No. 469. Read the following letter from the Superintending Engineer, 2nd Division, to the Secretary to Government, Department Public Works, dated Masulipatam, 9th November 1865, No. 104 :—

6 Estimates.
2 Traffic Returns.

1. With reference to G. O. No. 2,705, dated 14th September 1865, I have the honor to submit for sanction detailed estimates for the cost of annual maintenance of the following Imperial roads in the 2nd Division :—

Kistna District.

	Rs.
Hyderabad road between Bazoarah and Nizam's frontier, 72½ miles	10,875
Trunk Road No. 6, between Seetanagram and Guntoor, 10½ miles	1,575
Trunk Road No. 7, between Kopperapaud and Pondigul, 42 miles	4,200

Nellore District.

Trunk Road No. 7, from Moodegonda river to Copperapaud	2,840
Road from Ongole to Cumbum, 59 miles	4,220
Do. from Ongole to Cottapatam, 12 miles	1,200

2. Traffic returns for the first two roads in the Kistna District are herewith forwarded. On the other lines no returns were kept for some years past, as no special establishment was allowed for this purpose.

3. I would beg to point out that the estimates now forwarded can only be looked upon as a mere formality, for, after the monsoons the requirements will be of a different nature, and works will have to be carried out according to the necessities then apparent, which will, in many respects, disagree with the items inserted in these estimates.

4. The estimates for the other roads, on which maintenance grants are allowed, will be submitted shortly.

No. 470. Order thereon, 20th November 1865, No. 3,506.

CIVIL WORKS, No. 71.

1. The Superintending Engineer of the 2nd Division has altogether mistaken the Orders contained in the Proceedings of Government No. 2,705, dated 14th September 1865. That Order requires the submission of a detailed estimate, specification, &c., with all *future* applications for annual grants for the maintenance of roads, and has no reference to maintenance allowances which have been already sanctioned. The estimates received with Colonel Winscom's letter will accordingly be returned.

2. It will of course be the duty of the Superintending Engineers to call upon their Executive Officers for annual statements of the work proposed to be done from the funds allotted for the maintenance of each road lying within their charges. This practice, it is believed, is now generally adopted.
