been entered in column 8 of the Statement, instead of Refuses 544,350. 2. 3.

The necessary corrections have been made in this office. I request that like corrections may be made in the Statement submitted to you.

I have the honor to be,

Sir,
Your most Obedt Servt.
