From the Superintending Engineer, 3rd Division, Bellary, 3rd August 1865, No. 98;
 to the Secretary to Government, Public Works Department.

I have the honor to request the instructions of Government, as to whether I am to make any extra provision for the number of married quarters allowed to a Battery of Field Artillery, as in the married quarters now being built at this station for the Artillery, there is only accommodation for sixteen married privates.

2. No application has been made from the division; but I am led to ask this question on account of the table of accommodation attached to G. O., No. 1394 of 22nd May 1865, which lays down that the number of quarters to be provided shall be eighteen.

3. In paragraph 7 of Circular, No. 22 of 17th March 1865, it is stated that “two additional quarters, Class C, will be allowed in the married men’s range, to meet the requirements of a senior collar-maker and wheeler of a Brigade who rank as Serjeants.” I would beg to know if the word should not have been Battery, instead of Brigade, as I am given to understand that the senior collar-maker and wheeler of each Battery rank as Serjeants. In case I am correct in my supposition, I would beg to know if the number of quarters to be provided should not be twenty instead of eighteen.

Referred to the Military Department.

Secy. to Govt., P. W. D.

From the Quarter Master General, Head Quarters, Ootacamund, 7th October 1865, No. ⁶⁴⁴/₉₇₂₈; to the Secretary to Government, Military Department, Fort Saint George.

In reply to the Order of Government, No. 3428, dated 14th ultimo, I have the honor, by order of His Excellency the Commander-in-Chief, to state that the question asked, relative to the wash-houses for the Battery of Artillery at Bellary, was answered affirmatively in my letter in Proceedings, No. 1663, dated 4th May last.

2. Since then, however, the Garrison Battery has been ordered to proceed to England, and will not be re-placed for many months. In that interval other changes may take place, and the Commander-in-Chief, therefore, thinks that the matter had better lie over for the present.

3. Should the Field Battery from Kamptee be sent to Bellary, as already recommended by the Commander-in-Chief, the wash-houses will be required.

Proceedings of the Madras Government, Public Works Department.

Sanctioning the revised estimate of Rupees 7,150, for the erection of two wash-houses for the use of the Horse Artillery at Bellary. } Here enter 12th October 1865, No. 3020.

From the Assistant Engineer, Bellary, 24th October 1865, [No. 718
1865.65]; to the Secretary to Government, Public Works Department, Madras.

In reply to your telegram of yesterday's date, I have the honor to inform you that the expenditure on the wash-houses for the D Battery D Brigade Royal Horse Artillery has been Rupees 136-8-7.

2. The work has not been yet put in hand, so that the above sum can be recovered, with the exception of a slight item for carriage, as otherwise any other work on which the materials may be used would have to bear the cost of double carriage.

Referred to the Military Department.
