MADRAS RECORD OFFICE.**Government of Madras.***Public Works* **DEPARTMENT.**

G.O. No. 3473	Press Mis.
396-397	
Dated 18-11-	1865.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
18th November 1865.*

No. 396. Read the following letter from the Superintending Engineer, 8th Division, to the Secretary to Government, Department Public Works, dated Madura, 3rd November 1865, No. 1,546 :—

1. I have the honor to enclose an estimate for a platform boat to be placed at the ford across the Tambrapoorney, in the line of the new road from Palamcottah to Tuticorin, and trust that the Government will be able to grant the necessary amount for its construction from this year's Reserve.

Enclosure one.

2. The road has been completed for six miles on one side, and thirteen on the other, leaving twelve miles still to be finished. Until quite lately the traffic between these two large towns persisted in following the old line wholly unmade. The cart drivers have, however, within the last two months seen the advantage of having two-thirds of the distance metalled, and are using it constantly, the post runners also have been moved to this line, and the necessity for a boat at this point is very great, particularly as the river is 350 yards broad, and is very liable to sudden rise.

No. 397. ORDER THEREON, 18th November 1865, No. 3,473.

CIVIL WORKS, No. 57.

The Government have no money at their disposal to meet the cost of the boat which it is proposed to place at the ford across the Tambrapoorney, on the line of the new road from Palamcottah to Tuticorin ; but they will be prepared to consider any proposal which the Superintending Engineer may make for diverting money from other sources for the purpose.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 8th Division.

Supt. Colonel F. J. Moberly, R.E.
Superintending Engineer 8th Dec^r

To

Colonel C. A. Orr R.E.,
Secretary to Government D. P. W.

Sir

Incl. 1

I have the honor to enclose an estimate
for a platform boat to be placed at the ford
across the Tambrapoorney in the line of the
new road from Palamcottah to Tuticorin. - and
trust that the Government will be able to grant
the necessary amount for its construction from
this year's reserve.

2. The road has been completed
for 6 miles on one side & 13 on the other leaving
12 miles still to be finished. until quite lately
the traffic between these 2 large towns persisted
in following the old line wholly unmade. The
cart drivers have however within the last 2 months
seen the advantage of having $\frac{2}{3}$ of the distance
metalled & are using it constantly. the post
runners also have been moved to this line and
the necessity for a boat at this point is very great
particularly as the river is 350 yards broad & is
very liable to sudden rise. -
