*Proceedings of the Madras Government, Public Works Department,
14th November 1865.*

No. 260. Read the following letter from the Acting Superintending Engineer, 6th Division, to the Secretary to Government, Department Public Works, dated Tanjore, 4th November 1865, No. 1,300 :—

Rupees 1,700.

1. I have the honor to enclose a plan and estimate of a dam it is proposed to construct across the Paumaniaur

for the better supply of the Pervalandan lands.

2. The Merasidars of Pervalandan have, for many years, been in the habit of raising temporary embankments across the river for the supply of some high lands in their village, and owing to this, the head of the channel has widened and deepened until the head has become the river course; it is marked eastern branch, while the proper river course, marked western branch, has become much silted, and the Parasapurem channel has been deprived of its supply in consequence, and this has led to constant disputes between the Merasidars of Pervalandan and Parasapurem, and to settle these, and to prevent further deterioration of the river, the enclosed estimate has been prepared at the Collector's request.

3. According to the Pymash accounts the Pervalandan Merasidars have a right to place a bank across the river for the supply of their lands when the river is low.

No. 261. ORDER THEREON, 14th November 1865, No. 3,409.

CIVIL WORKS, No. 39.

As there are no funds at the disposal of Government, the Superintending Engineer of the 6th Division

will be requested to re-submit the estimate for the proposed dam across the Paumaniaur after the 1st May next, when a grant will, if possible, be made from the Reserve Fund.

I have the honor to inclose a Plan
and Estimate of a Dam, it is proposed to
construct across the Paumotuian for the
better supply of the Perre and all lands.

2 The Meravidars of Perualandaw have, for many years been in the habit of raising temporary embankments across the River for the supply of some high lands in their Village, and owing to this, the Head of the Channel has widened & deepened until the Head has become the River course, it is marked eastern branch, while the proper River course, marked western branch, has become much silted, and the Parasappa River channel has been deprived of its supply in consequence, & this has led to

constant disputes between the Merasid and
of Perunalandaw & Parasapurew, & to
settle these, & to prevent further deterioration
of the River the enclosed Estimate has been
prepared at the Collector's request.

3 According to the Gymash Accounts
the Perunalandaw Merasidans have a
right to place a bank across the
River for the supply of their lands when
the River is low.

I have the honor to be
