MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

G.O. No. 3277	Press Mis.—
774-775	
Dated 31-10-	1865.

Not to be folded or roughly handled

12

*Proceedings of the Madras Government, Public Works Department,
31st October 1865.*

No. 774. Read the following letter from the Officiating Superintending Engineer, 1st Division, to the Secretary to Government, Department Public Works, dated Waltair, 12th October 1865, No. 1,260 :—

Enclosures 3.

1. I have the honor to forward herewith the revised plan and estimate called for in G. O. No. 706 of 14th March 1865.

2. The estimate has been framed strictly in accordance with the instructions contained in the Circular Memorandum on Lightning Conductors.

3. Government having decided that this Conductor should consist of only one rod, it has become necessary to make it of the best material, copper in tube, which causes the amount of the estimate to exceed greatly that of the one previously submitted, but this appears to me unavoidable.

No. 775. ORDER THEREON, 31st October 1865, No. 3,277.

CIVIL WORKS, No. 107.

1. The revised estimate of Rupees 1,060, submitted with the foregoing letter, for fixing a Lightning Conductor to the Light-house at Co-canada in the Godavery District is sanctioned.

2. As there are no funds at the disposal of Government, it will rest with the Superintending Engineer to provide the amount required for the work from transfers from existing allotments for the 1st Division, or failing this to submit an application for a grant after the 1st May next.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,

Secretary to Government.

To the Superintending Engineer, 1st Division, with Report.

- „ Marine Department.
- „ Controller of Public Works Accounts.
- „ Accountant General.

Madras.

Sir,

Encl^o 3.

I have the honor to forward
herewith the revised plan & estimate
called for in G.O. N^o 706 of 14th March
1865.

2. The estimate has been framed
strictly in accordance with the in-
structions contained in the Circu-
lar Memorandum on Lightning
Conductors.

3. Government having decided
that this Conductor should consist
of only one rod, it has become ne-
cessary to make it of the best
material
