*Proceedings of the Madras Government, Public Works Department.*  
19th October 1865.

No. 421. Read the following letter from the Controlier of Public Works Accounts, to the Secretary to Government, Department Public Works, dated Madras, 9th October 1865, No. 1,558 :—

With reference to G. O. of the 5th October 1865, No. 2,937, I have the honor to point out that according to the scale authorized in G. O. of the 26th September 1865, No. 2,845, of the number of Superintending Engineers in a class, only one-half can belong to the 1st grade, and the other half to the 2nd grade; this I suppose is to be the organization for this Presidency, in which all are at present to be considered as belonging to the 1st class of Superintending Engineers. I beg also you will be good enough to inform me the rates of salary to be passed to these Officers, the distinction above pointed out does not affect the Staff pay of any of these Officers; but, as I before observed in my letter of the 27th September 1865, No. 1,390, the maximum salary to be passed to them is affected by their grades in the class.

No. 422. ORDER THEREON, 19th October 1865, No. 3,104.

ESTABLISHMENT, No. 36.

1. The Order of the 5th instant, No. 2,937, distinctly rules that the present Superintending Engineers shall be considered as belonging to the 1st class, 1st grade; and as no change has been made in the Staff salary of that class and grade, they will continue to draw the same salaries and allowances as heretofore.

2. As vacancies occur, the Superintending Engineers will be divided amongst the several classes and grades, and those Officers will then draw in the *Public Works Department* the Staff salaries fixed for the grades to which they may be appointed, and, in addition, the Military allowances chargeable to that Department, provided the total amount passed to them in the Department of Public Works does not exceed the "maximum" sums fixed in paragraph 5 of the Orders of the Government of India, communicated in G. O. No. 2,845, dated 26th September 1865.
