MADRAS RECORD OFFICE.**Government of Madras.***Public works* **DEPARTMENT.**

G.O. No.	3777	Press
		~~Mis.~~
294-295		
Dated	16 - 12 -	1865.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
16th December 1865.*

No. 294. Read the following letter from the Officiating Superintending Engineer, 1st Division, to the Secretary to Government, Department Public Works, dated Waltair, 4th November 1865, No. 1,593:—

1. With reference to G. O. No. 3,109 of 19th October 1865, I have the honor to explain that the iron indented for has not been calculated with reference to the requirements of particular works, but to the probable consumption in one year by the Workshop, which is prepared to pay at once from its own funds for all iron received from the Public Works Stores.

2. Orders for work of different kinds are received in the Workshop daily, both from Range Officers and private individuals; and it is found impossible to point out beforehand particular works to which the cost of the annual Indent can fairly be charged.

3. Hitherto the Workshop Superintendent has supplied himself from Calcutta, but this has been found both very expensive, as compared with the probable cost of the same obtained by indenting on merchants at home, and the kinds required cannot always be obtained.

4. Government have also directed that the Workshop must be self-supporting, and it is necessary to this end that the Superintendent should be permitted to supply himself with iron in the cheapest market.

5. I therefore venture to urge that an exception should be made in this case to the general rule of materials indented for being charged to certain specified allotments, which could not be complied with in preparing the Workshop Indent; and, if insisted on, would deprive it of the advantage of indenting home, through the Public Works Stores.

No. 295. ORDER THEREON, 16th December 1865, No. 3,777.

ACCOUNT, No. 36.

Under existing rules, the large quantity of iron which the Superintending Engineer of the 1st Division states to be required for one year's consumption in the Dowlaishweram Workshops cannot be specially ordered from England, unless a statement be furnished of the works upon which it is intended to be used: but the indents submitted by Captain Ryves will be transferred to the Store Department, with instructions to prepare the general Indent upon the Home Government with reference to the amount of material which is likely to be required by the Dowlaishweram Workshops from the Public Works Stores at the Presidency.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer of the 1st Division.
,, Officer in charge of the Store Department, with Indent in triplicate.

Superintending Engineer's
Office, 1st Dⁿ, Wallair,
4th November 1865.

From
Captain J. Beatty R.E.
Offg. Supg. Engineer, 1st Dⁿ
To
Colonel C. A. Orr R.E.
Secretary to Govt. D. P.W.

Madras.

Sir,

With reference to G. O. N^o 3109,
of 19th October 1865, I have the honor to
explain that the iron indented for
has not been calculated with reference
to the requirements of particular works,
but to the probable consumption in
one year by the Workshop, which is
prepared to pay at once from its
own funds for all iron received from
the Public Works Stores.

2. Orders for work of different kinds are received in the Workshop daily both from Range Officers and private individuals; and it is found impossible to point out beforehand particular works to which the costs of the annual Indent can fairly be charged.

3. Hitherto the Workshop Superintendent has supplied himself from Calcutta, but this has been found both very expensive, as compared with the probable cost of the same obtained by indenting on merchants at home; and the kinds required cannot always be obtained.

4. Governments have also directed that the Workshop must be self-supporting, and it is necessary to this end that the Superintendent should

should be permitted to supply himself with iron in the cheapest market.

5. Therefore venture to urge that an exception should be made in this case to the general rule of materials indented for, being charged to certain specified allotments, which could not be complied with, in preparing the Workshop Indent; and, if insisted on, would deprive it of the advantage of indenting home, through the Public Works Stores.

I have the honor to be
Sir,

Your Most Obedient Servant,

J. Seatter. Capt. R.E.

Offg. Superintending Engineer, R.E.
