I regret that an error crept
into the belated statement of reductions
recommended in Existing Budget
grants in this Division, which
accompanied my letter No 27 of 30th
May 1865 which I shall feel much
obliged by your having corrected in
your Office.

The Saving of Rs 3000 to be
transferred to other works under
the heads of "Repairs", "Civil Buildings"
"Annual Repairs to Salt Buildings"
should have been under "New Works"
"Civil Buildings" "Improving Salt-
flat forms at Duntumilly".

I have the honor to be
Yours most ^{truly} Obedt Servt.

Sir,

I regret to have to report the death at Pondicherry, on the 7th of July, of Serjeant J. - Gance of the Sappers and Miners; late an Overseer in the South Arcot District.

2 The delay in making this report to Government is owing to my having to ask the Collector of S. Arcot, to state the date of the late Overseer's death: the Range Officer not being able to afford this information - The date is taken from the Moniteur Office of Pondicherry -

Received by the Hon. Secy. to Govt. of Madras

The Superintending Engineer from time to time ^{has} had many complaints laid by the Range Officers against Mr. Murray Taloo B Overseer Polur Range, and from the reports he has received he has always been under the impression that Mr Murray was worthless as an Overseer.

Mr. Sub Engineer Bevan has now brought a distinct charge of fraud - = dubut measurement and falsehood, both of which are satisfactorily proved, and the Superintending Engineer determines to remove Mr. Murray from the post of Taloo B Overseer from the date of receipt of this order.

From Lieut. Col. R. A. Hood M.E.
 Superintg. Engineer 5th 11th
 To Colonel C. A. Barr M.E.
 Secretary to Government A.P.W.

Sir,
 On the 20th July 1865, Captain Tulloch brought to my notice that certain repairs were required to the Rest House at Bommanakura in the Bangalore Division, and anticipating that bad consequences might follow from any neglect to attend to the work, he requested the Chief Engineer of Mysore to have the work executed on emergency.

2. I approved of what Captain Tulloch had done, but requested that, as the question of having work at outlying station done by the Mysore A.P. Works, was now pending, a copy of the estimate for the repairs might be obtained and forwarded to me for transmission to Government.

3. The above was communicated by the Executive Engineer Bangalore to the Chief Engineer of Mysore, who now states that if an estimate is required application should be made to the Government to the Commissioner of Mysore. The necessary application, I now beg to make.

I have the honor to be,
 Your most Obedt. Servt.
