*Proceedings of the Madras Government, Educational Department,
6th November 1865.*

No. 3. Read the following letter from the Director of Public Instruction, to the Chief Secretary to Government, Fort Saint George; dated Madras, 31st October 1865, No. 2293.

I have the honor to submit a letter from the Inspector of Schools, 1st Division, No. 271, of the 25th instant, and to request that Government will be pleased to sanction the expenditure of Rupees 3360, inclusive of local subscriptions, for the erection of a school-house for the Anglo-Vernacular School at Ellore.

2. In Order of Government, No. 10, of the 15th January 1862, sanction was given to a grant of Rupees 700 towards the erection of a school-house at Ellore, the local subscriptions then amounting to Rupees 357-8-0.

3. Owing, however, to the impossibility of building a suitable structure for the money available, a commencement has not yet been made. Now, however, that upwards of Rupees 1000 has been subscribed by the inhabitants of the place, it seems only fitting that the work should be put in hand; and, as the provision in this year's Budget amounts to Rupees 4050, a sum considerably in excess of Lieutenant Smalley's estimate, I trust Government will be pleased to give the sanction now requested.

4. I may remark that I agree with Mr. Bowers in thinking that a compound wall is not requisite.

From the Inspector of Schools, 1st Division, to the Director of Public Instruction; dated Masulipatam, 25th October 1865, No. 271.

I have the honor to forward a plan and estimate for the proposed Government school at Ellore, prepared according to our standard plan for a school capable of accommodating 100 boys. I think a school of that size will be large enough for Ellore, where there is, and is likely to be for some time to come, a good Mission school. At the same time I must express the opinion that there is room enough for two schools, and that the existence of one need not at all interfere with the prosperity of the other. Fair competition is rather an advantage than otherwise.

2. The sum subscribed and lodged in the Treasury is a few Rupees over one thousand. Sanction has already been obtained for a grant of Rupees 700, but that sum being quite insufficient for such a building as is needed at Ellore, an additional subscription was raised by Major Macdonald, bringing up the public contribution to Rupees 1000. Under these circumstances, I hope that a grant of at least Rupees 2500 will be sanctioned, which will bring the cost of the erection somewhat within the sum entered in the Budget Estimate.

3. Lieutenant Smalley estimates the cost of a compound wall round the building at Rupees 700, additional. This would render the place more complete, but as there is no absolute necessity for a wall at present, I think that expense need not be incurred.

4. The site was visited by the Executive Engineer in company with myself. It is an open plot of ground outside the old Fort walls. The Mission school is located inside the Fort. The situation appears in every respect a good one, and in fact is the only suitable site available. On that account it was made over by the Collector, Mr. Purvis, now some five years ago, for a Government school.

5. In order to have the work completed before the next monsoon, it ought to be commenced at the latest by the 1st December. Lieutenant Smalley is prepared to push on with it if early sanction be accorded to the project.

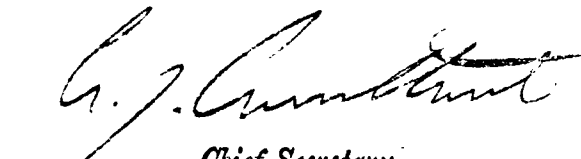

No. 4. ORDER THEREON, 6th November 1865, No. 307.

The Governor in Council sanctions, as requested, an expenditure of Rupees (3360) three thousand three hundred and sixty (of which Rupees 1000 have, it is
