*Proceedings of the Madras Government, Public Works Department,
11th November 1865.*

No. 201. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 3rd November 1865, No. 2,565:—

1 Abstract Estimate.
1 Ayacut Statement.

1. I have the honor to forward for the sanction of Government an estimate, amounting to Rupees 850, for repairing the bund of the Cadapentangle large tank

in the Arcot Taluq, Vellore Range, North Arcot District.

2. The average revenue derived from the tank, according to the enclosed "Ayacut statement," is Rupees 146 per annum, and if the work proposed is carried out, an increase of Rupees 44 is expected. The proposal is, therefore, not very remunerative; but the tank is under the immediate influence of the Anicut Main Southern Channel, and the repairs are considered absolutely necessary for the safety of the bund, which is in a very dilapidated condition.

3. The Collector of North Arcot has countersigned the estimate in token of approval, and under the circumstances, I beg to recommend it for sanction from the sum of Rupees 61,000 allowed for Agricultural repairs in the North Arcot District.

No. 202. ORDER THEREON, 11th November 1865, No. 3,379.

CIVIL WORKS, No. 32.

On the recommendation of the Superintending Engineer of the 4th Division, the Governor in Council sanctions, for immediate execution, the estimate amounting to Rupees 850 for repairing the bund of the Cadapentangle large tank in the North Arcot District.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To

Colonel. C. A. Orr. R.E.
Secretary to Govt. M.D.

Sir

I have the honor to forward
for the sanction of Government, an estimate
made, amounting to Rupees 850 for re-
-pairing the bund of the pudalapaugh
large San B in the Arcot. Taluk, Bellary
Range, North Arcot District.

The average revenue derived
from the San B according to the enclosed
"Account Statement" is Rs 146 per annum,
and if the work proposed is carried out,
an increase of Rs 44 is expected. The
proposal is therefore not very remunera-
-tive, but the San B is under the im-
-mediate influence of the Amikah,
Main Southern Channel, and the re-
-pairs are considered absolutely neces-
-sary for the safety of the bund, which
is in a very dilapidated condition.

The
