*Proceedings of the Madras Government, Public Works Department,
5th December 1865.*

No. 111. Read the following Endorsement of the Consulting Engineer for Railways, dated Madras, 29th November 1865, No. 585:—

Read the following letter from the Agent and Manager, Madras Railway Company, to the Consulting Engineer for Railways, dated Madras, 28th November 1865, No. 839.

1. I have the honor to acknowledge the receipt of your letter of the 27th instant, No. 830, forwarding a printed copy of the Proceedings of Government of the 23rd instant, No. 3,543, and with regard to the remarks contained in paragraphs 2, 3, and 4, to state, that instructions have been issued to the Traffic Manager, which will, I trust, secure an ample supply of good water being provided at all our stations, but more particularly at the Arcunum Junction.

2. As all Medical men, who have been consulted about Railway latrines, have advocated their being open, so as to admit as much air and sun as possible, I do not propose to cover in the Native latrine at Arcunum, as recommended, but to erect at the end of the bridge, a board which will act as a screen, and thus secure the required privacy.

3. Adverting to paragraph 4, I would suggest a meeting between yourself, Mr. Robinson, and myself, when the question of placing the whole of the Police duties on our Lines of Railway in the hands and under the control of the Inspector General of Police, could be discussed, and I doubt not disposed of.

4. I would recommend, that the meeting take place at this Terminus, where access can be obtained to books and papers relating to the Police Staff now employed.

1. Forwarded for the information of Government, in reference to Order of the 23rd instant, No. 3,543.

2. An extract from the Agent and Manager's letter has been communicated to the Inspector General of Police, and he has been requested to state when it will be convenient to him to attend the meeting suggested in paragraphs 3 and 4. The result of the meeting will be duly reported to Government.

SIR,

I have the honor to acknowledge the receipt of your letter of the 27th instant 1865, forwarding a printed copy of the Proceedings of Government of the 23rd instant, N^o 3543, and with regard to the Remarks contained in paras 2, 3, and 4, to state, that instructions have been issued to the Traffic Manager, which will I trust, secure an ample supply of food water being provided at all our Stations, but more particularly at the Arcosum Junction.

2. As all Medical men, who have been consulted about Railway Lattices, have advocated their being open, so as to admit as much air and sun as possible, I do not propose to cover the Station Lattice at Arcosum, as recommended, but to erect at the end of the bridge, a board which will act as a screen, and thus secure the required privacy.

3. Alluding to para 4, I should suggest

Suggest a meeting between yourself, Mr. Robinson,
and myself, when the question of placing
the whole of the Police duties on one line of
Railway, in the hands, and under the control
of the Inspector General of Police, could be
discussed, and I doubt not disposed of.

It. I should recommend that the
meeting take place at this Seminary, where
access can be obtained to books and papers
relating to the Police Staff now employed.

I have the honor to be,
